LOUIS S. DANIEL

Louis Daniel Candidate In School Race

Louis S. (Luke) Daniel, Monroe businessman, Friday formally announced his candidacy for a post on the five-man city school board.

Daniel, 33, has lived in Monroe since 1955. The candidate holds a B. B. A. degree in finance and business administration, and served in the Army Finance Corps from 1953-55.

AWARD WINNER

Daniel, past-president of the Monroe Junior Chamber of Commerce, led the Monroe Jaycees to top honors in Louisiana and earned the Outstanding Local President Award. He is married and lives with his wife and two daughters at 2001 Francis Place. The Daniels' older daughter, Robin, is in the second grade at Lexington School, where Daniel is a member of the P. T. A.

The family belong to the First Presbyterian Church. Daniel is president of the Monroe Toastmasters Club, a director in the Monroe Kiwanis Club, and in 1961 was chairman of the Ouachita Parish Heart Fund Drive. He has worked in several United Givers Fund Drives and in 1963 was a member of the UGF speakers bureau. Daniel also served as a state vice-president in the Louisiana Junior Chamber of Commerce.

In announcing his candidacy for the city school board, Daniel made the following statement.

"I offer myself as a candidate and pledge the responsible leadership needed to insure the continued growth of our city-wide educational system so that our children can be better prepared to accept their adult responsibilities.

I have a sincere desire to contribute to the progress of our community. I feel that I can best serve as a member of the school board. I am willing to spend any time necessary to fully carry out the responsibilities of the office. My past civic work is an indication of this, and my educational and business backgrounds demonstrate my ability.

"My experience in community work has taught me to work effectively with other serious, dedicated men, and I will work competently with the other board members.

"Well trained and fully educated youth are the community's prime asset, and we must provide them with modern and progressive schools staffed by dedicated educators and administrators.

"How well our business, social, and governmental community operates tomorrow will

Passman Blasts New Farm Bill

WASHINGTON (AP) — Rep. Otto E. Passman, D-La., served notice Friday he will oppose the cotton-wheat bill, passed by the Senate, when it comes before the House, probably early next month.

The House earlier passed a cotton bill. The Senate added a wheat provision.

Passman said the cotton section of the bill would "drastically damage" cotton farmers in Louisiana and other Southern states while favoring production of the crop in the West.

"The bill also would have the effect of taking Louisiana a grown cotton out of the export trade," Passman said.

This could come about, he said, because the overplant provisions of the plan include the posting of a performance bond to move cotton into world trade and that such a requirement would be out of the question for producers in his area.

Passman also contended the bill would allow the Secretary of Agriculture to decide the exact amount of the domestic cotton-acreage allotment and that it would create a higher handling cost for the government.

CUBAN BLOCKADE

Rusk Hits Advice By Fulbright For Stopping Boycott

WASHINGTON (AP) — Secretary of State Dean Rusk rejected Friday Sen. J. W. Fulbright's call for an end to the administration's Cuba boycott policy. Rusk said Fidel Castro is "more than a nuisance — he is a threat to this hemisphere."

But Rusk agreed with other major segments of the controversial speech by the Arkansas Democrat, chairman of the Senate Foreign Relations Committee, which has stoked election year foreign debate.

PRINCIPAL TOPIC

Fulbright's Wednesday speech was a principal topic at a half-hour news conference held by the secretary of state.

The senator had described as a failure the administration's policy of undermining Castro by diplomatic and economic boycott. Fulbright said it will not work in the future because other Western nations will continue to trade with the Havana regime. And he saw Castro as "a nuisance but not a grave threat" to the United States.

Rusk acknowledged that "economic isolation of Cuba has not been complete." But he said there has been "very substantial" success in reducing free world trade, shipping and travel contacts with the island.

He ruled out a shift away

from the boycott policy unless the Castro government gives up its military-political ties with Moscow and its efforts at subversion in the Americas. And he said Castro is showing no signs of doing this.

In calling Castro a threat to this hemisphere, he cited in particular the "very direct threat through arms" to overthrow the Venezuelan "constitutional and democratic government" at election time last December. A large cache of Cuban-origin arms was found in the South American country.

"I do not want to get into an argument with the secretary," Fulbright told a reporter later Friday. "I made my views known in my speech. I hope it will stimulate consideration of our present course by all thoughtful Americans."

The secretary of state had kind words for Fulbright's main thesis that "old myths" should be succeeded by new foreign policy concepts in the light of present day realities. He said that the administration, in fact, has been facing up to realities in its foreign policy.

U.S. Fliers Returned In Good Health

Soviets Maintain Plane Flew Over On Spy Mission

WIESBADEN, Germany (AP) — Two U.S. fliers were released Friday by the Soviet Union and arrived in Wiesbaden in apparent good health 17 days after a Soviet fighter shot down their reconnaissance plane March 10.

The Soviet Union and Communist East Germany repeated charges that their plane flew over East Germany deliberately "for purposes of military reconnaissance" but were "expelled" because Washington expressed regrets.

Capt. David I. Holland, 35, Holland, Minn., and Melvin J. Kessler, 30, Philadelphia, ar-

See Picture Page 4B

rived at the Allies' checkpoint at Helmstedt on the East German frontier in an Army sedan.

Their car barely halted before picking up speed again and heading down the autobahn, preceded by a German police car, to Hannover. From there an Air Force plane flew them to U.S. Air Force European headquarters in Wiesbaden.

A third airman aboard the downed plane, Lt. Harold W. Welch, 24, of Detroit, was released March 21. Welch was the only one injured when the three parachuted from their plane 20 miles inside East Germany. He suffered arm and leg fractures.

On their arrival at Wiesbaden, the two pilots were taken to an Air Force hospital for observation. A spokesman said they would remain there for some time.

Neither pilot showed any facial expression that would indicate his feelings on being returned.

Arkansas Jet Bomber Crash Fatal For Five

JACKSONVILLE, Ark. (UPI) — A B47 jet bomber, its tail blown off and burning from a small explosion, Friday nose-dived straight down into a barn where two young boys were playing.

All four men aboard the plane and one of the boys were killed. The other boy was injured critically. One of the airman, 1st Lt. L. V. Christian, 27, the copilot, tried to eject at the last minute. His body hurtled through the roof of another barn a quarter-mile away.

The two boys were burned by flaming jet fuel. One of them, Richard Butler, 9, was dead on arrival at a hospital. The other, Gary Davenport, 10, was in very critical condition.

The other dead man aboard the plane was identified as Lt. Col. R. W. Hurdiss, 43, the pilot; navigator 1st Lt. M. B. Keller, 24, and a passenger, Lt. Col. L. M. Dykes, 43, director of operations for the 825th Strategic Aerospace Division, the main unit at Little Rock Air Force Base, a Strategic Air Command (SAC) base.

Officials at the base said the four-jet B47 was on a routine training mission and was not carrying a nuclear weapon. It had just left the base on a rocket-assisted takeoff.

The control tower said the tail of the airplane caught fire before it left the ground, and that the pilot evidently was trying to get high enough that the crew could eject safely. The craft was moving to fast to stay on the ground.

One officer at the base said it appeared to him that one of the series of rockets used in the takeoff malfunctioned and caused the fire.

Jimmy Sizemore, manager of Jacksonville radio station KGRM said he was returning to his office when he saw the flaming tail section of the plane suddenly explode.

The Street of Sorrows, or Via Dolorosa, was surging with prayerful crowds but the scene was orderly—unlike the chaos of January when Pope Paul VI was mobbed and jostled by crowds watching history's first papal pilgrimage to the Holy Land.

Those in the Good Friday procession halted and prayed at the 14 Stations of the Cross marking incidents on Christ's path—where He stumbled and fell or where He blessed the women of Jerusalem. It wound through streets covered by vaulted stone arches and crowded bazaar where flocks of sheep and heavily laden donkeys jostled the worshippers.

The control tower said the tail of the airplane caught fire before it left the ground, and that the pilot evidently was trying to get high enough that the crew could eject safely. The craft was moving to fast to stay on the ground.

One officer at the base said it appeared to him that one of the series of rockets used in the takeoff malfunctioned and caused the fire.

Tulips And Dutch Windmills

This is tulip time in Northeast Louisiana and in many areas there is a riot of color. As part of the state tourism program, many residents in this area have planted the colorful flowers this year. Tulip beds, similar to the color photo above, can be seen

throughout the area, and particularly in Monroe, West Monroe, Tallulah, Newellton and St. Joseph. It would be worth your time to visit the scenic spots today and Sunday. See map page 2-A (Staff Photo and Color)

Area Tulips Bright-Hued For Tourists

By MARY ANNE CORPIN
Staff Writer

More than 100,000 tulips in bloom throughout northeast Louisiana are providing a new tourist attraction this Easter weekend.

The multi-colored tulips stand out from several hundred thousand other flowers, flowering trees and bushes in the brilliant display which was a year in the planning.

SPECIAL SHOWS

Special tulip shows — a festival in Newellton, a privately sponsored garden in West Monroe — highlight the display.

Tourists on the Tulip Trail will proceed from West Monroe along U. S. Highway 80 eastward through Monroe to Tallulah, then south on new U. S. Highway 65 to Newellton, make a loop to St. Joseph, then back to the intersection of Louisiana Highway 4 at Newellton to Winneshboro and U. S. Highway 165 back to Monroe.

More than 50,000 tulips are planted at Newellton — 30,000 in special arrangements on the highway just outside the town. On Verona plantation fronting on U. S. Highway 65, E. R. McDonald Sr. has planted an acre of tulips, in special arrangements.

One display is a mantle of lavender tulips, and a chimney of golden tulips.

Nearly is an eye-catching arrangement of 5,000 tulips, surrounded by 2,000 blue pansies, 2,000 mixed anemones and with a background of golden iris and hybrid pink pansies.

Throughout the community, "You won't be out of sight of

Showers Seen For Area Today

Twin City residents may get only glimpses of the sun today as skies are forecast to be cloud-filled throughout the day with isolated showers and thundershowers dotting the area and ending tonight.

The rather cool weather snap for this time of year will give way only briefly today with the high temperature expected to be 68 to 72.

Cold air will move in tonight plunging the mercury to near the freezing mark with a low of 32 to 36 forecast.

The high temperature record Friday was 71 with a morning low of 38.

Winds today will be fairly brisk from the south and southeast with gusts of 8 to 18 miles per hour, shifting to northerly and pushing in cool air tonight.

The rather cool weather snap for this time of year will give way only briefly today with the high temperature expected to be 68 to 72.

Cold air will move in tonight plunging the mercury to near the freezing mark with a low of 32 to 36 forecast.

The high temperature record Friday was 71 with a morning low of 38.

GAMBLING TO CEASE

Faubus Rules Out Hot Springs Bets

LITTLE ROCK, Ark. (AP) — Gov. Orval E. Faubus brought down the ax Friday on wide open gambling in the mountain resort city of Hot Springs.

He told Hot Springs officials to shut down illegal gambling or he would send state police to do the job.

Faubus' ultimatum came while the U.S. Justice Department was carrying on an investigation of the resort's illegal gambling activities, which it called the biggest in the United States.

POLICE OBEY

The Hot Springs police chief and district attorney said they would carry out the governor's orders.

Faubus said he thought the swanky casinos and seamy dives should close within 48 hours, but he said he would set no time limit.

The governor acted one day after the Arkansas House of Representatives adopted 91-3 a resolution calling on Hot Springs officials to stop illegal gambling.

It was not binding, but Faubus said he took it as a mandate of the way the state feels about the issue.

Several state legislators said that Faubus' action was a political move aimed at removing an issue in this summer's primary election campaign.

Faubus hasn't said whether he will seek a sixth term.

Faubus' critics have assailed him for his previous position that Hot Springs gambling was a local issue and the state should not move in unless asked.

The governor's supporters scuttled an antigambling bill in the 1963 legislature.

Illegal gambling — roulette, dice, cards — has flourished for

SOS STAMPED OUT

Mother, Children Rescued In Snow

EASTON, Wash. (AP) — A young mother who stamped an S-O-S in the snow was rescued with her two children Friday from the scene of a mountain plane crash in which her stepfather was killed.

The mother, Lynn Rein, 23, of Seattle, saved her young daughters by bundling them in a suitcase through the cold night.

The stepfather, Robert Kitts of Wenatchee, Wash., was flying Mrs. Rein and daughters Michele, 3, and Christine, 3 months, to Seattle when the light plane's engine quit over a remote mountain area north of here.

Mrs. Rein said Kitts tried to glide to a safe landing.

"He told me to put the babies in the back of the plane and to strap the safety belts," she told a reporter. "We were dropping fast. It was black."

"I stayed up in front with

High Death Toll Feared In Disaster

FAIRBANKS, Alaska (AP) — The main street of Anchorage, this state's largest city, was reported leveled by an earthquake Friday night and word from a half dozen cities in the area told of damage. Six persons were reported dead in Anchorage.

Gov. William A. Egan called an emergency meeting of his Cabinet in Juneau. He said Gen. Andy Lipscombe, chief of the Army's Yukon command here, had reported Anchorage's main street "completely flattened."

HOMES GONE

A state trooper in Kenai said he had radio contact with Anchorage. He reported to Civil Defense officials here that things were "pretty tragic out there."

He said about 50 homes on Turnagain Bluff had gone over the cliff, although the number had not been confirmed. The trooper said Presbyterian Hospital in Anchorage and the hospital at Elmendorf Air Force Base had been evacuated. A third hospital in Anchorage was taking in the injured.

Most communications with the city of 48,000 persons were cut off. All airports were unusable and a hangar collapsed on aircraft at the Elmendorf AFB in Anchorage.

There were no immediate reports of injuries.

There was a report from Vince Chellis, Civil Defense coordinator, that Seward was "half gone and on fire." A Standard Oil tanker was tied up there when the earthquake hit, but apparently broke away and was burning in the bay.

At Kodiak City, the Navy was evacuating its base for fear of a tidal wave. All people living at Cook Inlet, at whose head lies Anchorage, were ordered (Continued on Page Six-A)

Tremor Causes High Waves In South Louisiana

NEW ORLEANS (AP) — The earth moved slightly over southern Louisiana Friday night, churning sudden waves up to six feet in rivers and bayous.

Some small boats were overturned or smashed, but there were no reports of injuries or major property damage.

The earth movement, more of a rolling action, occurred approximately the same hour as the major earthquake in Alaska.

"The water rose about six feet above normal all at once," said O. C. Buxton, night watchman at New Orleans' Industrial Canal.

"It was one of the wildest scenes I've seen in a long time," he said. "The water was rolling, barges began to move in and out and the lines (holding the barges) began to turn and break."

The Lafourche Parish sheriff's office reported five and six foot waves on Bayou Lafourche knocked several boats onto docks and smashed them up.

Similar waves came from other coastal areas below New Orleans. Roads in some areas were quickly covered by rising waters.

At Baton Rouge, Albert E. Kent said the Amite River had virtually no movement, "then all of a sudden, water came in waves four feet high." He said (Continued on Page Six-A)

NEW OFFICERS

Betts was supported by other speakers at concluding sessions of the two-day annual meeting which also saw new officers assume their posts in the ORVA.

Outgoing president Grayson Guthrie of Monroe was named chairman of the board and Edward Cox of El Dorado moved into the presidency.

The morning session was held in the Randolph Hotel while the afternoon meet was held in the Garrett Hotel, across the street.

In addition to Betts, principal speakers were Guthrie, Marvin Wood, director of the Arkansas Water Pollution Control Commission; Col. Milton Barachford, director of the Port Commission at Greenville, Miss.; Everett T. Winter, executive vice president of the Mississippi Valley Association and Rep. Oren Harris.

Guthrie was presented a

HOLY LAND PILGRIMS

Big Crosses Borne Along Christ's Path

JERUSALEM, Jordan Sector (AP) — Bowed beneath the weight of heavy crosses, throngs of pilgrims from around the world followed Christ's path to Calvary this Good Friday, singing and praying in the twisted stone-paved streets of Old Jerusalem.

From the arches of the Moslem schoolyard—once Pontius Pilate's fortress where Jesus was condemned to death—more than 2,000 worshippers set out along the Street of Sorrows, retracing Christ's last footsteps and chanting his words, "My God, why hast Thou forsaken Me?"

Easter celebrations began in the brief spring sunshine inside the ancient walls that ring the Holy City, and Jerusalem began filling with the 10,000 Christian visitors the Jordan government expects to make the pilgrimage this year.

The solemn pageantry opened at daybreak as the great wooden doors of the Church of the Holy Sepulcher creaked wide and 2,000 worshippers crowded into the tottering rotunda that

Christian tradition holds houses the marble tomb of Christ.

A member of a Moslem family swung open the doors—Moslems have guarded the keys to the church since the Middle Ages, when Christians fought each other for their possession—and ailing Roman Catholic Patriarch Alberto Gori walked behind his sword-bearing dragoon to celebrate services on Calvary.

The Street of Sorrows, or Via Dolorosa, was surging with prayerful crowds but the scene was orderly—unlike the chaos of January when Pope Paul VI was mobbed and jostled by crowds watching history's first papal pilgrimage to the Holy Land.

Those in the Good Friday procession halted and prayed at the 14 Stations of the Cross marking incidents on Christ's path—where He stumbled and fell or where He blessed the women of Jerusalem. It wound through streets covered by hauled stone arches and crowded bazaars where flocks of sheep and heavily laden donkeys jostled the worshippers.

U.S. Fliers Returned In Good Health

Soviets Maintain Plane Flew Over On Spy Mission

WIESBADEN, Germany (AP) — Two U.S. fliers were released Friday by the Soviet Union and arrived in Wiesbaden in apparent good health 17 days after a Soviet fighter shot down their reconnaissance plane March 10.

The Soviet Union and Communist East Germany repeated charges that their plane flew over East Germany deliberately "for purposes of military reconnaissance" but were "expelled" because Washington expressed regrets.

Capt. David I. Holland, 35, Holland, Minn., and Melvin J. Kessler, 30, Philadelphia, arrived at the Allies' checkpoint at Helmstedt on the East German frontier in an Army sedan.

Their car barely halted before picking up speed again and heading down the autobahn, preceded by a German police car, to Hannover. From there an Air Force plane flew them to U.S. Air Force European headquarters in Wiesbaden.

A third airman aboard the downed plane, Lt. Harold W. Welch, 24, of Detroit, was released March 21. Welch was the only one injured when the three parachuted from their plane 20 miles inside East Germany. He suffered arm and leg fractures.

On their arrival at Wiesbaden, the two pilots were taken to an Air Force hospital for observation. A spokesman said they would remain there for some time.

The rather cool weather snap for this time of year will give way only briefly to the high temperature expected to be 68 to 72. Cold air will move in to near the freezing mark with a low of 32 to 36 forecast.

The high temperature record Friday was 71 with a morning low of 38.

Winds today will be fairly brisk from the south and southeast with gusts of 8 to 18 miles per hour, shifting to northerly and pushing in cool air tonight.

GAMBLING TO CEASE

Faubus Rules Out Hot Springs Bets

LITTLE ROCK, Ark. (AP) — Gov. Orval E. Faubus brought down the ax Friday on wide open gambling in the mountain resort city of Hot Springs.

He told Hot Springs officials to shut down illegal gambling or he would send state police to do the job.

Faubus' ultimatum came while the U.S. Justice Department was carrying on an investigation of the resort's illegal gambling activities, which it called the biggest in the United States.

POLICE OBEY

The Hot Springs police chief and district attorney said they would carry out the governor's orders.

Faubus said he thought the swanky casinos and seamy dives should close within 48 hours, but he said he would set no time limit.

The governor acted one day after the Arkansas House of Representatives adopted 91-3 a resolution calling on Hot Springs officials to stop illegal gambling.

It was not binding, but Faubus said he took it as a mandate of the way the state feels about the issue.

Several state legislators said that Faubus' action was a political move aimed at removing an issue in this summer's primary election campaign.

Faubus hasn't said whether he will seek a sixth term.

Faubus' critics have assailed him for his previous position that Hot Springs gambling was a local issue and the state should not move in unless asked.

The governor's supporters scuttled an antigambling bill in the 1963 legislature. Illegal gambling — roulette, dice, cards — has flourished for

SOS STAMPED OUT

Mother, Children Rescued In Snow

EASTON, Wash. (AP) — A young mother who stamped an S-O-S in the snow was rescued with her two children Friday from the scene of a mountain plane crash in which her stepfather was killed.

The mother, Lynn Rein, 23, of Seattle, saved her young daughters by bundling them in a suitcase through the cold night.

The stepfather, Robert Kitts of Wenatchee, Wash., was flying Mrs. Rein and daughters Michele, 3, and Christine, 3 months, to Seattle when the light plane's engine quit over a remote mountain area north of here.

Mrs. Rein said Kitts tried to glide to a safe landing.

"He told me to put the babies in the back of the plane and to strap the safety belts," she told a reporter. "We were dropping fast. It was black."

"I stayed up in front with

almost a century in Hot Springs, a city of 28,337 in a mountain valley 45 miles west of Little Rock.

State Sen. Q. Byrum Hurst of Hot Springs announced that a petition campaign would be started by Hot Springs interests to get local option gambling on the November general election ballot. The only gambling now legal in Arkansas is parimutuel betting at Oaklawn Park horse race track in Hot Springs and at a dog racing track in West Memphis.

Faubus said he thought it would be a good idea to put gambling to a vote of the people.

"The move might succeed if the act would restrict gambling to Garland County (Hot Springs)," Faubus said.

Hot Springs city officials, who contend gambling is home-owned, free of corruption, and important industry, were crushed.

Britain Orbits

Second Satellite

WASHINGTON (AP) — Britain's second satellite, Ariel II, roared skyward from the Virginia coast Friday and entered a high, wide and informative orbit around the earth.

On its first pass over the United States, the satellite returned four minutes of experimental data to tracking stations on the ground.

Similar waves came from other coastal areas below New Orleans. Roads in some areas were quickly covered by rising waters.

At Baton Rouge, Albert E. Kent said the Amite River had virtually no movement, "then all of a sudden, water came in waves four feet high." He said

him. As were going down we hit a tree; then I don't remember anything for a few moments. Bob never woke up. Something went through his neck."

Mrs. Rein said she pulled the two children from the wreckage.

"I grabbed Michele's suitcase and opened it and put them in it for a bed and covered them with all the clothes I could find. We just huddled together and waited. It seemed like the night would never end."

"Then I tramped an S-O-S in the snow. I heard the planes flying last night. All three of us tried to crawl into the suitcase to keep warm but I was too big to fit. It was terribly cold."

Search pilots sighted the S-O-S and the three were rescued by helicopter. Mrs. Rein had only a bruised elbow and knees. The children were unhurt.

High Death Toll Feared In Disaster

FAIRBANKS, Alaska (AP) — The main street of Anchorage, this state's largest city, was reported leveled by an earthquake Friday night and word from a half dozen cities in the area told of damage. Six persons were reported dead in Anchorage.

Gov. William A. Egan called an emergency meeting of his Cabinet in Juneau. He said Gen. Andy Lipscombe, chief of the Army's Yukon command here, had reported Anchorage's main street "completely flattened."

HOMES GONE

A state trooper in Kenai said he had radio contact with Anchorage. He reported to Civil Defense officials here that things were "pretty tragic up there."

He said about 50 homes on Turnagain Bluff had gone over the cliff, although the number had not been confirmed. The trooper said Presbyterian Hospital in Anchorage and the hospital at Elmendorf Air Force Base had been evacuated. A third hospital in Anchorage was taking in the injured.

Most communications with the city of 48,000 persons were cut off. All airports were unusable and a hangar collapsed on aircraft at the Elmendorf AFB in Anchorage.

There were no immediate reports of injuries.

There was a report from Vince Chellis, Civil Defense coordinator, that Seward was "half gone and on fire." A Standard Oil tanker was tied up there when the earthquake hit, but apparently broke away and was burning in the bay.

At Kodiak City, the Navy was evacuating its base for fear of a tidal wave. All people living at Cook Inlet, at whose head lies Anchorage, were ordered

(Continued on Page Six-A)

Tremor Causes High Waves In South Louisiana

NEW ORLEANS (AP) — The earth moved slightly over southern Louisiana Friday night, churning sudden waves up to six feet in rivers and bays.

Some small boats were overturned or smashed, but there were no reports of injuries or major property damage.

The earth movement, more of a rolling action, occurred approximately the same hour as the major earthquake in Alaska.

"The water rose about six feet above normal all at once," said O. C. Buxton, night watchman at New Orleans' Industrial Canal.

"It was one of the wildest scenes I've seen in a long time," he said. "The water was rolling, barges began to move in and out and the lines (holding the barges) began to turn and break."

The Lafourche Parish sheriff's office reported five and six foot waves on Bayou Lafourche knocked several boats onto docks and smashed them up.

Similar waves came from other coastal areas below New Orleans. Roads in some areas were quickly covered by rising waters. At Baton Rouge, Albert E. Kent said the Amite River had virtually no movement, "then all of a sudden, water came in waves four feet high." He said

If you have a question you want answered, write or call "Mr. Editor, Tell Me, Please" at the Morning World and News-Star. We'll be glad to get the information and pass it on to you each Saturday in this column.

In what year did the stars fall and what damage did they do?

This is a myth. The stars are larger than earth and would have destroyed the solar system had they "fallen." It is generally believed that shooting stars — or comets — are what are thought to be falling stars. The sun is believed by astronomers (scientists who study the stars and planets) to be a typical star. It is 300,000 times the size of earth. You can imagine what would happen if the sun should crash into earth.

Why is the law on dogs not enforced in West Monroe? Newly-planted flower beds are ruined by dogs barking bones in my neighborhood. If this is reported to the police, they come to see the owners and this causes enemies among the neighbors. These dogs also turn over garbage barrels looking for food.

West Monroe's ordinance concerning dogs provides that owners must keep their animals "under control" when off the property. If the dogs involved are stray dogs, notify the West Monroe police department and they will be picked up. If the animals belong to your neighbors, perhaps a talk with the owners would help the situation. If the owners refuse to cooperate, you have the privilege of calling the police department, and they will see that the ordinance is enforced.

Do you consult the district attorney or a lawyer to draw up a will? Can the children come in and claim

TULIP GARDENS
West Monroe
Tallulah
Newellton
St. Joseph

THIS DRAWING shows you at a quick glance where the tulip gardens in Northeast Louisiana are located, and what highways to travel. A nice Saturday or Sunday afternoon drive would be to visit the gardens, starting in Mon-

roe and West Monroe. Next stop along highway 80 would be Tallulah, then down 65 to Newellton, then on to St. Joseph where the last beds are located. You could return to Monroe via Winn-boro. (Staff Drawing)

ces cannot exceed a combined total of \$2500.

If Glenwood Hospital is a Ward 5 hospital, why don't they hire 'Ward 5 people?' Ewell Singleton, hospital administrator, said "Over 70 per cent of our people are Ward 5 people. Twenty-five per cent of our people are from Monroe; three per cent of our people are from other areas."

What is the law concerning political activities of civil service employees? What is the penalty for violations? How can a private citizen go about getting a violator prosecuted? Generally speaking, according to the state civil service administration, classified employees are prohibited from taking part in political campaigns. They can't make speeches or publicly engaged in partisan politics. They can, however, vote or serve as a commissioner.

Enforcement of the law is a matter for the Civil Service Commission. If a hearing is held, then the commission assesses the penalty that in their judgement fits the violation. They may reprimand, suspend without pay or order the violator dismissed. In extreme cases, the violator can be dismissed and barred for 10 years from working with the state.

As to what a citizen can do when he knows of a violation, he should report it to the Department of Civil Service in Baton Rouge and an investigation will be made.

If the Salvation Army is a church, why is it supported by the United Givers Fund? The United Givers Fund does not support the church activities and portion of the Salvation Army work. UGF gives financial aid to the character building, welfare and transit programs of the Salvation Army. So, UGF aid does not go toward the Salvation Army's religious activity, according to Capt. R. C. Greene, local unit commander.

Could you please tell me how you go about getting a used car dealer's license? How much do they cost?

One of the first steps in getting a used car dealer's license is to obtain a U number from the state. This can be done by writing the Department of Revenue at Baton Rouge. Another city operating license is necessary which costs five dollars in Monroe. This is applied for and purchased at the department of revenue office in Monroe.

How much property, money, etc., may a person own and still be eligible for state old-age benefits? The Department of Public Welfare says that in urban property, the house does not count unless the assessed valuation is over \$5000. In rural property, a house and 40 acres is permitted if the house is on the 40 acres.

Any property other than the house is excess property. For a single person, this cannot exceed an evaluation of \$1500; a married couple can have \$2000 worth of other property.

In cash or cash equivalence, a single person can have \$500, a couple \$1000. Outside resour-

Area Tulips Bright-Hued For Tourists

Tulips for more than a few moments. Windmills are set up on either side of town, and four little boys and girls dressed in authentic Dutch costumes from Holland will greet visitors, invite them to sign the guest books, and present them with maps showing the tulip route through town.

West Monroe residents ordered and planted more than 40,000 tulips in a Chamber of Commerce-sponsored project which is paying off in floral arrangements throughout the city.

At 1307 Parnell St., a display expected to last into May is in its second week at Bagwell's Gardens, where tulips in a special garden show are drawing the tourists.

The Ouachita Parish Detention Home on the Milhaven Road just outside Monroe has a tulip display.

Much of the northside of Monroe and the residential section of Rayville feature flowering shrubs and trees.

Lavender wisteria trees, the misty lilac haze of redbud trees, white dogwood, plum, peach and

Postal Office At Sligo Closes
The post office at Sligo, a community of 75 eight miles southeast of Shreveport, closed Friday after 70 years of service. It is a victim of the federal administration's decision to reduce postal costs.

According to Shreveport Times Staff Writer John Moody, the most unique feature of the facility is that a postmaster named Skannal has been in charge since it started March 30, 1894.

WEST MONROE BANQUET
McKeithen Sets Policy Address
"Louisiana at the Crossroads" entitled to increased pay. It may well be that the recommendations of the Civil Service Commission might meet with approval, provided we can find the necessary funds."

The Columbia official revealed the talk subject Friday in a phone conversation with Chamber Manager Eugene Smith and later in comments to newsmen at Baton Rouge. His remarks ranged from pay raises to committee appointments.

McKeithen's appearance will highlight the Chamber event at 7:30 p.m. in the cafeteria of West Monroe High School. Mrs. McKeithen will accompany the governor-elect.

The banquet also will include installation of new officers; to be announced at the event, and five new directors—Dr. Richard C. Curry, Jasper Jones, Sid Jackson, Ben Farmer and Bill Reighney.

In Baton Rouge Friday, McKeithen announced several committee appointments and went on to say that justified pay raises for state workers "have not been ruled out," though one of his announced aims is reduction of government costs.

On Gov. Jimmie H. Davis' desk was a proposed \$10.5 million pay raise for civil service workers, but a spokesman for the governor said he may let it lay over until McKeithen takes office May 12.

McKeithen said he had not seen the recommended pay raises.

But, he said, "I feel strongly that lower paid employees are

their part immediately upon the death of one parent? Also, what is the usual fee for this kind of help?

Any lawyer will be able to draw up a will and advise you on the other parts of your question.

Is it against the law to have chickens within the city limits of Monroe?

Although the City of Monroe Code lists no regulation concerning chickens, it is unlawful to keep other types of domestic animals within the city limits without a written permit from the city health authorities.

What is the address of the famous nuclear physicist, Dr. Fred Whipple?

In the 1962-63 Who's Who in America there is a Dr. Fred Lawrence Whipple, a very distinguished scientist, but he is listed as an astronomer. His present home address is: 35 Elizabeth Road, Delmont, 78, Massachusetts. His office address: 60 Garden St., Cambridge, 38, Massachusetts.

If this is the right Dr. Whipple, and he was the only one listed as Fred in Who's Who, he has been a staff member of Harvard College Observatory since 1931, a director of the Smithsonian Astrophysical Observatory since 1955, a member of the Rocket Scientific Panel since 1946, and a member of the U.S. National Committee Technical Panel on Earth Satellite Programs since 1955.

When the Credit Bureau gives an unsatisfactory rating for a person, how long does it take to raise your rating, and does the Credit Bureau ever change its records accordingly?

The Credit Bureau is essentially a reporting organization, and if for example, an unsatisfactory account is sent in on a person, that report is recorded and filed in records kept in be settled that also is recorded and filed in record kept in definitely.

Should a person, for example, move to another town and wish to establish a credit rating there, the Credit Bureau in that town would contact the local bureau and a copy of the records would be sent to the bureau in the other town.

Does a person have to have his birth certificate changed, if all other records including school records, selective service registration, social security card, marriage license and work records show the name of a step-father when there was never a legal adoption? It is impossible to answer this concretely because of lack of all the details and purpose of the

name change. But judging from the information given, if you have never been legally adopted your legal name would still be the one on the birth certificate. It would seem, from the information given, and, assuming you haven't, that it would be necessary to have your name changed legally by presenting a petition to the court. However, we suggest you see an attorney.

Is Oliver Road within the city limits? If it is then why isn't it posted with speed limits like other city streets? If it is not then why doesn't the parish or state put up speed signs?

All portions of Oliver Road are not in the city limits of Monroe, and consequently, the maintenance of traffic signs is a joint project between the City of Monroe and Ouachita Parish. For that portion within the city limits, from Beechwood Drive to Loop Road, the city is responsible for signs. From Hudson Lane to Beechwood Drive is parish-maintained. This being the case, in order to answer your question properly, we will need to know to what part of Oliver Road you are referring.

Why is there a four-way stop at the corner of South College Avenue and Blanks Street? With Blanks Street being a one-way street going west, why is there a need for a stop on South College at all?

Under the present Monroe City ordinance, Blanks Street is one way in a westerly direction from Sherrouse Avenue to South College Avenue. The four-way stop is intended as a traffic breaker where Blanks becomes a two-way street, according to the Monroe police department.

Why were timber cutters given a three-year extension on their contracts to cut timber out of Cheniere Lake?

Timber cutters have been granted no extension. Robert Downing, Cheniere Lake commission chairman, said, When Ouachita Parish bought the property from Dixie Lumber Co. about five years ago, the lumber company reserved the timber rights in the lake until 1966, Downing said.

Until 1966, the parish will have no control over the cutting of timber in the lake. After 1966, the rights will revert to the Ouachita Parish Police Jury and will be owned by the parish, Downing added.

Could you please tell me how you go about getting a used car dealer's license? How much do they cost?

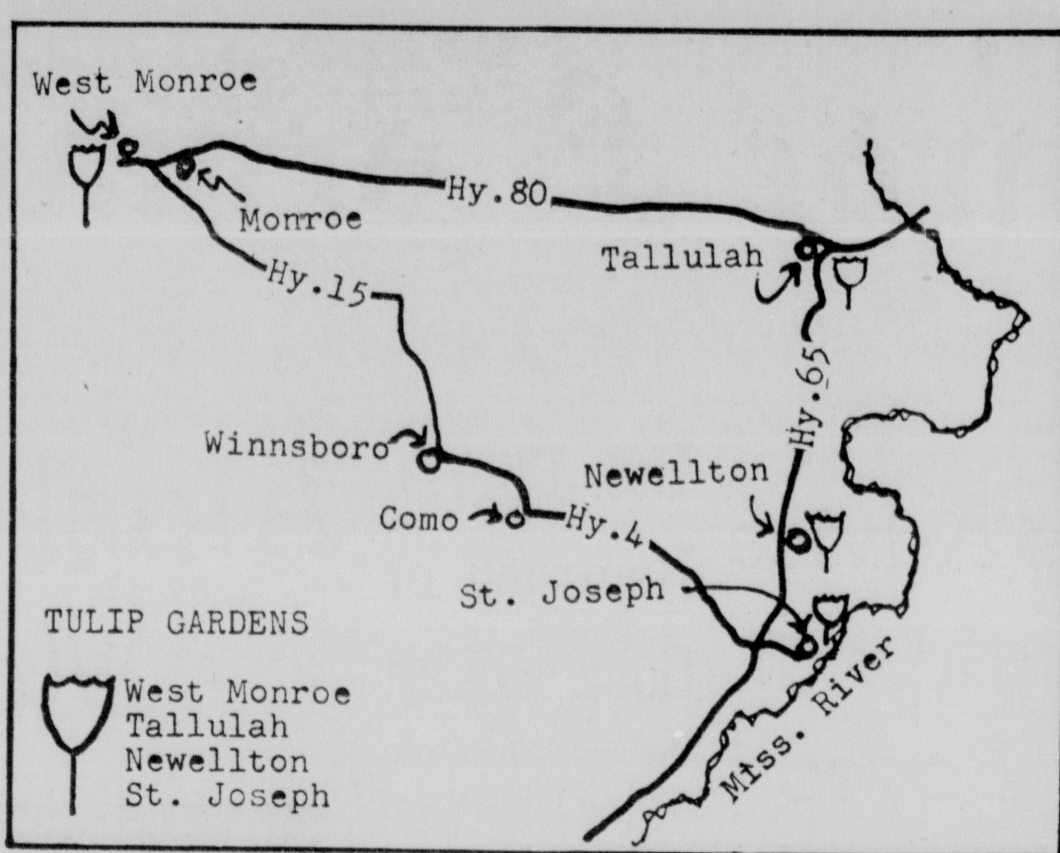

One of the first steps in getting a used car dealer's license is to obtain a U number from the state. This can be done by writing the Department of Revenue at Baton Rouge. WEST MONROE BANQUET

McKeithen Sets Policy Address

"Louisiana at the Crossroads" will be the title of a "policy address" to be delivered Thursday by Gov.-Elect John J. McKeithen at the annual banquet of the West Monroe Chamber of Commerce.

The Columbia official revealed the talk subject Friday in a phone conversation with Chamber Manager Eugene Smith and later in comments to newsmen at Baton Rouge. His remarks ranged from pay raises to committee appointments.

McKeithen's appearance will highlight the Chamber event at 7:30 p.m. in the cafeteria of West Monroe High School. Mrs. McKeithen will accompany the governor-elect.

The banquet also will include installation of new officers; to be announced at the event, and five new directors—Dr. Richard C. Curry, Jasper Jones, Sid Jackson, Ben Farmer and Bill Reighney.

In Baton Rouge Friday, McKeithen announced several committee appointments and went on to say that justified pay raises for state workers "have not been ruled out," though one of his announced aims is reduction of government costs.

On Gov. Jimmie H. Davis' desk was a proposed \$10.5 million pay raise for civil service workers, but a spokesman for the governor said he may let it lay over until McKeithen takes office May 12.

McKeithen said he had not seen the recommended pay raises.

But, he said, "I feel strongly that lower paid employees are

entitled to increased pay. It may well be that the recommendations of the Civil Service Commission might meet with approval, provided we can find the necessary funds."

"We are committed to raising the pay of lower paid employees of the state and our school personnel," he added.

The governor-elect said he had not yet been briefed on the state's financial picture.

He expects to wait until the Legislative Budget Committee completes its work, probably in mid-April, before studying the proposed budget.

McKeithen announced appointment of G. Allen Kimball, Lake Charles, to his committee to coordinate reform legislation with the Council for a Better Louisiana (CABL).

Meanwhile, the chairman of the governor's inaugural committee, Henry Davis, said he planned to call an organization meeting next week.

Davis, director of commerce and industry, is a brother of Gov. Davis.

McKeithen named Mrs. J. T. Willis of Alexandria, Dist. Atty. Cam Minard of Columbia and Val (Sonny) DeVillier of Eunice to the group.

The committee will be in charge of arrangements for the inauguration, to be held at noon May 12.

Other committee members specified by law are state Treasurer A. P. Tugwell, Comptroller Roy Theriot, and the president of the Baton Rouge Chamber of Commerce, Heidel Brown.

Scogin Sells His Interest In Ford Firm

Local businessman J. H. Scogin Jr. has sold his interest in Monroe's Brown-Rivers-Scogin Ford dealership. New name of the firm, effective immediately, is Rivers Ford Inc.

Under the new arrangement, approved Friday by national Ford Motor Company officials, Charles E. Brown, James H. Rivers and Jack L. Rivers have complete ownership of the local Ford franchise.

New president of the corporation, replacing Scogin, is James H. Rivers, former vice president. Jack L. Rivers becomes vice president and former vice president Charles Brown is secretary-treasurer.

Scogin leaves the organization to operate a used car business at the corner of North Third and Washington Streets.

He came to the Twin Cities in 1927 to enter automobile sales. From 1943 until 1953, he operated the Third Street lot.

Scogin, in 1953, and Vagie H. Rivers, father of the Rivers brothers, in 1949, joined the McCain-Richards Ford dealership with W. McCain Sr. and J. W. Richards Sr.

On March 4, 1957, the entire financial interests were acquired by Rivers, Scogin and Charles E. Brown, and in September of the same year the firm's name became Brown-Rivers-Scogin.

With Rivers' death in 1958 management of the family's interest was assumed by the eldest son, James H. Rivers. A short time later, another son, Jack Rivers, joined the ownership.

Physical changes related to the name change, notably a new specially-designed sign at the main business location, 1201 Louisville, are slated for completion by Monday. The firm also operates a West Monroe branch.

No changes in the staff organization were announced Friday in connection with the ownership announcement.

Scogin is current president of the Monroe School Board and a past president of the Monroe Chamber of Commerce. Jim Rivers is a past president of the city's Jaycees. Brown is a former president of the parish.

JAMES H. RIVERS

JACK L. RIVERS

CHARLES E. BROWN

J. H. (SLIM) SCOGIN

United Givers Fund and director of the Monroe Chamber of Commerce.

Jack L. Rivers is well-known in area golfing circles and holds several titles, the most recent of which is the championship in the 1959 Cotton States Tournament at the Bayou de St. Louis Country Club.

75,000 College Students May Fill Resort City

DAYTONA BEACH, Fla. (AP) —City officials estimated Friday that at least 75,000 Easter vacationing college students will jam this resort city before the weekend is over.

"We made a survey of the beach and motel areas today and estimated at least 50,000 are here already," said Police Chief A. O. Folsom Jr.

Police officers were placed on 12-hour shifts with no days off and leaves canceled. Auxiliary police were called in to help handle huge traffic jams caused by student cars.

City officials estimate that at least another 25,000 sun-seeking students from universities in wintry Midwestern and Eastern states will swell the present ranks by Easter Sunday.

"We've had a certain amount of troublemakers," Folsom said, but nothing compared to the riots, near-riots and mass arrests that plagued this city and

Aviatrix Shortens Azores Stopover

SANTA MARIA, The Azores —Aviatrix Jerrie Mock apparently decided Friday night to cut short her stopover in The Azores and to take off Saturday for Casablanca or Dakar.

"If the weather holds, I see no reason why I should not take off at 7 p.m. (4 a.m., EST) tomorrow," she said after a day-long sleep at the Terra Hostia Hotel.

Looking fresh and fit, the Columbus, Ohio, aviatrix was this town's heroine Friday night. She had piloted her Cessna 180 for 13 hours to land at Santa Maria Airport at 7:18 a.m. (4:18 a.m., EST).

Fort Lauderdale several years ago.

Folsom said arrests since the influx started March 17 totaled 350, for an average of 35 a day.

At Fort Lauderdale, 2500 miles to the south, about 5,000 college students also were reported behaving well. About 40 arrests have been made in the past week and a half.

Sen. Aiken Backs Fulbright's Words

WASHINGTON (AP) — Sen. George D. Aiken, R-Vt., endorsed Sen. J. W. Fulbright's challenge to the administration to accept Communist Cuba as a nuisance rather than an intolerable menace to the United States.

Aiken thus differed with many Republicans and some Democrats who have accused the Arkansas Democrat of favoring a policy of appeasement. Fulbright, who is chairman of the Senate Foreign Relations Committee, gave his views on Cuba and questioned several other U.S. foreign policy positions in a lengthy Senate speech on Wednesday.

Aiken, a senior Republican on Fulbright's committee, said Friday he agrees the U.S. boycott of Cuba is a failure and added that even if Western Allies had supported it, "I've never known a country to be starved into democracy."

Aiken, in an interview, said the United States made a mistake when it broke off diplomatic relations with Cuba when Fidel Castro came into power during the Dwight D. Eisenhower administration.

Aiken voiced doubt, as did Fulbright, that Fulbright's proposals will prove popular in a campaign year, but said "if it makes people think, I'm glad he said it."

The Vermont Republican agreed with Fulbright that the United States should lead the way in seeking negotiations with Panama "and stop hunting for words" on which to base an agreement to start discussions over treaty revision and other grievances.

Aiken voiced opposition to what he called Secretary of Defense Robert S. McNamara's "talk of stepped-up war" in South Viet Nam. Fulbright had voiced general agreement with U.S. policy in Viet Nam.

"I'm not the only one who is

scared to death about what Mc-Namara proposes to do indirectly into the war, "and if we go into there with a million men, we couldn't defeat Red China without nuclear weapons." But as for Cuba and Panama ultimately should support an extension of the fighting into North Viet Nam, it almost certainly will bring Red China di-munist bloc, Aiken said Fulbright "gave a correct analysis of the situation." "I doubt if the country is yet ready to go all the way with him, but he is correct when he says Castro is more solidly in control than before our economic boycott," Aiken said.

Fines Assessed In Monroe City Court Session

Judge W. M. Harper fined a 56-year-old Monroe man, Prentice O. East, Majestic Hotel, \$150 or 60 days in jail for use of a dangerous weapon in Monroe City Court Friday.

A West Monroe man, Wallace Williamson, 100 Gulpha Dr., forfeited a \$350 bond for contributing to the delinquency of a minor.

Fined \$100 or 60 days for shoplifting was Isaac Marie Gee, 19, Negro, 2703 Prospect St.

In other action, charges of theft by check were nolle prossed against two persons upon payment of court costs and the check. They were Mrs. Henry Beckly, 25, Rt. 1, Box 240-A; and John Manning, 38, Negro, 1163 N. 8th St., West Monroe.

Forfeiting a \$30 bond for reckless driving was Roman Ruiz, 129 N. Maplewood, Houston, Tex. Fined for this offense were Ralph Givens, 17, 806 N. 7th St., West Monroe, \$30 or 30 days; and James Thomason, 30, 1614 S. 10th St., \$10 or 10 days. Similar charges were nolle prossed against Walter Downs, 19, 2818 Pargoud Dr., and H. E. Bynum, 20, 209 N. 5th St.

Lawrence Luzader, 41, 109 1/2 S. 1st St., West Monroe, was fined \$30 or 30 days for speeding. Forfeiting speeding bonds were Phillip Reeves, 21, 1308 Georgia St., \$40; Stephen Rugg, 18, 406 Grayling Lane, \$10; James Limer III, 32, 2726 Point Dr., \$5; and Johnny Wilhite, 20, 1722 S. 8th St., \$17.

Other cases handled involved minor violations.

Mrs. Kennedy Tries Hand At Skiing On Snow

STOWE, Vt. (AP)—Mrs. John F. Kennedy, an old hand at water skiing, tried a ski slope Friday, and took a couple of spills in her first time out on the snow.

She is here with daughter Caroline, 6, also a beginning skier, for an Easter weekend, along with other members of the late president's family.

Also staying at an inn at the foot of Mt. Mansfield, were Atty. Gen. and Mrs. Robert F. Kennedy, Mrs. Eunice Shriver, and their children.

Sen. Edward M. Kennedy of Massachusetts and his wife were expected to bring 3-year-old John F. Kennedy Jr.

Jacqueline Kennedy skied on the beginners' slope with instructor Pepi Gabl, 44, who coached the U.S. women's world championship ski team in 1958. This is her first visit to Stowe, but other members of the family have skied here in the past.

Breakup Of U.N.

One of the old standby sales pitches for our foreign aid program is the prospect that such money will assure us the cooperation of the newly independent nations of Asia and Africa. Since these new nations have packed the United Nations General Assembly, those who see that organization as the government of the future urge that we continue to seek their friendship.

This is an expensive, heartbreaking position. Even in the dry terms of economics, we are investing in liabilities.

Our civilization is built on a social and economic organization that differs radically from the collectivism of Africa and Asia. Such collectivism as found in Asia and Africa is not necessarily communism or even akin to it.

Many African cultures resemble certain aspects of the old feudal system. Tribes are held together by mutual obligations and services and are run by chieftains, lords and overlords.

There is some private property that has emerged as a result of European influence during the relatively short period of colonial management. But this has not changed the overall system of tribal collectivism.

Western civilization, which has reached one of its higher points in the United States, is built on the struggle of man for individual freedom. From the times of ancient Greece, through the period when Christianity spread over northern Europe, right down to the concepts as expressed in the U. S. Constitution, individual and property rights as well as responsibilities have been the keystone of our development.

When hopes are expressed—and money is appropriated—in the programs designed to bring the “new” nations to our way of thinking, our officials are simply hiding from the facts. Whenever African and Asian leaders have stepped into power, there is a transfer of tribal instinct to a position of greater scope. There is usually wholesale seizure of private property and mistreatment of racial and tribal minorities. How else can we expect these people to behave after cen-

turies of tribal life?

Yet within weeks after they assume national status, they are invited to sit and cast ballots with an organization whose purpose it is to preserve peace and order in the world.

Looking at the influx of new nations into the United Nations, we must draw several logical conclusions. In the first place, our aid money, invested in part to draw political support from the new governments' U. N. delegations, is largely wasted. This aid money is inter-governmental assistance. It goes directly to the chieftains of the Congo, Ghana and Indonesia and other ruling individuals. No matter how educated these leaders might be, they handle goods and wealth according to long-standing instincts and traditions.

Some of these persons may cast votes in the United Nations on the side of the free world for a time, but they cannot be expected to understand why they should continue to do so. When communism makes successful thrusts in their areas, they have already demonstrated their tendency to lean that way.

In 1945, when the U.N. charter was signed in San Francisco, there were only three African members — Egypt, Ethiopia and Liberia. With three members conjured up somehow from the borders of the Soviet Union, communism commanded no more than five votes.

As of January, 1963, there were 35 African, 23 Asian and 13 communist states. There is a new Afro-Asian bloc commanding 62 votes. Today, the United Nations is a family of Afro-Asian countries under implied sponsorship of the Soviet Union with a minority of western observers sitting in.

What choice is there for the United States? On the one hand, we may abide by the majority vote and decision and allow our own society to change and conform to antiquated collectivist systems.

Or the United States could withdraw from the world group, let it pay and go its way of denouncing “colonialism,” while we proudly reasserted our own independent nature.

Protective Dilemma

Though there is an agreement calling for voluntary imitations on beef imports, domestic cattlemen are worried and are pressuring Congress for more definite and permanent protective arrangements.

The cattlemen are afraid that when meat imports begin to rise again in 1965, prices on the U. S. market would drop.

Last month, the Department of Agriculture launched two fresh beef purchase programs. The State Department negotiated with agreements under which Australia, New Zealand and Ireland—three leading beef exporters — pledged to limit shipments in 1964 to the 1962-63 average, a move that would cut back U. S. imports approximately five per cent from current levels.

Cattlemen are not altogether opposed to imports of beef. They believe, however, they do have certain rights to protection, similar to manufacturers of various finished products and basic products such as steel.

They view with alarm the recent drop in cattle prices on the domestic market. In Chicago only a few weeks ago, for example, choice steers sold at \$23 per hundredweight. This was a drop from \$25 per hundredweight a year ago. During the past 15 months, market quotations on beef have fallen by over 20 per cent.

The price decline on the domestic market has paralleled the sharp rise in imports of lower grade beef and veal. So the cattlemen have reached the conclusion they'd better take action in favor of government protective measures. Such could take the form of higher tariffs. But most of the pressures

are now in the direction of lower imports quotas.

There are those who say the American cattle raisers should aim for lower production costs in order to compete with imported meats. For example, a former president of the Texas and Southwestern Cattle Raisers Association and of the American National Cattleman's Association said in a recent speech that they should take a more liberal attitude and counter the imports with cheaper beef production on their own ranches.

But the reason cattle prices in the United States must be higher than those in Australia, New Zealand and Ireland is that factors contributing to the cost of production have climber largely because of government policies and programs.

Costs of land, feed grains, interest rates, taxes and labor are much higher in the United States than elsewhere mainly because of government spending and legislation.

The production cost factor deals with meat prices as a whole. There is another angle, and the key words are the “lower grade beef and veal.” President Johnson, as everyone realizes by now, is entering this election year with his campaign trumpets heralding a “war on poverty.” He has also named a special commission to protect the customer.

However, if such programs prove effective at all, restrictions on foreign beef and veal, which go largely into low-priced meat products, can work only at the expense of the general buying public. In such political churning around, the consumer can easily end up as the forgotten man.

— LIBERALS WOULD SAY I WAS ISOLATIONIST.

ROBERT ALLEN AND PAUL SCOTT

Red Jamming Device Lured U.S. Airplane Off Course

The unarmed RB-66 reconnaissance plane blasted out of the air over East Germany was deliberately lured off its course and to destruction by the Russians.

That's the sensational conclusion of an Air Force intelligence analysis that has been suppressed at State Department insistence.

The startling report indicates the unarmed U.S. plane was diverted from its course by a Soviet jamming device that blacked out the navigational equipment of the RB-66.

This “pied-piper” jamming device, as it has been labeled by Air Force specialists, is described as capable of “substituting” a radar beam for signals being received by a plane from a ground-to-air navigation system — in this instance the U.S. system that was guiding the ill-fated RB-66.

According to the Air Force study, these “pied-piper” jamming devices line the three Allied air corridors at West Berlin, and are located at strategic points along the borders of East and West Germany.

The existence of this sinister Soviet radar jamming device has long been suspected. But the first definite clue was uncovered in Japan.

This revealing incident was as follows: As a large Soviet plane carrying a diplomatic mission neared Japan, U.S. interceptors based there approached to escort

the Red craft. The U.S. planes “locked” their radar on the Russian ship.

To their astonishment, their “lock” was promptly “unlocked.”

This amazing radar disengagement occurred three times in less than 150 miles.

The unpublished Air Force report attributes the loss of the RB-66 over East Germany to the same Soviet radar jamming device. As deduced by air experts, following is what happened:

The navigational radar of the U.S. reconnaissance plane was deliberately blacked out and a Russian signal substituted—luring the RB-66 off course deep into East Germany where it was shot down by MIG interceptors. It is assumed the latter already were airborne and waiting for the unarmed U.S. plane.

Congressional authorities are quietly checking on information that has come to them that in the closely guarded negotiations on the release of the three U.S. airmen, Moscow demanded that no public charge be made they were lured off course.

Also, THAT the U.S. apologize for the plane “straying” over East Germany, and officially affirm it had not been on a “military reconnaissance mission.”

Secretary Rusk did that. It has also been noted in congressional quarters that the State Department chief announced the

release of the imprisoned airmen on a TV program where he could not be questioned about this mystery-shrouded incident.

PEACE CORPS' OTHER SIDE — The dedicated idealism and remarkable achievements of the thousands of young and old Peace Corps enrollees have justly won worldwide acclaim. But there is a little known bureaucratic aspect of the agency that presents a very different picture.

Comfortably nestled in the administrative purview of the Peace Corps is a sizable army of officials and consultants drawing top government salaries — the officials from \$16,000 to \$20,000, and the consultants and experts from \$25 to \$75 a day.

This unpublicized cozy other side of the Peace Corps came to light during the House debate on increasing the agency's budget to a record high of \$115 million.

Representative H. R. Gross, militant economist, sought to cut that back to the \$65,963,000 voted by Congress for the current fiscal year. Supporting this demand, Representative Bob Dole, R-Kans., produced the Corps' surprisingly lush administrative payroll.

DOLE ALSO pointed out that virtually everyone on it has had one or more juicy raises. Following is a summary of his significant disclosure:

Annual Salary No. of Officials	1963-1964
\$20,000	4
\$19,000-plus	4
\$18,000-plus	13
\$17,000-plus	10
\$16,000-plus	16

Of the army of consultants and experts — 14 received \$75 a day; 3 — \$70; 3 — \$65; 4 — \$60; 3 — \$55; 5 — \$50; 5 — \$45; 3 — \$40; 4 — \$35; 1 — \$25.

Said Gross, vigorously urging his proposed 20 million cut, “Why not spend this money on the needy and poverty-stricken in our own country instead of tossing it down some foreign drain. The administration has launched a so-called war-on-poverty program, headed by Mr. Sargent Shriver, who is also head of the Peace Corps.

“Why don't we first take care of the unemployed and needy in this country. There is a lot of talk about that, but the money is being spent for activities in other countries. I believe that good deeds, like charity, should start at home.”

But the Democratic-controlled House decisively rejected his economizing amendment.

THE WIVES of two of President Johnson's close advisers are lawyers in their own right, although only one is practicing her profession. She is Carolyn Fortas, wife of Abe Fortas, among the President's most intimate lieutenants. Mrs. Fortas, who practices under maiden name, Carolyn Agger, is a leading tax attorney and heads a special division in that field in her husband's big corporation law firm. Mrs. Fortas is a cigar smoker, particularly fond of the big ones favored by Winston Churchill. The other lawyer-wife is Mrs. George Reedy, graduate of Fordham Law School, and while she doesn't practice law, she still has a keen legalistic outlook. . . Mrs. Elly M. Peterson, assistant chairman of the Republican National Committee, is considering running against Michigan's Democratic Senator Philip Hart. An astute politician, Mrs. Peterson is being strongly urged by Michigan and other Republican leaders to undertake the campaign.

WILLIAM F. BUCKLEY, JR.

Warren Offers No Explanation

I make it a point to ask those I meet who are concerned with the investigation by the Warren Commission into the death of President Kennedy: What can Mr. Warren have had in mind when he uttered those resonant words a month ago, that in our lifetime we shall not know some of the things the Commission has learned about the assassination? There is no common guess. Different people give widely different guesses. The Chief Justice has given no satisfactory explanation for his enigmatic and provocative statement. But what an effect it has had! In Europe, it serves as the cornerstone of the Faith in the religion that holds that the assassination was not simply the aberrational act of a lone killer, but rather a collective endeavor.

I have heard many versions of what Warren might have had in mind, as you undoubtedly have. Some are inherently preposterous (e.g., “It was a plot of the Dallas Police Department, and America is trying to save face by burying the story”); some heavily technical (“The security arrangements were loused up. The Secret Service knew all about Oswald, but neglected to run him in, and we dare not confess to this terrible act of negligence”); some churlish (“Warren had in mind disgraceful behavior by members of the Presidential party in the motorcade”).

ONE ANSWER I had from a former member of the Central Intelligence Agency strikes me as plausible enough to wish to share with you. My friend, who has been intensively schooled in the practices of espionage and counter-espionage, reasons as follows:

Oswald, as everybody knows, had spent many months in the Soviet Union, and not because he liked the landscape there, but because he had declared himself in essential sympathy with Communism. Granted, in due course he tired of life in Minsk; but he never renounced his philosophical fidelity to Communism, and it is clear from his behavior on his return to this country, where he took several opportunities to espouse the cause of Castro's Cuba, that his political allegiance had not changed. He did not, in other words, apparently leave Russia because of any conversion away from Communism.

That being the case, my friend said, the chances are overwhelming that before he left Russia the Soviet Union had recruited him as an agent.

It is important to understand just what this means. The recruitment of agents does not presuppose that one has in mind the execution of any particular act by that agent. It is often a purely routine matter. A secret service, spotting a man sympathetic to one's government who is about to emigrate to the enemy country, will enter into a loose arrangement with him, redeemable at some future moment, when and if a suitable occasion should arise.

The Soviet Union might very

well have recruited Oswald as an agent — in the sense of arriving at an understanding with him that if the contingency should arise when he might be found to be especially useful, in some connection or other, the secret service would get in touch with him.

There are thousands such persons in America, who have come in from the Iron Curtain, my friend advises me; and there are a number such who have left the United States to live in Russia, though to be sure far fewer, since the heavy traffic is in one direction.

Consider, now, the event of November 22, 1963. Kennedy shot dead, and Oswald apprehended. The Soviet Secret Police search their records and find that in fact Oswald had been recruited as a secret agent. Suppose, further, that the Soviet Government either had knowledge that United States counter-espionage forces had penetrated the arrangement, and knew that Oswald had been formally recruited; or that, if the U. S. Government did not already know about the contract, they might very well, in the heat of the investigation, find out about it immediately.

IF WE ASSUME, as I most decidedly do, that the Soviet Secret Service did not give Oswald orders to kill the President, one can imagine the consternation in the Kremlin on the afternoon of November 22. Suppose their routine arrangement with Oswald were to become public knowledge! Imagine the public uproar in the United States, and all those bristling atomic bombs!

Might not Khrushchev have communicated immediately with the new President to say: We confess we had Oswald as a stringer, but so help us, we gave him no order to assassinate the President of the United States. Johnson, almost surely, would have responded gratefully (why should he desire to initiate his tenure with an apocalyptic confrontation with the Soviet Union as defendant in an act of magnicide) and nervously (how profoundly important to keep away from the inflammable imagination of the American people, details of the formal connection between Oswald and the Kremlin).

That, the hypothesis is, is what Warren had in mind, when he spoke of the necessity that the American people wait a generation or so before they are told the background for the assassination. But Mr. Warren, of course, put his foot in his mouth. Because for all his authority, he does not have the power to say to the people about his own careless remark: Strike that from the record. The people heard it the first time, and in Europe, at any rate, they are running to the circus with it.

IT OCCURS to us that Mr. Warren's remark that the people will not know in their lifetime the meaning of Kennedy's assassination, is consistent with Mr. Warren's position about the meaning of the United States Constitution. Certainly we shall not know during his lifetime what it means.

BASCOM TIMMONS

Johnson Weighs Nixon Strength

Nobody has yet succeeded in getting an expression from President Lyndon B. Johnson as to his preference among Republican presidential candidates. That is, the man whom he would most rather run against, as the poll takers would phrase it.

The answer cannot be given with finality, and probably won't until the Republican primaries are over, but at present, quite reliable sources say the name is Richard Milhous Nixon. And at the moment, President Johnson is said to believe that Nixon is most likely to be the Republican nominee. So do quite a few million other American voters.

THAT IS NOT to say that any such number want to or would vote for Nixon; it merely demonstrates that some political prophets think the Republican convention at San Francisco will be forced to a compromise candidate and that Nixon is the most likely.

President Johnson's preference is based on two fundamental reasons, it is said — that Nixon would be easiest to campaign against, and easiest to defeat. But it's true that Nixon only lost the presidency to John F. Kennedy four years ago by 118,000 popular votes. However, they were translated into a winning margin of 84 electoral votes.

The President undoubtedly feels that he made a substantial contribution to Nixon's defeat in 1960. He may also reason, with justification that he can carry most of the same states which went to the Kennedy-Johnson ticket in 1960. The question is, can he carry the states which went to Nixon and Lodge in 1960?

This is where California rears its brutish stature. It will have 40 electoral votes in 1964 instead of 32, as in 1960, because of census reapportionment. Though it is Nixon's native state, which he carried by more than 35,000 votes last time, he doesn't live there any more. He changed his residence to New York City after

er his defeat for governor of California by the incumbent, Edmund B. “Pat” Brown, and Californians, according to reports, accuse him of poor sportsmanship.

IF EITHER Governor Nelson A. Rockefeller or Senator Barry Goldwater wins California's 86 Republican convention delegates—they are the only major candidates on the primary ballot — the winner could be the GOP nominee, and a more formidable candidate against President Johnson in California than Nixon. So the President is said to hope quietly for a deadlock and nomination of Nixon, an event in which Johnson would benefit in the hilly contested state by the reported unpopularity of the defector.

The most important state is still New York, though its electoral vote drops from 45 to 43. Because it is Governor Rockefeller's own State and his stronghold, the President could be expected to prefer Nixon as his opponent, though Kennedy-Johnson carried it in 1960. It is now Nixon's adopted State, but he has no large political following there, and presumably would be a weaker candidate against Johnson than would Rockefeller.

Breakup Of U.N.

One of the old standby sales pitches for our foreign aid program is the prospect that such money will assure us the cooperation of the newly independent nations of Asia and Africa. Since these new nations have packed the United Nations General Assembly, those who see that organization as the government of the future urge that we continue to seek their friendship.

This is an expensive, heartbreaking position. Even in the dry terms of economics, we are investing in liabilities.

Our civilization is built on a social and economic organization that differs radically from the collectivism of Africa and Asia. Such collectivism as found in Asia and Africa is not necessarily communism or even akin to it.

Many African cultures resemble certain aspects of the old feudal system. Tribes are held together by mutual obligations and services and are run by chieftains, lords and overlords.

There is some private property that has emerged as a result of European influence during the relatively short period of colonial management. But this has not changed the overall system of tribal collectivism.

Western civilization, which has reached one of its higher points in the United States, is built on the struggle of man for individual freedom. From the times of ancient Greece, through the period when Christianity spread over northern Europe, right down to the concepts as expressed in the U. S. Constitution, individual and property rights as well as responsibilities have been the keystone of our development.

When hopes are expressed—and money is appropriated—in the programs designed to bring the “new” nations to our way of thinking, our officials are simply hiding from the facts. Whenever African and Asian leaders have stepped into power, there is a transfer of tribal instinct to a position of greater scope. There is usually wholesale seizure of private property and mistreatment of racial and tribal minorities. How else can we expect these people to behave after centuries of tribal life?

Yet within weeks after they assume national status, they are invited to sit and cast ballots with an organization whose purpose it is to preserve peace and order in the world.

Looking at the influx of new nations into the United Nations, we must draw several logical conclusions. In the first place, our aid money, invested in part to draw political support from the new governments’ U. N. delegations, is largely wasted. This aid money is inter-governmental assistance. It goes directly to the chieftains of the Congo, Ghana and Indonesia and other ruling individuals. No matter how educated these leaders might be, they handle goods and wealth according to long-standing instincts and traditions.

Some of these persons may cast votes in the United Nations on the side of the free world for a time, but they cannot be expected to understand why they should continue to do so. When communism makes successful thrusts in their areas, they have already demonstrated their tendency to lean that way.

In 1945, when the U.N. charter was signed in San Francisco, there were only three African members — Egypt, Ethiopia and Liberia. With three members conjured up somehow from the borders of the Soviet Union, communism commanded no more than five votes.

As of January, 1963, there were 35 African, 23 Asian and 13 communist states. There is a new Afro-Asian bloc commanding 62 votes. Today, the United Nations is a family of Afro-Asian countries under implied sponsorship of the Soviet Union with a minority of western observers sitting in.

What choice is there for the United States? On the one hand, we may abide by the majority vote and decision and allow our own society to change and conform to antiquated collectivist systems.

Or the United States could withdraw from the world group, let it pay and go its way of denouncing “colonialism,” while we proudly reasserted our own independent nature.

Protective Dilemma

Though there is an agreement calling for voluntary imitations on beef imports, domestic cattlemen are worried and are pressuring Congress for more definite and permanent protective arrangements.

The cattlemen are afraid that when meat imports begin to rise again in 1965, prices on the U. S. market would drop.

Last month, the Department of Agriculture launched two fresh beef purchase programs. The State Department negotiated with agreements under which Australia, New Zealand and Ireland—three leading beef exporters — pledged to limit shipments in 1964 to the 1962-63 average, a move that would cut back U. S. imports approximately five per cent from current levels.

Cattlemen are not altogether opposed to imports of beef. They believe, however, they do have certain rights to protection, similar to manufacturers of various finished products and basic products such as steel.

They view with alarm the recent drop in cattle prices on the domestic market. In Chicago only a few weeks ago, for example, choice steers sold at \$23 per hundredweight. This was a drop from \$25 per hundredweight a year ago. During the past 15 months, market quotations on beef have fallen by over 20 per cent.

The price decline on the domestic market has paralleled the sharp rise in imports of lower grade beef and veal. So the cattlemen have reached the conclusion they’d better take action in favor of government protective measures. Such could take the form of higher tariffs. But most of the pressures

are now in the direction of lower imports quotas.

There are those who say the American cattle raisers should aim for lower production costs in order to compete with imported meats. For example, a former president of the Texas and Southwestern Cattle Raisers Association and of the American National Cattleman’s Association said in a recent speech that they should take a more liberal attitude and counter the imports with cheaper beef production on their own ranches.

But the reason cattle prices in the United States must be higher than those in Australia, New Zealand and Ireland is that factors contributing to the cost of production have climber largely because of government policies and programs.

Costs of land, feed grains, interest rates, taxes and labor are much higher in the United States than elsewhere mainly because of government spending and legislation.

The production cost factor deals with meat prices as a whole. There is another angle, and the key words are the “lower grade beef and veal.” President Johnson, as everyone realizes by now, is entering this election year with his campaign trumpets heralding a “war on poverty.” He has also named a special commission to protect the consumer.

However, if such programs prove effective at all, restrictions on foreign beef and veal, which go largely into low-priced meat products, can work only at the expense of the general buying public. In such political churning around, the consumer can easily end up as the forgotten man.

ROBERT ALLEN AND PAUL SCOTT

Red Jamming Device Lured U.S. Airplane Off Course

The unarmed RB-66 reconnaissance plane blasted out of the air over East Germany was deliberately lured off its course and to destruction by the Russians.

That's the sensational conclusion of an Air Force intelligence analysis that has been suppressed at State Department insistence.

The startling report indicates the unarmed U.S. plane was diverted from its course by a Soviet jamming device that blacked out the navigational equipment of the RB-66.

This “pied-piper” jamming device, as it has been labeled by Air Force specialists, is described as capable of “substituting” a radar beam for signals being received by a plane from a ground-to-air navigational system — in this instance the U.S. system that was guiding the ill-fated RB-66.

According to the Air Force study, these “pied-piper” jamming devices line the three Allied air corridors at West Berlin, and are located at strategic points along the borders of East and West Germany.

The existence of this sinister Soviet radar jamming device has long been suspected. But the first definite clue was uncovered in Japan.

This revealing incident was as follows:

As a large Soviet plane carrying a diplomatic mission near Japan, U.S. interceptors based there approached to escort

the Red craft. The U.S. planes “locked” their radar on the Russian ship.

To their astonishment, their “lock” was promptly “unlocked.”

This amazing radar disengagement occurred three times in less than 150 miles.

The unpublished Air Force report attributes the loss of the RB-66 over East Germany to the same Soviet radar jamming device. As deduced by air experts, following is what happened:

The navigational radar of the U.S. reconnaissance plane was deliberately blacked out and a Russian signal substituted—luring the RB-66 off course deep into East Germany where it was shot down by MIG interceptors. It is assumed the latter already were airborne and waiting for the unarmed U.S. plane.

Congressional authorities are quietly checking on information that has come to them that the closely guarded negotiations on the release of the three U.S. airmen, Moscow demanded that no public charge be made they were lured off course.

Also, that the U.S. apologize for the plane “straying” over East Germany, and officially affirm it had not been on a “military reconnaissance mission.”

Secretary Rusk did that. It has also been noted in congressional quarters that the State Department chief announced the

release of the imprisoned airmen on a TV program where he could not be questioned about this mystery-stranded incident.

PEACE CORPS’ OTHER SIDE — The dedicated idealism and remarkable achievements of the thousands of young and old Peace Corps enrollees have justly won worldwide acclaim, but there is a little known bureaucratic aspect of the agency that presents a very different picture.

Comfortably nestled in the administrative purlieus of the Peace Corps is a sizable army of officials and consultants drawing top government salaries — the officials from \$16,000 to \$20,000, and the consultants and experts from \$25 to \$75 a day.

This unpublished cozy other side of the Peace Corps came to light during the House debate on increasing the agency’s budget to a record high of \$115 million.

Representative H. R. Gross, militant economist, sought to cut that back to the \$95,963,000 voted by Congress for the current fiscal year. Supporting this demand, Representative Bob Dole, R-Kans., produced the Corps’ surprisingly lush administrative payroll.

DOLE ALSO pointed out that virtually everyone on it has had one or more juicy raises. Following is a summary of his significant disclosure:

Annual Salary No. of Officials	
\$20,000	4
\$19,000-plus	4
\$18,000-plus	13
\$17,000-plus	10
\$16,000-plus	16

Of the army of consultants and experts — 14 received \$75 a day; 3 — \$70; 3 — \$65; 4 — \$60; 3 — \$55; 5 — \$50; 5 — \$45; 3 — \$40; 4 — \$35; 1 — \$25.

Said Gross, vigorously urging his proposed 20 million cut, “Why not spend this money on the needy and poverty-stricken in our own country instead of tossing it down some foreign drain. The administration has launched a so-called war-on-poverty program, headed by Mr. Sargent Shriver, who is also head of the Peace Corps.

“Why don’t we first take care of the unemployed and needy in this country. There is a lot of talk about that, but the money is being spent for activities in other countries. I believe that good deeds, like charity, should start at home.”

But the Democratic-controlled House decisively rejected his economizing amendment.

THE WIVES of two of President Johnson’s close advisers are lawyers in their own right, although only one is practicing her profession. Warren Offers No Explanation

I make it a point to ask those I meet who are concerned with the investigation by the Warren Commission into the death of President Kennedy: What can Mr. Warren have had in mind when he uttered those resonant words a month ago, that in our lifetime we shall not know some of the things the Commission has learned about the assassination? There is no common guess. Different people give widely different guesses. The Chief Justice has given no satisfactory explanation for his enigmatic and provocative statement. But what an effect it has had! In Europe, it serves as the cornerstone of the Faith in the religion that holds that the assassination was not simply the aberrational act of a lone killer, but rather a collective endeavor.

I have heard many versions of what Warren might have had in mind, as you undoubtedly have. Some are inherently preposterous (e.g., “It was a plot of the Dallas Police Department, and America is trying to save face by burying the story”); some heavily technical (“The security arrangements were loused up. The Secret Service knew all about Oswald, but neglected to run him in, and we dare not confess to this terrible act of negligence”); some churlish (“Warren had in mind disgraceful behavior by members of the Presidential party in the motorcade . . .”).

ONE ANSWER I had from a former member of the Central Intelligence Agency strikes me as plausible enough to wish to share with you. My friend, who has been intensively schooled in the practices of espionage and counter-espionage, reasons as follows:

Oswald, as everybody knows, had spent many months in the Soviet Union, and not because he liked the landscape there, but because he had declared himself in essential sympathy with Communism. Granted, in due course he tired of life in Minsk; but he never renounced his philosophical fidelity to Communism, and it is clear from his behavior on his return to this country, where he took several opportunities to espouse the cause of Castro’s Cuba, that his political allegiance had not changed. He did not, in other words, apparently leave Russia because of any conversion away from Communism.

That being the case, my friend said, the chances are overwhelming that before he left Russia the Soviet Union had recruited him as an agent.

It is important to understand just what this means. The recruitment of agents does not presuppose that one has in mind the execution of any particular act by that agent. It is often a purely routine matter. A secret service, spotting a man sympathetic to one’s government who is about to emigrate to the enemy country, will enter into a loose arrangement with him, redeemable at some future moment, when and if a suitable occasion should arise.

The Soviet Union might very

well have recruited Oswald as an agent — in the sense of arriving at an understanding with him that if the contingency should arise when he might be found to be especially useful, in some connection or other, the secret service would get in touch with him.

There are thousands such persons in America, who have come in from the Iron Curtain, my friend advises me; and there are a number such who have left the United States to live in Russia, though to be sure far fewer, since the heavy traffic is in one direction.

Consider, now, the event of November 22, 1963. Kennedy shot dead, and Oswald apprehended. The Soviet Secret Police search their records and find that in fact Oswald had been recruited as a secret agent. Suppose, further, that the Soviet Government either had knowledge that United States counter-espionage forces had penetrated the arrangement, and knew that Oswald had been formally recruited; or that, if the U.S. Government did not already know about the contract, they might very well, in the heat of the investigation, find out about it imminently.

IF WE ASSUME, as I most decidedly do, that the Soviet Secret Service did not give Oswald orders to kill the President, one can imagine the consternation in the Kremlin on the afternoon of November 22. Suppose their routine arrangement with Oswald were to become public knowledge! Imagine the public uproar in the United States, and all those bristling atomic bombs!

Pope Paul Bears 8-Foot Wood Cross

ROME (AP)—Pope Paul VI carried an eight-foot wooden cross in a Good Friday procession up the Palatine Hill from the ancient Colosseum, praying for world peace.

The 66-year-old pontiff lifted the rough-hewn cross in his hands halfway through a dramatic penitential procession from the huge amphitheater, famed as the arena where lions ate early Christians.

A crowd of 50,000 jammed the Colosseum square. Clouds covered a pale full moon and a drizzle began to fall.

At the last of 14 stations commemorating Christ's road to Calvary, the Pope said: "The body of Christ is crucified even today, morally but heavily, in many parts of the world."

"The Church of Silence is still the suffering Church, the patient Church, and in some places, the suffocated Church."

This was a clear reference to Catholicism behind the Iron Curtain.

The Pope had mourned the death of Christ earlier in a somber service in St. Peter's Basilica at the Vatican. He removed his shoes there to kneel before a crucifix, then lay prostrate before a barren altar.

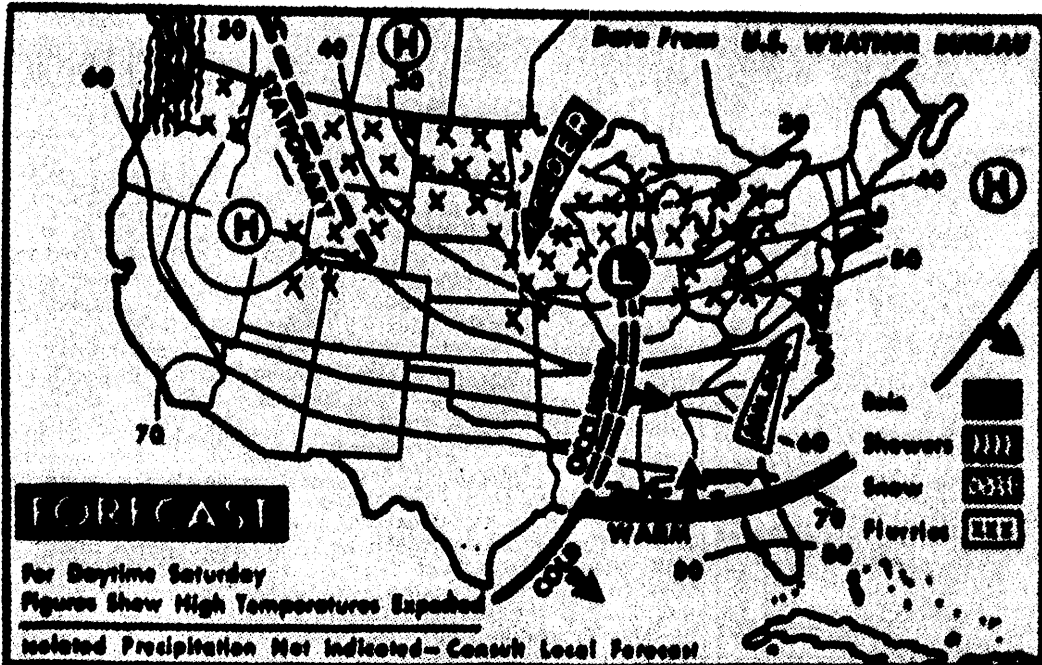

The afternoon ceremonies lacked the usual richness of glittering vestments and booming organ. In Good Friday's sorrowful atmosphere the pontiff was without his papal ring and gave no blessing to the crowd of almost 8,000.

The Gospel account by St. John of the passion and death of Christ was chanted. Eight prayers were said for the Roman Catholic Church and its prelates, for Catholics, for unity, for national leaders, for all Christians, for Jews, for non-believers in God.

The prayers contained no reference to Jews as perfidious, which was used until Pope John XXIII had the adjective stricken out in 1959.

Purple veiling was removed little by little as the Pope advanced. Two cantors sang the mournful dirge known as the Improperia, or reproaches of Christ: "O my people, what I done to thee? Or wherein have I afflicted thee? What more ought I have done that I have not done?"

Stations making up the Way of the Cross are 14 stops along a procession, where 14 episodes of Christ's road to Calvary are described for meditation.

SHOWERS ARE EXPECTED today on north Pacific coast, while snow or flurries are forecast from north and central Rockies to north and central Plains, and from upper Mississippi Valley to northern Appalachians. While warmer weather is expected for the northeast, cooler temperatures are forecast in southern Plains. (AP Wire-photo)

PRESS'S FINEST HOUR

Wire Service Tells Of Assassination

NEW YORK (AP)—Wes Gallagher, general manager of The Associated Press, said Friday that The AP threw more resources into covering the assassination of President John F. Kennedy than "any single news event in its history."

Gallagher said in his annual report that the tragedy "saw the press rise to its finest hour in keeping the world informed. It demanded the best in everyone and it received the best."

The assassination, he said, dominated all other events in a year of tremendous news at home and abroad.

The report on the activities of the worldwide news association was mailed to members in advance of The AP annual meeting here April 20. President Johnson will be the guest speaker.

Gallagher dealt with some criticism of press coverage of the assassination.

"Criticism revolved around the mass reporting of reporters, cameramen and broadcasters, the relatively quick designation of Lee Harvey Oswald as the assassin and Oswald's own murder a few hours later," he said.

"Mass reporting of some major news events is becoming so unruly that it puts all media in a bad light. The profession badly needs a solution and is groping for one."

"This should not obscure the basic fact, however, that at the time of the assassination the nation demanded and needed to know every detail of the events in Dallas and Washington. The quick identification of Oswald and his background shut off rumors which could have fueled ideological hatreds to the point of possible violence."

Gallagher said legal critics who sought to treat the death of a president in the same framework as an ordinary murder ignored the realities of the situation.

"Nor should the press be asked to share the blame when lax police work made it possible for an outsider to kill Oswald," he said.

Gallagher noted that a team of Associated Press top writers and editors captured the drama of the death of Kennedy in a book, "The Torch is Passed," which more than 700 AP members offered to their readers. Book sales exceeded three million copies in the United States. Abroad the book was reprinted in seven languages.

Gallagher called Viet Nam the biggest story in the foreign field and said events had borne out the day-to-day AP reporting.

"During the year," he said, "some reporters and columnists, who flew into Viet Nam for a couple of weeks, raised questions and insinuations about the reportorial and analytical ability of the resident correspondents. While much of the criticism was not directly aimed at AP coverage, it tended to draw up an indictment against all correspondents regularly based there."

"Subsequent events, including overthrow of the Diem government and instability of its successor, bore out the day-to-day reporting of our men on the spot."

In reviewing the news of 1963, Gallagher said: "Segregation-integration disputes which have been described as the worst domestic crisis since 1865 swept both North and South. It was a time for cool, objective reporting and that is what this continuing story received."

Commenting that in 1963 "the trend was toward The Associated Press," Gallagher said: "The year's performance can be measured in concrete terms with a net gain of 727 in the number of newspapers and broadcasters who are members in the United States or subscribers in other countries."

"Photo subscribers at home and abroad grew by 440 as Wirephoto turned in its greatest margin of news superiority over its competitors in history."

"In world services the most notable gains were in Latin America."

Gallagher said that in visiting members in 35 states during the year he found a greater interest in new methods of handling news than ever before.

"This decade is certain to see more changes in our profession than have taken place in the first half of this century," he said.

"This is a healthy climate for The Associated Press and its members and a great opportunity for us all. The Associated Press aims to be in the forefront of these changes."

Proxy Battle On Chicago Mill To Make Shift

CHICAGO (AP) — Principals in a proxy battle for control of the Chicago Mill and Lumber Co. agreed Friday to turn contested proxies over to a professional inspector of elections.

A federal court injunction proceeding was dropped by an insurgent stockholder group with the provision that court supervision of the election would continue until it is resolved.

The inspector accepted by both stockholder groups is K. D. McLaren, vice president of Corporation Trust Co., New York, who will prescribe disposition of disputed proxies under Delaware law, governing the corporation, and as of March 11th share ownership.

The agreement came during a recess in what appeared to be a long court investigation of several thousand votes.

The issue in U. S. District Court was the status of 9,900 proxy votes which could either win control of the firm for John F. Maher, a Houston, Tex., industrialist, or defeat his bid.

3 Men Perish As Car Plunges Off Rural Road

BATESVILLE, Miss. (AP) — Three men perished when a car swerved off a rural road on a sharp curve and plunged into the Tallahatchie River late Thursday night.

Sheriff Earl Hubbard identified the dead as S. J. Mangrum, 25, of Crenshaw, Miss., and two Negroes, Willie Hogan and his son, L. C. Hogan.

Hubbard said the bodies of Mangrum and Willie Hogan were recovered Friday. Mangrum was still in the car. It happened where the road curved sharply at the approach to a bridge. The Hogans lived at Curtis, a community near Batesville.

Argentine Festival

BUENOS AIRES, Argentina (AP)—Distributors and exhibitors of Argentine movies in 15 countries will meet here April 1-11 during the sixth Argentine International Film Festival.

The project, called "Forsythe Park Improvements," has been given approval by city officials, and chairman for the project will be Billy Vaughn with Duder Rogers named co-chairman. Rogers is designing the table and bench sets which will be of one piece design and of heavy wood and steel. The project is to be complete by May 10.

AEC Plans To Reduce Electricity

WASHINGTON (UPI) — The Atomic Energy Commission (AEC) Friday announced plans to reduce electric power consumption at three AEC plants in line with President Johnson's January announcement of plans to curtail production of enriched uranium.

The plants are at Oak Ridge, Tenn.; Paducah, Ky., and Portsmouth, Ohio.

The AEC said power at the gaseous diffusion plants at the three sites will be cut by about 25 per cent. The enriched uranium produced at the plants, called U-235, is used to fuel civilian nuclear power reactors as well as those which have military uses.

The President said in his State of the Union message Jan. 8 that production of enriched uranium would be curtailed in fiscal 1965. The AEC said at that time that the cut-back would be by about 25 per cent and a spokesman said Friday's announcement amounted to details of where the cutback was being applied. The AEC spokesman said the reduction of power use was related to a reduction of uranium production although not necessarily in direct ratio.

The reductions will bring total diffusion plant power use to a level of 3915 megawatts, the announcement said. Current use is 5,250 megawatts. Ohio Valley Electric Corp. power being used at the Portsmouth plant will be reduced by 600 megawatts, the AEC said. The Paducah plant will reduce its use of Electric Energy Inc. power by 175 megawatts and Tennessee Valley Authority power by 200 megawatts.

A 360 megawatt reduction in TVA power supplied to the Oak Ridge plant will be made through expiration of a 1951 contract which was announced in 1961, the AEC said.

The AEC also said that one of its buildings at Oak Ridge, called K-25, will be shutdown and placed on standby status by June 30.

Operations at other process buildings at Oak Ridge, Paducah and Portsmouth will continue but at a reduced level, the AEC said.

Jaycees Slate Park Project

Installation of six heavy-duty picnic tables and benches and two water fountains in Forsythe Park is the first project of this year for the Monroe Junior Chamber of Commerce.

The project, called "Forsythe Park Improvements," has been given approval by city officials, and chairman for the project will be Billy Vaughn with Duder Rogers named co-chairman. Rogers is designing the table and bench sets which will be of one piece design and of heavy wood and steel. The project is to be complete by May 10.

RIGID ELECTION BILL

Mississippi Spurns Appeals For Legal Republican Party

JACKSON, Miss. (AP) — The Mississippi Senate spurned appeals for tolerance toward Republicans Friday and released a package of rigid election revision bills to the House for its action.

With Lt. Gov. Carroll Gartin twice voting to break a tie on whether to reconsider the crucial bill, the Senate reaffirmed its passage of the measure and released it.

Gov. Paul Johnson called for the revisions after he and Gartin had to defeat Republican challengers in a general election last November.

The Senate passed 18 of the 22 bills Thursday, defeated one minor one and deferred action on three others until next week. Friday the 18 bills were released to the House after a bitter battle on the key measure.

This one would require all party candidates run in primary elections and the winner of each primary to get 10 per cent of the total vote turning out for the primaries of both parties.

Insurance Head To Check Case Of Bail Charge

BATON ROUGE (AP) — Deputy Insurance Commissioner Dudley Guglielmo said Friday he will look into a bail bond case in which a New York woman claims she was overcharged by a bondsman here.

Guglielmo, who is insurance commissioner-elect, said he was unfamiliar with facts in the case and had not scheduled any kind of hearing due to lack of any official charges by the district attorney's office.

He said he will look into the case Monday or Tuesday.

Dist. Atty. Sargent Pitcher Jr. said he could find no evidence to substantiate a charge against bondsman Clifton James, of Port City Bonding Co.

Carol Ann Martin, 24, of Syracuse, N. Y., claimed earlier James charged her \$170 and accepted an auto stereo speaker unit for a \$950 bond after her arrest Jan. 8 on a charge of possession of a central nervous system drug.

The usual bond fee is 10 per cent. W. H. Daniels, investigator for the district attorney, said James agreed he charged the woman \$170.

before he could be certified as nominee.

The GOP situation would be further complicated by another bill making parties meet detailed requirements to be legally constituted.

Coupled with this is an exciting law requiring a party to pay its own primary expenses when it gets less than one third of the vote in the last presidential election. The GOP hasn't gotten this percentage.

Sen. Frank Leftwich of Aberdeen charged the key bill was "like the executioner in the Kremlin" and would administer the death blow to the Mississippi Republican party.

Sen. Bill Alexander of Cleveland had asked the Senate to reconsider the bill, that it was too harsh and came too soon after the hard general election battle against the Republicans last year.

"We are about to crush some people because we have the power and might to do it," Alexander said. "In the 13 Confederate states, we say to the other states you are going to crush us (with civil rights laws) because you've got the might. We're crushing people here."

He said Republicans were "Mississippi citizens, Americans, trying to band themselves together into a party, and we are saying you can't."

He appealed for further study and suggested that registration by parties would cure the situation of which democratic lead-

ers complained. Republicans voting in Democratic primaries and then opposing the nominees in the general election.

Sen. Merle Palmer of Pascagoula, chairman of the Senate Elections Committee which handled the bills, said they would help build the Republican party by emphasizing the party system.

However, Sen. Ike Sanford of Collins, who supported the bill Thursday, said he had changed his mind because he didn't like "the very idea of jumping on people." He said he had election troubles with Democrats but "the Republicans are not going to go anywhere in Mississippi. This particular bill hurts them. Hurts them bad."

Sen. George Yarbrough of Red Banks, an administration leader, said the bills were fair and every party ought to be able to get 10 per cent of the vote.

BARGAIN! Big, new 1964 Needlecraft Catalog — over 200 designs, only 25¢! A must if you knit, crochet, quilt, sew, embroider. Send 25¢.

SPECIAL VALUE! 16 COMPLETE QUILT PATTERNS in deluxe, new Quilt Book. For beginners, experts. Send 50¢ now!

NEW ZLOTY COIN

WARSAW, Poland (AP)—Red-tinted Poland is minting a new 10-zloty coin showing the crowned head of 14th century King Kazimierz the Great, a Roman Catholic who started Polish coinage and once whipped the Russians. The April 15 coin issue commemorates the 600th anniversary of Krakow's Jagellonian University.

Pope Paul Bears 8-Foot Wood Cross

ROME (AP)—Pope Paul VI carried an eight-foot wooden cross in a Good Friday procession up the Palatine Hill from the ancient Colosseum, praying for world peace.

The 66-year-old pontiff lifted the rough-hewn cross in his hands halfway through a dramatic penitential procession from the huge amphitheater, famed as the arena where lions ate early Christians.

A crowd of 50,000 jammed the Colosseum square. Clouds covered a pale full moon and a drizzle began to fall.

At the last of 14 stations commemorating Christ's road to Calvary, the Pope said: "The body of Christ is crucified even today, morally but heavily, in many parts of the world."

"The Church of Silence is still the suffering Church, the patient Church, and in some places, the suffocated Church."

This was a clear reference to Catholicism behind the Iron Curtain.

The Pope had mourned the death of Christ earlier in a somber service in St. Peter's Basilica at the Vatican. He removed his shoes there to kneel before a crucifix, then lay prostrate before a barren altar.

The afternoon ceremonies lacked the usual richness of glittering vestments and booming organ. In Good Friday's sorrowful atmosphere the pontiff was without his papal ring and gave no blessing to the crowd of about 8,000.

The Gospel account by St. John of the passion and death of Christ was chanted. Eight prayers were said for the Roman Catholic Church and its prelates, for Catholics, for unity, for national leaders, for all Christians, for Jews, for non-believers in God.

The prayers contained no reference to Jews as perfidious, which was used until Pope John XXIII had the adjective stricken out in 1959.

Purple veiling was removed little by little as the Pope advanced. Two cantors sang the mournful dirge known as the Improperia, or reproaches of Christ: "O my people, what I done to thee? Or wherein have I afflicted thee? What more ought I have done that I have not done?"

Stations making up the Way of the Cross are 14 stops along a procession, where 14 episodes of Christ's road to Calvary are described for meditation.

RIGID ELECTION BILL

Mississippi Spurns Appeals For Legal Republican Party

JACKSON, Miss. (AP) — The Mississippi Senate spurned appeals for tolerance toward Republicans Friday and released a package of rigid election revision bills to the House for its action.

With Lt. Gov. Carroll Gartin twice voting to break a tie on whether to reconsider the crucial bill, the Senate reaffirmed its passage of the measure and released it.

Gov. Paul Johnson called for the revisions after he and Gartin had to defeat Republican challengers in a general election last November.

The Senate passed 18 of the 22 bills Thursday, defeated one minor one and deferred action on three others until next week. Friday the 18 bills were released to the House after a bitter battle on the key measure.

This one would require all party candidates run in primary elections and the winner of each primary to get 10 per cent of the total vote turning out for the primaries of both parties.

Insurance Head To Check Case Of Bail Charge

BATON ROUGE (AP) — Deputy Insurance Commissioner Dudley Guglielmo said Friday he will look into a bail bond case in which a New York woman claims she was overcharged by a bondsman here.

Guglielmo, who is insurance commissioner-elect, said he was unfamiliar with facts in the case and had not scheduled any kind of hearing due to lack of any official charges by the district attorney's office.

He said he will look into the case Monday or Tuesday.

Dist. Atty. Sargent Pitcher Jr., said he could find no evidence to substantiate a charge against bondsman Clifton James, of Port City Bonding Co.

Carol Ann Martin, 24, of Syracuse, N. Y., claimed earlier James charged her \$170 and accepted an auto stereo speaker unit for a \$950 bond after her arrest Jan. 8 on a charge of possession of a central nervous system drug.

The usual bond fee is 10 per cent. W. H. Daniels, investigator for the district attorney, said James agreed he charged the woman \$170.

before he could be certified as nominee.

The GOP situation would be further complicated by another bill making parties meet detailed requirements to be legally constituted.

Coupled with this is an exciting law requiring a party to pay its own primary expenses when it gets less than one third of the vote in the last presidential election. The GOP hasn't gotten this percentage.

Sen. Frank Leftwich of Aberdeen charged the key bill was "like the executioner in the Kremlin" and would administer the death blow to the Mississippi Republican party.

Sen. Bill Alexander of Cleveland had asked the Senate to reconsider the bill, that it was too harsh and came too soon after the hard general election battle against the Republicans last year.

"We are about to crush some people because we have the power and might to do it," Alexander said. "In the 13 Confederate states, we say to the other states you are going to crush us (with civil rights laws) because you've got the might. We're crushing people here."

He said Republicans were "Mississippi citizens, Americans, trying to band themselves together into a party, and we are saying you can't."

He appealed for further study and suggested that registration by parties would cure the situation of which democratic lead-

ers complained, Republicans voting in Democratic primaries and then opposing the nominees in the general election.

Sen. Merle Palmer of Pascagoula, chairman of the Senate Elections Committee which handled the bills, said they would help build the Republican party by emphasizing the party system.

However, Sen. Ike Sanford of Collins, who supported the bill Thursday, said he had changed his mind because he didn't like "the very idea of jumping on people." He said he had election troubles with Democrats but "the Republicans are not going to go anywhere in Mississippi. This particular bill hurts them, hurts them bad."

Sen. George Yarbrough of Red Banks, an administration leader, said the bills were fair and every party ought to be able to get 10 per cent of the vote.

9-Foot Channel Planning Urged

(Continued From Page One)

plaque on behalf of the membership for his service.

Col. Betts said that work planned in the Ouachita Basin for the fiscal year 1965, which begins June 30, "totals just under \$13,000,000." And, he said, "As we get more of the major features of the DeGray and Ouachita navigation projects under contract, the annual figure will get larger — much larger."

Construction on the Ouachita River Black rivers will total \$3.1 million, he said, "most of which will go into the Columbia project."

He said work on the Columbia lock and dam had a head start on the Jonesville lock and dam — two of the four to be constructed — but that it was not planned that way.

However, within 60 days, according to Betts, "we plan to advertise a dredging contract for further excavation and to fill in some low areas."

"If all goes well, we are scheduled to advertise for the construction of the lock structure early next year."

Betts recalled that, "we were delayed in making a selection of the site for the Jonesville lock and dam. In the normal sequence of construction, we would have begun the most downstream structure first," then added, "since we were delayed until we could resolve the problem with Catahoula Lake, we could not work up final plans and specifications, so we turned to designing the Columbia structure."

By the time the Jonesville project is completed, Betts said, the Columbia project will be ready. Then the work on the two projects in Arkansas will get underway in earnest.

Betts, who a few months ago succeeded Col. Warren Everett to the Vicksburg post, said he has noted a "feeling of enthusiasm" among the members of the ORVA. He said this is good and that the enthusiasm will have to be put to work in the coming months.

It's needed to get plans underway, he said, because the Ouachita River has been taking a pounding in river traffic. A couple of years ago, according to the speaker, one-half million tons annually were shipped on the Ouachita. Last year the tonnage had skidded to 300,000.

"I don't think this is a healthy condition," he observed. He said the government is putting an estimated \$80-million investment on the Ouachita River Valley area; that it is taking a risk; and that towns along the river must meet the challenge by "taking risks" also.

Public and private terminals for river traffic are needed he said, or otherwise the river "can't otherwise be properly utilized."

"The taxpayers' investment must be proven," he said. "This is new industry," said the speaker, who urged that it be viewed in that light lest the rivermen engage too ambitiously in competition with rail and motor traffic. Each has its place, Betts said, and should complement each other.

Here, in summary form, is what the Monroe trade area can expect in coming months in regards to Ouachita Valley development, as presented by Betts: —A portion of the diversion ditch at Jonesville will be put "under construction next year." The Jonesville lock and dam, the low dam in Little River, the control structure at Catahoula Lake and the diversion ditch, will all be completed "at about the same time."

—Since the Columbia lock and dam will be completed by then, the 9-foot channel project "would be available all the way to the Louisiana-Arkansas line."

—Red River backwater area. Additional flood protection in the general area surrounding Jonesville is scheduled. "We are working now on our field sur-

veys and foundation investigations. The total cost of the work will be about \$19,000,000." The budget for fiscal year 1965 is \$200,000.

Boeuf-Tensas Basin.—The original project of major drainage improvements are about completed. As a result of Mississippi and tributaries review, some additional work on these streams are scheduled. "Actual work will get underway within about two years." The budget for fiscal year 1965 is \$900,000.

Betts also discussed Arkansas projects.

Rep. Harris traced the rise and decline of the Ouachita River, and said that due to the government navigation program the waterway will soon be on the rise again.

"Our dream is becoming a reality," he said. "A network of transportation systems is the fiber that holds this great nation together—the very sinews of our strength."

"In these trying times when our area has suffered a population loss and while we have been struggling to compete with the North and East and thus open up new opportunities for our people, river development stands before us as brightly as the Eastern Star, pointing the way toward progress."

Harris said when he first went to Congress back in the early '40's, he represented 11 counties. The population declined over the years and he now represents 28 counties.

Harris recently received a national transportation award from the Joint Chiefs of Staff for his "leadership role" in transportation.

He agreed with Col. Betts that the time has come to start planning for the increased waterway facilities.

Col. Barschdorf noted that it appears cities have to have waterways to thrive.

"It is most significant," he said, "that out of some 30 cities in the United States, with over 500,000 population, only three are not located on a navigable waterway — these are Atlanta, Dallas and Indianapolis."

He said a recent Senate study showed that present freight traffic will double by 1980 and a quadruple by the year 2000.

He said he hoped that none of the mistakes in the Ouachita River Valley program would be repeated, but warned, "there are many pitfalls where mistakes can be made, not-withstanding the advantages of abundant natural resources, including river navigation."

He listed some of the pitfalls as lack of foresight and what he called a "discriminatory rate-making system."

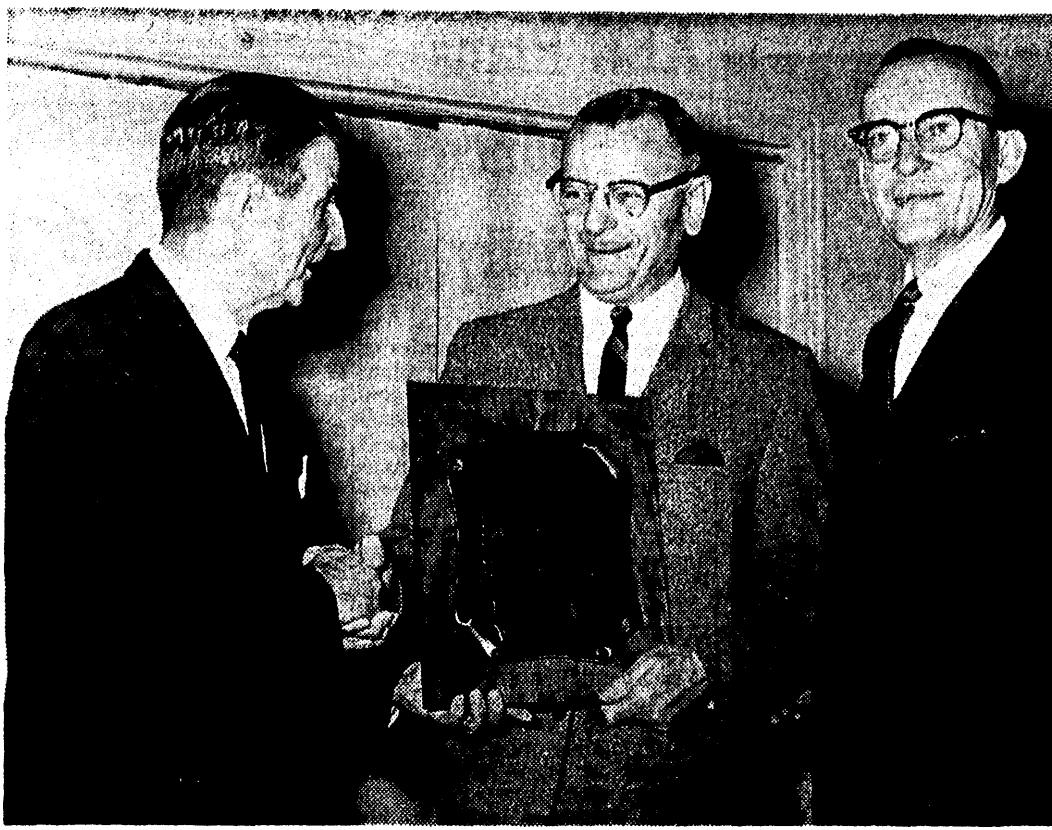

"I am sure all of you have been or certainly will be exposed to the discrimination in rate-making by the railroads where, among other less obvious practices, they deliberately cut rates below costs on routes competitive with the waterways and make up for it by exorbitant rates where there is little or no competition," he said.

Winters remarked that water carriers accounted for \$2.88 billion in freight shipments, or 6.2 percent of the total freight bill paid in 1962. Highway carriers collected 67 percent of the volume, with railroads in between. However, in ton miles, inland waterways carried 122,886,905,000 ton miles of freight, or 9.03 percent of all freight moved in the nation in 1962.

"Each year, more and more shippers are discovering that the floated ton is the most economical ton of transportation and they are taking advantage of it," the speaker said.

Contained in the 1964 policy platform of the Association is a petition to Congress enact legislation to permit "a just portion of this national income derived from recreation to accrue to the benefits of our water resources projects on a non-reimbursable basis."

The platform, which was

GRAYSON GUTHRIE of Monroe gets a handshake from Arkansas Congressman Oren Harris (left) Friday after Guthrie, outgoing president of the Ouachita River Valley Association, was presented a plaque of appreciation by the new president, Edward Cox of El

Dorado, Ark., (right). Guthrie, who was recently named president of the Louisiana Bankers Association, was named chairman of the board of the ORVA at the meeting held in El Dorado, Ark. (Staff Photo by Jimmy Hatten)

depend on how well we educate our children today.

"Business and industry need trained, well educated personnel, and our schools must continually strive to offer students a curriculum which will give them the skills they need to enjoy the better paying jobs of tomorrow."

"We must offer students strong college preparatory courses to equip them for advanced studies. We must recognize, however, that all students will not go to college, and we must offer them an increased program of vocational and technical courses to prepare them to go directly to jobs from high school."

"Our schools must accept the responsibility of building strong bodies as well as strong minds. For this reason I would like to see a strong intermural program in our schools which would reach all children."

"Our school system can only be as good as our teachers, and we must be able to compete with private enterprise to attract qualified teachers. I will back any program which will help us to hold our qualified teachers and attract others in to the educational field."

"A student must have a strong basic knowledge of reading to do well in any subject. I will investigate the feasibility of instituting remedial courses in our schools to help those students who are having trouble in this subject."

"I am an independent thinker and will approach all recommendations and school problems with an open mind."

"As a member of the school board I will equally represent every school in all sections of our city."

"My yardstick on any issue will be: (1) Will it best benefit our children, (2) Is there a genuine need and will it best serve the largest number of citizens, (3) Is it a wise expenditure of the taxpayers' dollar."

"On this basis I solicit your vote and support on behalf of my candidacy for city school board member."

Police Charge Drivers After Collision Here

Charges were filed against both drivers following a head-on collision on McCain Drive east of Monroe about 3 p.m. Friday, according to Troop F of the Louisiana State Police.

Troopers said three local teenagers were slightly injured in the accident.

Traveling east on McCain in a pickup truck was Frank Boyd, 53, of 723 McCain Dr. Fredrick E. Poe Jr., 16, 2107 Oliver Rd., was headed in the opposite direction on McCain.

Investigating troopers said that the two vehicles collided in the center of the road in the 500 block of McCain.

Boyd was charged with driving while under the influence of intoxicating beverages, and Poe was ticketed for reckless driving.

Suffering slight injuries in the wreck were Poe and his two passengers, Billy Baker, 1319 Cole Ave., and Johnny Trichell, 721 Guy St., both 16. They were treated by a private physician.

High Death Toll Feared In Disaster

(Continued From Page One)

evacuated to higher ground. Egan described the situation as "real bad."

"The dock apparently went in and the water supply was knocked out."

An unconfirmed report from Civil Defense headquarters here said there were about 30 people standing on the waterfront at Valdez when it washed out. A ham radio operator said there were two confirmed deaths.

In Seattle, the University of Washington seismologist said the earthquake apparently centered in the bay across from Seward. He had previously said it might have occurred in the Aleutians, traditional breeding ground of Alaskan earthquakes.

The Seward area is about 1,500 miles northwest of Seattle and earth tremors were felt there. They were also reported in British Columbia.

The earthquake hit here at 5:37 p.m. (10:37 p.m. EST) and was so strong it knocked out the measuring equipment of the Coast and Geodetic Survey. No damage was reported in Fairbanks proper, but there was some reported at Eielson Airport, 27 miles away.

The water supply and power were reported cut off at Glennallen, 170 miles northeast of Anchorage.

The 60-foot control tower at the Anchorage International Airport was down and 3,000 feet of runway were reported torn up. Other airports in the area also were said to be unusable.

Communications between Ft. Wainwright here and Anchorage's Ft. Richardson were out and the Air Force here said it had no contact with Elmendorf.

Gen. Lipscombe said Lt. Gen. Raymond Reeves, commander of the Alaska command has ordered troops into Anchorage on a standby basis.

The quake here lasted about four minutes.

HOUSTON, Tex. (AP)—Boats tossed violently Friday night in freakish tides presumably caused by the Alaskan earthquake.

The Weather Bureau reported a 6-foot wave of undetermined origin was surging down the Gulf Coast, snapping lines and rolling sizable ships.

Coast Guardsmen at Freeport warned residents of low areas to expect a 6-foot tidal wave followed by rough seas.

At Port Arthur, a watchman for the Kansas City grain elevator reported the tide dropped between 6 and 7 feet at 10:10 p.m. and a loaded grain ship "hobbed up and down like a cork six or eight times."

Tremor Causes High Waves In South Louisiana

(Continued From Page One)

about 30 persons came out to witness the sight.

Near Houma, water from Robinson Canal covered some roads and the sheriff there reported waves several feet high overturned a number of small fishing boats.

Waters rolled across roads at des Allemands, Grand Isle, Galliano in the coastal area south of here. Boats were swamped and a few persons reportedly left their homes.

One marine company at New Orleans said the waves in the Intercoastal Canal were "at least four or five feet." Several boats were torn loose, including a line holding an 83-foot coast guard vessel.

A homeowner at Baton Rouge reported water suddenly started sloshing out of one side of his swimming pool.

Most reports said the sudden waves began around 10 p.m. State police at Opelousas said they had a report that Bayou Courtebeau in St. Landry Parish rose by some four feet within an hour after 10 p.m.

At Mobile, Ala., spokesmen for the Spring Hill College seismograph said the Mobile area recorded a ground movement and added that Southern Louisiana "definitely moved even more than the Mobile area."

The movement at Mobile was recorded at 5:16ths of an inch.

GENEVA CONFERENCE

Cambodia Seeking 9-Nation Meeting

PHNOM PENH, Cambodia (AP)—Cambodia said Friday it prefers to have a nine-nation conference at Geneva similar to the one held on Indochina in 1954 to guarantee Cambodia's neutrality and integrity.

Apparently the nations to be represented at such a conference would be the same nine that met in 1954 under the chairmanship of the Soviet Union and Britain. The others are the United States, France, Red China, North Viet Nam, South Viet Nam, Cambodia and Laos.

Five more nations—Thailand, Burma, India, Poland and Canada—attended a later 14-nation conference on Laos.

Soviet Premier Khrushchev telegraphed Cambodia's chief of state, Prince Norodom Sihanouk, saying he has urged the United States and Britain to agree quickly to an international conference to guarantee Cambodia's frontiers and neutrality.

Khrushchev also said he would support any appeal Cambodia may make to the U.N. Security Council.

The latest Cambodia proposal was made in a government

statement answering reports from London. The reports said Britain considers that in the absence of a preliminary accord among Cambodia, Thailand and South Viet Nam on the frontier problem, it would be difficult to persuade the governments concerned to agree to a 14-nation Geneva conference on Cambodia.

The Cambodian statement said only Thailand, South Viet Nam and the United States are opposed to convening the conference.

It added Cambodia has no frontier problems with Thailand as the borders between the two countries were fixed by international accords.

The statement said Cambodia's only problem is with South Viet Nam.

Sihanouk has threatened that if his request to convene the conference is not favorably met he will go to Peking to seek Red Chinese guarantees for Cambodia's frontiers.

The United States is reported Lukewarm toward attending the conference for fear that it will be used as a forum to attack American policy in the area, particularly in South Viet Nam.

Several hundred students earlier Friday shouted slogans hostile to the United States, South Viet Nam and Thailand in protest of the Vietnamese attack last week on Chantrea.

The United States and South Viet Nam both have apologized for that attack.

A-11 CHECKOUT

Speedy X15 Flight Tests Friction Heat

By RALPH DIGHTON
AP Science Writer

EDWARDS AIR FORCE BASE, Calif. (AP)—A popping, banging X15 rocketed 3,920 miles an hour Friday with its sweating pilot manually running a camera probing heat distortion problems the 2,000 m.p.h. A11 interceptor would face if used as a sky spy.

Air friction built up 1,000 de-

grees of heat on the X15's nose, where an experimental Air Force camera was installed to take pictures of the ground.

Air Force Maj. Robert Rushworth said he "perspired quite a bit—like on a humid summer day's despite air conditioning flowing through his flight suit, and he heard a number of bangs and pops in the plane from heat expansion.

Heat and shock waves generated by the X15's speed caused distortion in pictures through the boundary layer of air whipping along the plane's surfaces. Similar problems reportedly interfere with photographic reconnaissance by other supersonic craft such as the A11, now under flight test here.

By analyzing pictures taken Friday, scientists hope to design lenses which can correct for the distortion.

Rushworth flew the U.S. National Aeronautics and Space Administration rocket plane with precision—almost as if it had been guided along a wire throughout the 240-mile flight, despite malfunctions in the plane's radio and guidance systems. The X15 has a number of backup systems to be used in cases of mechanical failure and, said Rushworth, "We used them all today."

He even had to "go manual"—operate by hand—when the camera's automatic controls went out of order.

The flight plan called for a top speed of about 3,900 m.p.h. and a peak altitude of about 100,000 feet. Actual performance: 3,920 m.p.h. and 101,000 feet.

There was no attempt to approach current X15 records of 4,104 m.p.h. and 354,200 feet.

SENIOR CITIZENS MONTH
JOHNSON CITY, Tex. (UPI)—President Johnson Friday proclaimed May as Senior Citizens Month and asked Americans to see that older persons "have a real chance to enjoy health, love and a life of dignity."

The association further proposed that navigation be extended on the Tensas River to Newlight, Bayou Macon to Winnboro (Newellton - Winnboro Highway), Little River to Catahoula Lake.

Other officers of the association named were: vice presidents — Paul Sullins, Crossett, Ark., W. C. Brown of Jonesville; and R. H. Featherston, Bauxite, Ark.

H. C. Thatcher of Camden, Ark. was re-named as executive vice president and George Shankle of Camden was selected again as secretary treasurer. H. W. McMillan of Arkadelphia, Ark. was named chairman of the legislative committee.

He said he hoped that none of the mistakes in the Ouachita River Valley program would be serious, but warned, "there are many pitfalls where mistakes can be made, not-withstanding the advantages of abundant natural resources, including river navigation."

He listed some of the pitfalls as lack of foresight and what he called a "discriminatory rate-making system."

"I am sure all of you have been or certainly will be exposed to the discrimination in rate-making by the railroads where, among other less obvious practices, they deliberately cut rates below costs on routes competitive with the waterways and make up for it by exorbitant rates where there is little or no competition," he said.

Winters remarked that water carriers accounted for \$2.88 billion in freight shipments, or 6.2 per cent of the total freight bill paid in 1962. Highway carriers collected 67 per cent of the volume, with railroads in between.

However, in ton miles, inland waterways carried 122,886,905, 000 ton miles of freight, or 9.02 percent of all freight moved in the nation in 1962.

"Each year, more and more shippers are discovering that the floated ton is the most economical ton of transportation and they are taking advantage of it," the speaker said.

Contained in the 1964 policy platform of the Association is a petition to Congress enact legislation to permit "a just portion of this national income derived from recreation to accrue to the benefits of our water resources projects on a non-reimbursable basis."

The platform, which was

GRAYSON GUTHRIE of Monroe gets a handshake from Arkansas Congressman Oren Harris (left) Friday after Guthrie, outgoing president of the Ouachita River Valley Association, was presented a plaque of appreciation by the new president, Edward Cox of El Dorado, Ark., (right). depend on how well we educate our children today.

"Business and industry need trained, well educated personnel, and our schools must continually strive to offer students a curriculum which will give them the skills they need to enjoy the better paying jobs of tomorrow."

"We must offer students strong college preparatory courses to equip them for advanced studies. We must recognize, however, that all students will not go to college, and we must offer them an increased program of vocational and technical courses to prepare them to go directly to jobs from high school."

"Our schools must accept the responsibility or building strong bodies as well as strong minds. For this reason I would like to see a strong intermural program in our schools which would reach all children."

"Our school system can only be as good as our teachers, and we must be able to compete with private enterprise to attract qualified teachers. I will back any program which will help us to hold our qualified teachers and attract others into the educational field."

"A student must have a strong basic knowledge of reading to do well in any subject. I will investigate the feasibility of instituting remedial courses in our schools to help those students who are having trouble in this subject."

"I am an independent thinker and will approach all recommendations and school problems with an open mind."

"As a member of the school board I will equally represent every school in all sections of our city."

"My yardstick on any issue will be: (1) Will it best benefit our children, (2) Is there a genuine need and will it best serve the largest number of citizens, (3) Is it a wise expenditure of the taxpayers' dollar."

"On this basis I solicit your vote and support on behalf of my candidacy for city school board member."

Police Charge Drivers After Collision Here

Charges were filed against both drivers following a head-on collision on McCain Drive east of Monroe about 3 p.m. Friday, according to Troop F of the Louisiana State Police.

Troopers said three local teenagers were slightly injured in the accident.

Traveling east on McCain in a pickup truck was Frank Boyd, 53, of 723 McCain Dr. Fredrick E. Poe Jr., 16, 2107 Oliver Rd., was headed in the opposite direction on McCain.

Investigating troopers said that the two vehicles collided in the center of the road in the 500 block of McCain.

Boyd was charged with driving while under the influence of intoxicating beverages; and Poe was ticketed for reckless driving.

Suffering slight injuries in the wreck were Poe and his two passengers, Billy Baker, 1319 Cole Ave., and Johnny Trichell, 721 Guy St., both 16. They were treated by a private physician.

High Death Toll Feared In Disaster

(Continued From Page One)

evacuated to higher ground.

Egan described the situation as "real bad."

"The dock apparently went in and the water supply was knocked out."

An unconfirmed report from Civil Defense headquarters here said there were about 30 people standing on the waterfront at Valdez when it washed out. A ham radio operator said there were two confirmed deaths.

In Seattle, the University of Washington seismologist said the earthquake apparently centered in the bay across from Seward. He had previously said it might have occurred in the Aleutians, traditional breeding ground of Alaskan earthquakes.

The Seward area is about 1,500 miles northwest of Seattle and earth tremors were felt there. They were also reported in British Columbia.

The earthquake hit here at 5:37 p.m. (10:37 p.m. EST) and was so strong it knocked out the measuring equipment of the Coast and Geodetic Survey. No damage was reported in Fairbanks proper, but there was some reported at Eielson Airport, 27 miles away.

The water supply and power were reported cut off at Glennallen, 170 miles northeast of Anchorage.

The 60-foot control tower at the Anchorage International Airport was down and 3,000 feet of runway were reported torn up. Other airports in the area also were said to be unusable.

Communications between Ft. Wainwright here and Anchorage's Ft. Richardson were out and the Air Force here said it had no contact with Elmendorf.

Gen. Lipscombe said Lt. Gen. Raymond Reeves, commander of the Alaska command has ordered troops into Anchorage on a standby basis.

The quake here lasted about four minutes.

HOUSTON, Tex. (AP)—Boats tossed violently Friday night in freakish tides presumably caused by the Alaskan earthquake.

The Weather Bureau reported a 6-foot wave of undetermined origin was surging down the Gulf Coast, snapping lines and rolling sizable ships.

Coast Guardsmen at Freeport warned residents of low areas to expect a 6-foot tidal wave followed by rough seas.

At Port Arthur, a watchman for the Kansas City grain elevator reported the tide dropped between 6 and 7 feet at 10:10 p.m. and a loaded grain ship "bobbed up and down like a cork six or eight times."

about 30 persons came out to witness the sight.

Near Houma, water from Robinson Canal covered some roads and the sheriff there reported waves several feet high overturned a number of small fishing boats.

Waters rolled across roads at des Allemands, Grand Isle, Galliano in the coastal area south of here. Boats were swamped and a few persons reportedly left their homes.

add Tremor Causes—4 pi

One marine company at New Orleans said the waves in the Intercoastal Canal were "at least four or five feet." Several boats were torn loose, including a line holding an 83-foot coast guard vessel.

A homeowner at Baton Rouge reported water suddenly started sloshing out of one side of his swimming pool.

Most reports said the sudden waves began around 10 p.m.

State police at Opelousas said they had a report that Bayou Courtebeau in St. Landry Parish rose by some four feet within an hour after 10 p.m.

At Mobile, Ala., spokesmen for the Spring Hill College seismograph said the Mobile area recorded a ground movement and added that Southern Louisiana "definitely moved even more than the Mobile area."

The movement at Mobile was recorded at 5-16ths of an inch.

Cambodia Seeking 9-Nation Meeting

PHNOM PENH, Cambodia (AP)—Cambodia said Friday it prefers to have a nine-nation conference at Geneva similar to the one held on Indochina in 1954 to guarantee Cambodia's neutrality and integrity.

Apparently the nations to be represented at such a conference would be the same nine that met in 1954 under the co-chairmanship of the Soviet Union and Britain. The others are the United States, France, Red China, North Viet Nam, South Viet Nam, Cambodia and Laos.

Five more nations—Thailand, Burma, India, Poland and Canada—attended a later 14-nation conference on Laos.

Soviet Premier Khrushchev telegraphed Cambodia's chief of state, Prince Norodom Sihanouk, saying he has urged the United States and Britain to agree quickly to an international conference to guarantee Cambodia's frontiers and neutrality. Khrushchev also said he would support any appeal Cambodia may make to the U.N. Security Council.

The latest Cambodia proposal was made in a government statement answering reports from London. The reports said Britain considers that in the absence of a preliminary accord among Cambodia, Thailand and South Viet Nam on the frontier problem, it would be difficult to persuade the governments concerned to agree to a 14-nation Geneva conference on Cambodia.

The Cambodian statement said only Thailand, South Viet Nam and the United States are opposed to convening the conference.

It added Cambodia has no frontier problems with Thailand as the borders between the two countries were fixed by international accords.

The statement said Cambodia's only problem is with South Viet Nam.

Sihanouk has threatened that if his request to convene the conference is not favorably met he will go to Peking to seek Red Chinese guarantees for Cambodia's frontiers.

The United States is reported Lukewarm toward attending the conference for fear that it will be used as a forum to attack American policy in the area, particularly in South Viet Nam.

Several hundred students earlier Friday shouted slogans hostile to the United States, South Viet Nam and Thailand in protest of the Vietnamese attack last week on Chantrea.

The United States and South Viet Nam both have apologized for that attack.

Parents Offer Apologies For Stabbing Envoy

TOKYO (UPI)—The parents and eldest brother of a deranged Japanese youth who stabbed U.S. Ambassador Edwin O. Reischauer personally delivered an apology to the American Embassy Friday and begged forgiveness.

"We have no way to convey our deepest sympathy to Ambassador Reischauer and the United States for this grave offense our third son committed and for our own failure to provide him with adequate supervision," the parents wrote in a message. "We pray from the bottom of our hearts for the speedy recovery of Ambassador Reischauer."

In the classic tradition of Japanese family life, Mitsugu Shioya, 65, went to the embassy with his wife, Himi, 57, and the couple's oldest son to apologize for Kowa Shioya, 19. The youth plunged a knife into Reischauer's right hip Tuesday as the ambassador was leaving the embassy for lunch.

In an earlier era, the parents might have committed hari-kari as a face-saving act for their son's crime. The father owns an electrical appliance store. Reischauer was recovering from the wound Friday in Toranomon Hospital. A medical bulletin said his pain was decreasing and that he was "progressing satisfactorily."

Police quoted Reischauer's assailant as saying he wanted to injure, but not kill, the ambassador to focus attention on himself and his grudges against the United States. He blamed the United States for what he called poor job and educational opportunities for Japanese citizens with weak vision. He is held for prosecution.

French Quarter 'Strip' Finished, Owners Believe

NEW ORLEANS (AP)—Stripper-ers at two French Quarter nightclubs were sacked today because the owners decided "stripping is finished in New Orleans."

"Too much harassment," said Joseph Trovato, who operates a Bourbon Street place called Poodle's Patio. "Too many headaches."

James Clayton, who operates Madame Francine's, said times are changing.

"We are convinced that the district attorney fully intends to put an end to strip tease clubs in New Orleans, one way or the other," he said.

Both men said their rooms would close for a week, then reopen with a new format.

The switch will be hardly noticeable along Bourbon's stretch of nightclubs, a sort of stripper's row with doormen imploring passing tourists to step in for the show.

Two of the strip joints were recently padlocked by Dist. Atty. Jim Garrison.

How To Keep Well

By Dr. Theodore Van Dellen

RHEUMATIC FEVER PREVENTION

Rheumatic fever differs from diseases like whooping cough and measles in that one attack does not confer everlasting immunity and the victims usually are left more susceptible. But, during the last few decades, much has been done to prevent recurrences.

The second and third seige of rheumatic fever may do additional damage to the heart. Prevention centers about the group A beta hemolytic streptococci that trigger the malady. Strep sore throat, tonsillitis, or scarlet fever generally precedes rheumatic fever 15 to 30 days. The trick is to eliminate the micro-organisms before they have a chance to set the stage for the second attack.

This can be done in different ways. Every youngster who has had rheumatic fever should be given an antibiotic or sulfa drug regularly to safeguard against recurrences. Surveys in large cities show that many youngsters who should receive this prophylaxis do not get it, for a variety of reasons.

In Chicago, rheumatic fever is a reportable disease and the health department and heart association are making a concerted effort to locate those with a history of rheumatic fever and heart disease. Families who cannot afford the preventive medicines get them free.

A plan to prevent the first bout of rheumatic fever also is gaining momentum. Throat cultures are made on children with an upper respiratory infection, and the results are reported to the family physician within 24 hours. An antibiotic is administered immediately, if beta hemolytic streptococci are present. The treatment is continued for 10 days to eliminate all traces of the organisms.

Rheumatic fever occurs in only a small percentage of those with this type of streptococcal infections. There is no way to tell ahead of time who is susceptible. For this reason, everyone harboring these organisms is treated, even tho the chance of developing the disease is small.

At one time we believed heredity played a role and those with a family history of rheumatic fever were more susceptible. There is evidence now that the strength (virulence) of the bacteria is more important. The weaker strains are less likely to cause rheumatic fever.

Dr. Van Dellen will answer questions on medical topics if stamped, self-addressed envelope accompanies request.

E. B. G. writes: Could something wrong at the end of the spine cause headaches as I walk?

REPLY

Yes, provided you refer to the upper end of the spine. Arthritis of the vertebrae of the neck may cause headache while walking.

MENTAL PROBLEMS

M. V. writes: Can a feeble-minded person get schizophrenia?

REPLY

Yes. Combinations of different mental disorders occur.

FLABBY TUMMY

A. W. writes: What is the usual reason for a potbelly in a thin person?

REPLY

Weak abdominal muscles.

from Ohio probably will be delayed until May 1.

Doctors at Wilford Hall Hospital at Lackland Air Force Base said Glenn continued to improve slowly from the fall in his home in Columbus, Ohio, on Feb. 25.

Glenn struck his head on the edge of a bathtub, and has suffered dizzy spells and loss of equilibrium ever since. He cannot stand or sit for long periods of time without becoming dizzy.

Because of regulations, the Marine Corps retires officers only on the first of the month and this automatically would delay Glenn's release date until at least May 1—four days before the May 5 Ohio Democratic primary in which he hopes to defeat incumbent Sen. Stephen M. Young, 74.

The 42-year-old lieutenant colonel is the first American to orbit the earth. He did it three times in February, 1962.

Col. E. W. Brannon, Glenn's doctor, said Glenn's progress had not been as fast as expected.

Prince Sihanouk To Decorate Son In Plane Shoot

PHNOM PENH, Cambodia (UPI)—Prince Norodom Sihanouk will decorate his pilot son, Prince Monirak, for shooting down an unarmed U.S. observation plane it was reported Friday.

Monirak was flying a T28 fighter-trainer supplied through the U.S. aid program.

American 1st Lt. Uwe Thorsten Scoebel, 27, pilot of the observation plane, died Wednesday night at Clark Field Hospital in the Philippines. The Vietnamese observer aboard the plane died in the crash which American officials said took place inside South Vietnamese territory.

Scoebel was from Honolulu. American and South Viet Nam sources said Scoebel was well inside Viet Nam when Monirak, a lieutenant in the Cambodian air force, attacked.

The plane incident took place a week ago Thursday at the same time a Vietnamese force with American military advisers present attacked the Cambodian border village of Chantrea, killing 16 persons.

Three hundred college students demonstrated Friday in Phnom Penh against the United States and in memory of the March 19 incident.

Real Estate Transfers

The following real estate transfers are on record in the office of the Ouachita Parish clerk of court:

Steven G. Gilbert sold to William W. Gilbert his interest in a lot in section 43, township 18 north, range 4 east, for assumption of obligations, particularly a mortgage in the original sum of \$13,000.

Commerce Realty Corp. sold to the United Pentecostal Church of Monroe, La., lots D & E of the Parkway Subdivision, unit 1, for \$15,000.

Richard Realty sold to Eulas B. Walters lot in the northeast quarter of the northeast quarter of section 11, township 19 north, range 4 east, for \$500.

Stanley E. Palowsky sold to Ray W. Talley lots 8, 9 and the east 1/2 of lot 7 of block 4 of the Commercial Subdivision, for \$55,000.

Douglas Devone Hendry et ux sold to William Chapman Archibald et ux lot 8 of block 76 of Layton's Third or Southern Addition for \$30 cash and assumption of a mortgage for \$9,200.

H. K. Linton sold to Chester Cole lots 24 and 25 of block 3 of the Richwood Addition for \$12,250.

J. T. Landrum et ux sold to Mrs. Jane Landrum Coleman lot in lot 2 of block 1 of the Spriane Place Addition for \$3,000.

Federal Housing Commissioner sold to Joe Walter Bradford et ux lot 24 and the north half of block 25 of the H. M. McGuire's Highland Park, unit A, for \$11,000.

Benton Frost sold to Newton Allen Brown lot 4 of unit 1 of the Frost Estates in section 34, township 17 north, range 2 east, for \$17,200.

Fannie Mae Miller sold to John R. Cotton the west 7/2 of lots 1 and 2 of block 13 of the Wilson Williams Addition for \$4,000.

Joe Anthony LaPietra sold to Jacob Robert Puse Jr. et ux lot 19 of block 72-A of the Ouachita Cotton Mills Second Addition for \$9,200.

Katie Mae Montgomery sold to Willie J. Smith lot 18 of block 68 of the Booker T. Washington Addition for \$600.

HOLD PROTEST MARCHES

PROMISE BORN ANEW

World's Christians Turn To Crucifixion

Associated Press
Christians throughout the world turned once again this Easter weekend to the promise of the Crucifixion for solace in troubled times.
Roman Catholic and Protestant Good Friday services recalled the blackest day in the history of the faith, the day Christ died on the cross.
In the United States, amphitheaters, churches and parks were readied for the traditional sunrise services of Easter Sunday, the day Christ rose from the dead.
"That morning, many years ago, apparent defeat and failure was turned into triumph," said the Easter message of the president of the National Council of Churches, Bishop Reuben H. Mueller, who is spending the weekend in West Berlin.
"Facing our problems today, as Christ's followers faced theirs in their day, we too can find help in the living Christ, no matter what our problems are."
Eastern Orthodox Christians, keeping a different calendar, do not observe Easter until May 3.
This year, the start of the Jewish Passover observance coincided with the Protestant and Roman Catholic Good Friday.
From Rome, Pope Paul VI extended an apparently unprecedented Roman Catholic pontifical gesture to non-Catholic Christians in the cause of unity. Instead of referring to them with the often used term "separated brothers," the Pope said in his Holy Thursday services: "We send our well-wishing Easter salute to the Oriental churches disjoined from us at present but already together with us in faith. Greetings and peace to all the Anglican Church, while with sincere charity and equal hope we trust to be able to see it one day recomposed honorably in the unique and universal fold of Christ."
The Pope also referred to the Protestant Reformation and said, "May the virtue of the Easter of Christ indicate the just, and perhaps long way to bring us together."
In Denver, Colo., city work crews began removing nine inches of snow from the seats in Red Rock Park, preparing for the sunrise service.
Other traditional locations for such worship include the deck of the Navy's oldest commissioned warship, the USS Constitution in Boston Harbor, and on Bald Knob at Alto Pass, Ill., where an 111-foot steel and marble cross will be dedicated.
The annual Easter pageant in the hills near Kenton, Okla., starting at sundown Friday, concludes Easter morning with the Resurrection scene.
The First Baptist church of Stanton, Mo., will hold its sunrise service in the Meramec Caverns where many of its members work.

U.S. Pilot Dies From Wounds In Cambodia Crash

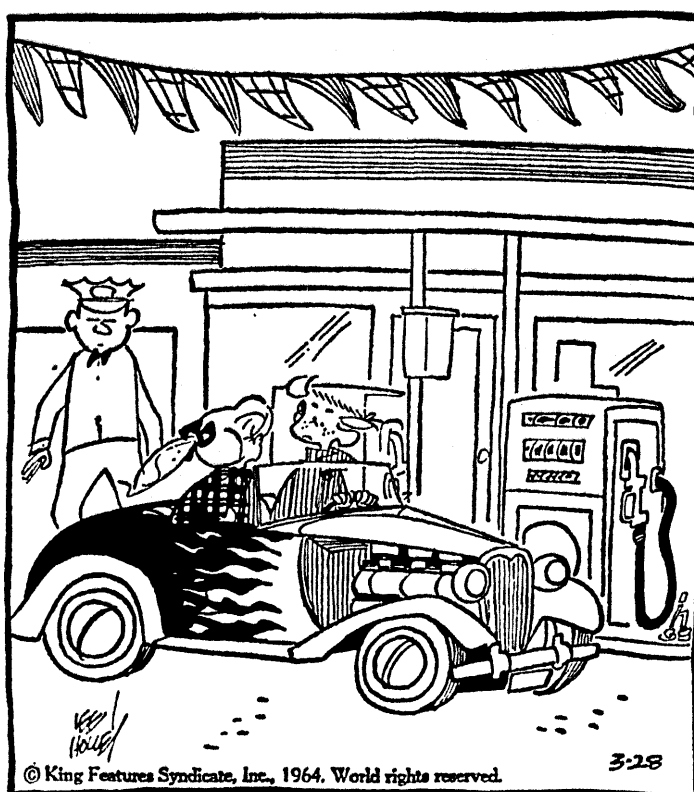

WASHINGTON (UPI) — The U.S. pilot whose plane was shot down near the South Viet Nam - Cambodian border last week has died in the Philippines, of his injuries, the Defense Department said Friday.
He was 1st Lt. Uwe-Thorsten Sobel, whose L19 light reconnaissance craft was shot down by a plane believed to have been Cambodian.
His injuries, sustained March 19, proved fatal Wednesday, Philippine time, at the Clark Air Force Base Hospital near Manila.
A South Vietnamese crewman aboard the plane died in the crash.

PONYTAIL

"Don't buy too much. It makes the car hard to push."

VOICE OF BROADWAY

By DOROTHY KILGALLEN

BROADWAY BULLETIN BOARD... It may or not be a straw in the wind for prospective presidential candidates to consider, but night club business—usually a barometer of business in general—appears to many experts to be at an unprecedented low. The unions are dealing with countless cases of acts and musicians who haven't been paid by cafes, but they have a built-in problem: if they prosecute every club involved, they're afraid the spots will have to close, and then where will the acts work?

New York hotels and motels are in similar trouble, and trying to keep up a happy front by having the maids turn lights on in empty rooms at night, to make it look as if the places were doing good business.
A big name comedian opened recently at a popular East Side room with only 90 customers in attendance, and a Broadway nitery with a huge capacity drew about 150 with its latest offering. The "in" spots for the very rich and the expensive-account chaps are still doing all right, just as the smash hit shows are. But anything for the middle classes, and anything less than a runaway SRO show, is suffering badly. Example of how the people only want to know about the great hits: a Broadwayite who tried to buy four tickets to "Hello Dolly" the day the anti-scalping law hit the headlines was told by his ticket agent — who didn't bat an eyelash — that the duets could be dug up for \$200.

Lana Turner has been very ill in Mexico — a recurrence of paratyphoid fever. They've been shooting around her for her next flicker, while she regains her strength... Although plagued by financial complications, producer Sam Bronston received some good news from London, where the critics raved about his "Fall of the Roman Empire." The Daily Express reviewer described it as "The most lavish and brilliant motion picture epic since that volcanic D. W. Griffiths' classic 'Birth of a Nation'."
One of the biggest names in professional football is on the verge of a marital split — after many years of marriage and four children... Mrs. Broderick Crawford is okay after major surgery. No malignancy, the medics report... Count Basie and his band will make a tour for "Stars for Freedom" in the next few days, along with Mahalia Jackson, Joe Williams, Fran Jeffries and Dick Gregory.

Arizona Sheriff Describes Trail Of Fugitive Killer
PHOENIX, Ariz. (AP)—The Maricopa County sheriff said Friday accused killer James Vanderham was once a fugitive wanted in seven states.
Sheriff Cal Boies said Vanderham was once arrested in Phoenix, the city where he is now being held for the February desert slaying of a vacationing New York couple.
Boies said a fingerprint check revealed that Vanderham and Herbert L. Shockey were the same men.
Newspaper files say Shockey was picked up in mid-1959, then turned over to federal officers.
The FBI in Phoenix said Shockey was transferred to Denver where on July 24, 1959, he was sentenced to five years in prison.
Other details weren't available.
The newspaper stories also said that he had 10 aliases. He was picked up in 1959 while living with a girl identified as Nelda Mae Shockey, 17, in Phoenix. They said they had been married in Tijuana, Mexico.
When Vanderham was arrested in Nevada last week, he was traveling with another girl, Theresa Robichaud, 17, of Fresno, Calif., in a pickup truck-camper belonging to the murdered couple, Mr. and Mrs. John Bertella.

Quote from a previewer of "Funny Girl": "It isn't question of what the critics will say about the musical. The big problem is how they're going to get through the show opening night. Barbra Streisand stops it cold with her very first number, and keeps stopping it. I've seen them all from Marilyn Miller to Gertrude Lawrence to Mary Martin — and this is the greatest."

Tribe Faces Tough Job Winning Florida Relays

The first of Northeast State's two toughest track and field assignments looms ahead for the Indians today in the Florida Relays at Gainesville, Fla.

The Florida meet and the Southwestern Relays, scheduled April 11, are annually the top meets on the Indian schedule and usually draw the finest

track teams in the South. Tennessee, one of the favorites for the Southeastern Conference championship, and Florida State are two of the teams that should provide Northeast with its toughest competition in Gainesville.

Northeast has met Florida State once before this season, edging the Seminoles, 42-39, in the open division of the indoor

Coliseum Relays Feb. 15 in Montgomery, Ala.

The Indians have won two Florida Relays championships, in 1960 and 1962. Northeast was undefeated both years.

So far this season, Northeast has won its only two meets, taking the All-College Meet in Commerce, Tex., March 7 and the Memphis Relays last weekend. The Shreveport Relays

March 14 was rained out.

Coach Bob Groseclose is expected to take around 14 athletes to Gainesville. The Indians will be hampered by the fact that freshmen cannot compete in the university division and some of the team's top athletes will have to be left at home.

The Tribe's crack hurdler, Roger Morgan, will be entered in three events — the 120-yard high hurdles, the 330-yard intermediate hurdles and the 440-yard relay. He is aiming at a new Relays record in the high hurdles. The record is 13.8, set by Indian Don Styron in 1962. Morgan ran a 13.9 last week in Memphis in 39-degree temperature.

Dalton LeBlanc, however, is likely to be the busiest Indian at Gainesville. He is tentatively entered in four events — the high and intermediate hurdles, the 440 relay and the 100-yard dash.

Indian sprinter Jay Goldsmith, fifth in the Florida century last year, is injured and not expected to make the trip.

Morgan and LeBlanc are rated strong contenders on both hurdle events while Ronnie Fountain will enter the 100 along with LeBlanc.

Charlie McDonald, Fountain, Morgan and LeBlanc are slated to enter the 440 relay and John Baker, Doug Constant, McDonald and Gayland LeBlanc will be the Tribe team in the sprint medley.

A combination of Cline Averett, Constant, Fountain and Baker will run the mile relay. HTIS group has run this event only once, winning at Memphis last week with a 3:21.2.

Bill Smith will be the only Indian entry in the mile.

Tommy Edmonson will be the busiest Northeast entry in the field events. He is slated to enter the broad jump, pole vault and triple jump. He has broad jumped 24-2 1/2 with the wind this year and 22-7 3/4 without it. He has gone 47-3 1/4 in the triple jump this year and 14-0 in the pole vault. He has a best of 14-6 in the vault.

Gerald Waguespack will also enter the broad and triple jumps and Ronnie Overby will vault.

Tommy Slack, with a best of 207.3, is the Tribe entry in the javelin and Gary Walker will enter the discus. Walker has thrown the plate 162-10 1/4 this year.

Ronnie Fountain, who has placed in both of Northeast's previous meets, and Doug Constant will enter the high jump.

Last year Northeast finished fourth in the Florida Relays with 27 points. Furman winning with 39. Edmonson was second in the broad jump and third in the triple jump in the 1963 meet. Goldsmith was fifth in the 100, Randall Walker, who has completed his eligibility, was second in the 330 hurdles and Northeast took first in the pole vault — where John Penel went 16 1/4 — and the 440 relay.

Giant Flanker Gifford Signs

NEW YORK (AP) — Veteran New York Giants flanker back Frank Gifford, who also doubles as a sportscaster, signed his 1964 contract with the National Football League Eastern Division champions Friday.

TOP TRIBE TRACKMEN, Tommy Slack, left, and Charles McDonald will participate with 12 other Indians in the Florida Relays at Gainesville, Fla. today. Slack has hurled the spear over 200 feet while Mc-

Donald has churned the 100 yard dash in 9-7 seconds, each mark a career best. Northeast won the annual Florida go in 1960 and again in 1962. Last year the Tribe finished fourth.

PAPPAS SETS NEW MARK

Neville Places Third; Bears First In Annual Bolton Relays

ALEXANDRIA (Special)—The Bolton Bears piled up 84 points to outdistance a classy field and capture the annual Bolton Relays.

The Bears recorded five first place finishes enroute to their victory. Bolton Rouge High school followed Bolton with 60-3 points. Neville of Monroe was third with 55 points, Istrouma of Baton Rouge fourth with 54-5-6 points, and Broadmoor of Baton Rouge last with 37-5-6 points.

Six new meet records were set, with Istrouma's Jimmy

RELAYS

440-yd relay (43.6) — Bolton (Gray Easterling, Chuck Tidwell, Albert Shirley, Richard Golmon), Baton Rouge, Nev. 1strouma (Mike Greer, Wayne Messina, Don Hutchinson), Baton Rouge, Nev. 1st.

880-yd relay (1:30.9) — Bolton (Gray Easterling, Chuck Tidwell, Albert Shirley, Richard Golmon, Neville, Istrouma, Baton Rouge).

1600-yd relay (5:29.4) — Istrouma (Mike Greer, P. J. Gianfranco, Wayne Messina, Don Hutchinson), Baton Rouge, Nev. 1st.

440-yd dash (51.3) — Gerald Braud (B), Baton Rouge (B), John Gouillon (B), Ed Cullen (B), Phil Ward (B), Don West (N), Richard Boudreaux (B), John Gouillon (B), Phil Ward (B), 1st.

880-yd dash (2:00.9) — Bill Simmons (B), Baton Rouge (B), John Gouillon (B), Ed Cullen (B), Phil Ward (B), Don West (N), Richard Boudreaux (B), John Gouillon (B), Phil Ward (B), 1st.

1600-yd dash (6:11.2) — Ladd Thomas (B), Baton Rouge (B), John Gouillon (B), Ed Cullen (B), Phil Ward (B), Don West (N), Richard Boudreaux (B), John Gouillon (B), Phil Ward (B), 1st.

440-yd dash (51.3) — Gerald Braud (B), Baton Rouge (B), John Gouillon (B), Ed Cullen (B), Phil Ward (B), Don West (N), Richard Boudreaux (B), John Gouillon (B), Phil Ward (B), 1st.

880-yd dash (2:00.9) — Bill Simmons (B), Baton Rouge (B), John Gouillon (B), Ed Cullen (B), Phil Ward (B), Don West (N), Richard Boudreaux (B), John Gouillon (B), Phil Ward (B), 1st.

1600-yd dash (6:11.2) — Ladd Thomas (B), Baton Rouge (B), John Gouillon (B), Ed Cullen (B), Phil Ward (B), Don West (N), Richard Boudreaux (B), John Gouillon (B), Phil Ward (B), 1st.

440-yd dash (51.3) — Gerald Braud (B), Baton Rouge (B), John Gouillon (B), Ed Cullen (B), Phil Ward (B), Don West (N), Richard Boudreaux (B), John Gouillon (B), Phil Ward (B), 1st.

880-yd dash (2:00.9) — Bill Simmons (B), Baton Rouge (B), John Gouillon (B), Ed Cullen (B), Phil Ward (B), Don West (N), Richard Boudreaux (B), John Gouillon (B), Phil Ward (B), 1st.

1600-yd dash (6:11.2) — Ladd Thomas (B), Baton Rouge (B), John Gouillon (B), Ed Cullen (B), Phil Ward (B), Don West (N), Richard Boudreaux (B), John Gouillon (B), Phil Ward (B), 1st.

440-yd dash (51.3) — Gerald Braud (B), Baton Rouge (B), John Gouillon (B), Ed Cullen (B), Phil Ward (B), Don West (N), Richard Boudreaux (B), John Gouillon (B), Phil Ward (B), 1st.

880-yd dash (2:00.9) — Bill Simmons (B), Baton Rouge (B), John Gouillon (B), Ed Cullen (B), Phil Ward (B), Don West (N), Richard Boudreaux (B), John Gouillon (B), Phil Ward (B), 1st.

DOWN AMHERST IN WILD FRAY

Northeast's Baseball Team Gets First Victory Of Year

TALLAHASSEE, Fla. (Special)—Northeast State exploded for eight runs in the seventh inning and chased two Amherst pitchers to the showers to come from behind for their first win of the season, 12-9, here Friday in the Florida State baseball tournament.

Amherst jumped off to a 5-0 lead after three innings. The Indians scored four in the fourth, but Amherst came back in the bottom of the same frame for three more and an imposing 8-4 lead.

Left-hander Mike Tinerello, the last of three Indian hurlers shut off Amherst's burst in the third and hurled the remainder of the contest for the win.

It was Northeast's first victory after five straight defeats. Amherst rapped the Tribe for 13 hits in the ninth inning contest, but had trouble showing across the runs. Northeast collected eight hits.

Mike Vining started for Darryl Barnes in the third. Tinerello

came on in the same inning to put out the fire. Amherst got only one more run after that.

Both teams made three errors apiece.

Northeast had dropped a pair of contests to both Auburn and Georgia Tech as well as a single game with Florida State before winning Friday's contest.

The Indians scored four runs in the fourth on a single and six walks.

But the real fireworks came in the seventh.

Joey McGinn started it off with a walk. Then David Worthington walked and Charley Dykes scored McGinn on a single. John Hall was safe on an error. Bobby Leake singled to

score Worthington. John Pace singled and Jim Caskey was safe on an error and Tinerello walked to force in Leake.

McGinn, back up again, singled in Caskey and Kincaid, then Worthington doubled down the baseline, plating both McGinn and Tinerello.

Northeast plays Mississippi State today at 3:30 p.m. in the team's last tournament game. Dean Bounds is slated to start.

Alton Thomas, hit in the eye earlier this week, is still in the hospital. He is improving and Coach George Luffey said the doctors would let him know today if Thomas can be released to return with the team Sunday.

Northeast plays Nichols State there on Monday.

Tribe Faces Tough Job Winning Florida Relays

The first of Northeast State's two toughest track and field assignments looms ahead for the Indians today in the Florida Relays at Gainesville, Fla.

The Florida meet and the Southwestern Relays, scheduled April 11, are annually the top meets on the Indian schedule and usually draw the finest

track teams in the South. Tennessee, one of the favorites for the Southeastern Conference championship, and Florida State are two of the teams that should provide Northeast with its toughest competition in Gainesville.

Northeast has met Florida State once before this season, edging the Seminoles, 42-39, in the open division of the indoor

Coliseum Relays Feb. 15 in Montgomery, Ala.

The Indians have won two Florida Relays championships, in 1960 and 1962. Northeast was undefeated both years.

So far this season, Northeast has won its only two meets, taking the All-College Meet in Commerce, Tex., March 7 and the Memphis Relays last weekend. The Shreveport Relays

March 14 was rained out.

Coach Bob Groseclose is expected to take around 14 athletes to Gainesville. The Indians will be hampered by the fact that freshmen cannot compete in the university division and some of the team's top athletes will have to be left at home.

The Tribe's crack hurdler, Roger Morgan, will be entered in three events — the 120-yard high hurdles, the 330-yard intermediate hurdles and the 440-yard relay. He is aiming at a new Relays record in the highs. The record is 13.8, set by Indian Don Styron in 1962. Morgan ran a 13.9 last week in Memphis in 39-degree temperature.

Dalton LeBlanc, however, is likely to be the busiest Indian at Gainesville. He is tentatively entered in four events — the high and intermediate hurdles, the 440 relay and the 100-yard dash.

Indian sprinter Jay Goldsmith, fifth in the Florida century last year, is injured and not expected to make the trip.

Morgan and LeBlanc are rated strong contenders on both hurdle events while Ronnie Fountain will enter the 100 along with LeBlanc.

Charlie McDonald, Fountain, Morgan and LeBlanc are slated to enter the 440 relay and John Baker, Doug Constant, McDonald and Gayland LeBlanc will be the Tribe team in the sprint medley.

A combination of Cline Averett, Constant, Fountain and Baker will run the mile relay. This group has run this event only once, winning at Memphis last week with a 3:21.2.

Bill Smith will be the only Indian entry in the mile.

Tommy Edmonson will be the busiest Northeast entry in the field events. He is slated to enter the broad jump, pole vault and triple jump. He has broad jumped 24-2 1/2 with the wind this year and 22-7 1/2 without it. He has gone 47-3 1/2 in the triple jump this year and 14-0 in the pole vault. He has a best of 14-6 in the vault.

Gerald Waguespack will also enter the broad and triple jumps and Ronnie Overby will vault.

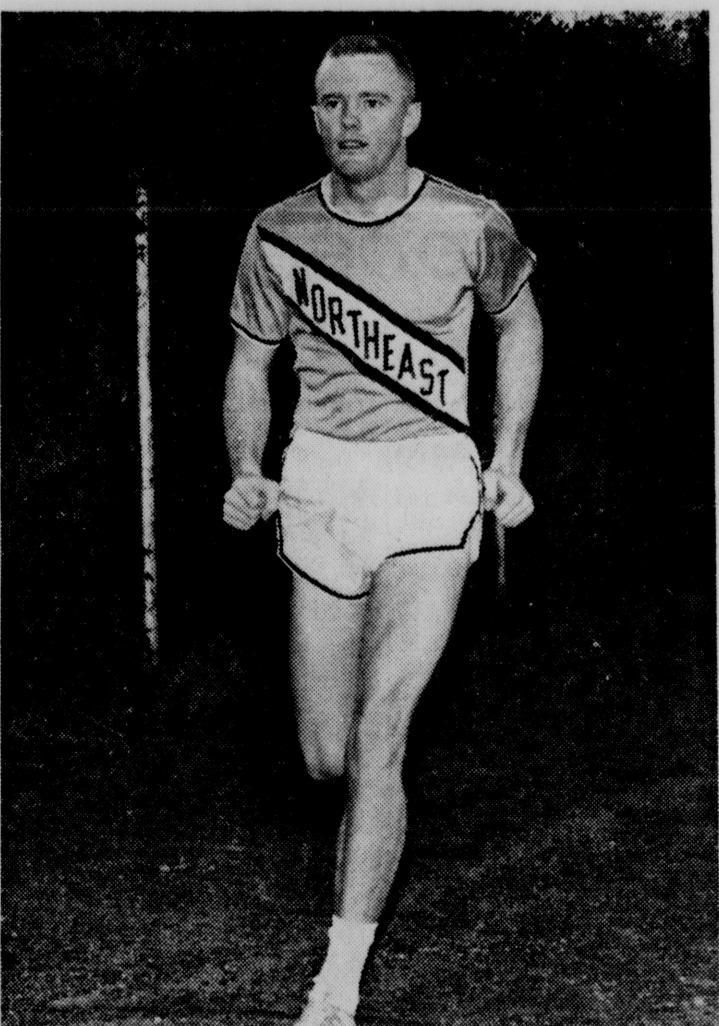

Tommy Slack, with a best of 207.3, is the Tribe entry in the javelin and Gary Walker will enter the discus. Walker has thrown the plate 162-10 1/4 this year.

Ronnie Fountain, who has placed in both of Northeast's previous meets, and Doug Constant will enter the high jump.

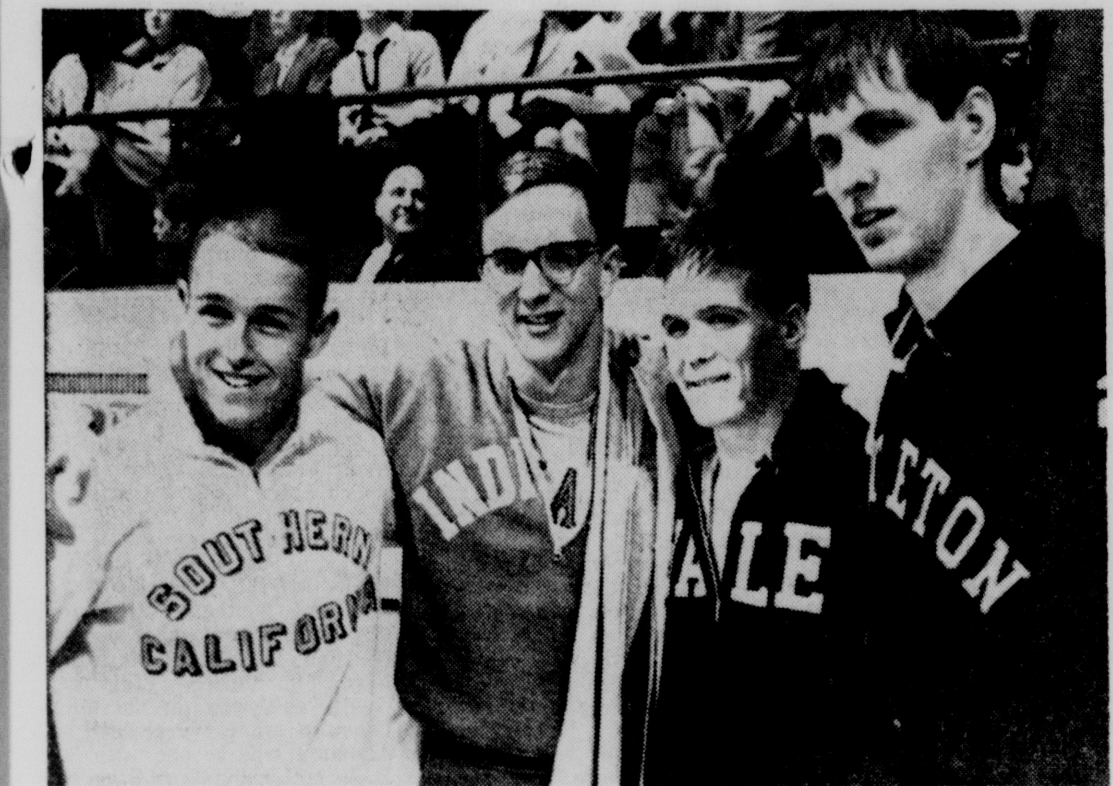

Last year Northeast finished fourth in the Florida Relays with 27 points. Furman winning with 39. Edmonson was second in the broad jump and third in the triple jump in the 1963 meet. Goldsmith was fifth in the 100. Randall Walker, who has completed his eligibility, was second in the 330 hurdles and Northeast took first in the pole vault — where John Penell went 16 1/4 — and the 440 relays.

TOP TRIBE TRACKMEN, Tommy Slack, left, and Charles McDonald will participate with 12 other Indians in the Florida Relays at Gainesville, Fla. today. Slack has hurled the spear over 200 feet while McDonald has churned the 100 yard dash in 9-7 seconds, each mark a career best. Northeast won the annual Florida go in 1960 and again in 1962. Last year the Tribe finished fourth.

Donald has churned the 100 yard dash in 9-7 seconds, each mark a career best. Northeast won the annual Florida go in 1960 and again in 1962. Last year the Tribe finished fourth.

FOUR COLLEGIATE swimmers gather after each collected a victory during the 41st NCAA swimming and diving championships Friday at Yale University. From left to right they are: William Craig of Southern California, winner in

the 200-yard breaststroke; Fred Schmidt of Indiana, 200-yard butterfly; Steve Clark of Yale, 200-yard freestyle; and Jed Graef of Princeton, 200-yard backstroke. (AP Wirephoto)

Young Golfer Is Stricken With Brain Ailment

LOUISVILLE (AP)—Frank Beard, rising young professional golfer, was undergoing treatment Friday for a brain inflammation akin to meningitis and sleeping sickness.

A neuro-surgeon reported that the 24-year-old athlete "is a very sick boy," adding that he will be hospitalized for some time.

Beard, who returned to his parents' home this week for a rest, slipped into a coma Thursday.

Ralph Beard Sr. said his son had been bothered with a bad cold and had not been feeling well since the Tucson Open in mid-February.

The attending physician said the ailment is caused by a virus and that Beard had the symptoms for three or four weeks.

Clay Offered To Fight Jones

PHILADELPHIA (AP)—Promotor Lou Ouchess and matchmaker Sam Weinberg said Friday they have offered heavyweight champion Cassius Clay \$1 million to fight Doug Jones, No. 1 ranked contender, in a title bout here.

Weinberg said he sent a telegram to Clay's manager, Bill Faversham in Louisville, offering the money for a title fight in Philadelphia on any date suitable to the Clay camp.

Weinberg said he had authorization from Jones to make the offer.

BILL RUSSELL

Celtic Ace Said Near Crackup

BOSTON (AP)—Boston Celtic's ace Bill Russell has been close to a nervous breakdown all season while guiding the team to its eighth straight division title in the National Basketball Association, the Boston Record American reported Friday night.

The exclusive story written by Bill McSweeney says a combination of severe pain, fear and sensitivity have had Russell near collapse.

McSweeney reports the great center has averaged only two hours of sleep a night during the season — none on game nights — and has been in a state of deep depression.

"Fighting off a crippling injury, plagued by personal problems, he never was certain from one day to the next if he would be able to finish the regular season—or even if he would live through it," McSweeney wrote.

He adds that Russell told him

several times during the season:

"Don't you dare write it. It's my problem. It would sound too much like an alibi."

Russell revealed early in the campaign he has been playing on arthritic knees since he came into the NBA.

"He has played despite advice that he may be ruining himself and may never be able to play again and the ensuing pain has nagged him on a 24-hour-a-day basis," McSweeney wrote.

The story also said Russell has a fear of flying and that the law of averages may soon catch up with him although he never displays such feelings publicly.

The story indicates the pressure of serving as team captain has weighed heavily on Russell, too. The center and Frank Ramsey were named co-leaders after Bob Cousy retired. Although Russell didn't want the job he's been outstanding at it.

Oxford Crew Is Big Boat Load; Favored In Race

LONDON (AP)—Oxford's weighty rowing eight remained the favorite Friday to beat Cambridge for the third straight year Saturday in their 110th race on the Thames River.

But there was a suspicion in some quarters that Cambridge has been deliberately concealing its power.

Oxford, with former Yale star Duncan Spencer at stroke, dazzled critics with its final training performances during the past week. On Thursday the Oxford eight rowed from Hammer-smith Bridge to the mile post—roughly half the traditional 4 1/2 mile course—in two minutes, 49 seconds, equalling the record for that distance.

Earlier in the week Oxford had been established as a 2-1 favorite because of excellent performances in rough water.

Meanwhile, Cambridge had appeared to be taking things easy in training and only in the last few days have the Cantabs shown signs of real strength.

Cambridge also has an American in its crew — John Roche Kiely, a 6-foot-5 giant from Jacksonville, Fla. Kiely packs tremendous power in the middle of the boat and Cambridge men look to him to provide an extra burst of speed when needed.

The Oxford crew averages 189 1/2 pounds and is believed to be the heaviest since the race started in 1829. In the past heavy crews usually have won the long race from Putney to Mortlake.

Cambridge has won the race 60 times, Oxford 48 and there was one dead heat.

The race is scheduled to start Saturday at 8:30 a.m., EST.

NEW YORK (AP)—Veteran New York Giants flanker back Frank Gifford, who also doubles as a sportscaster, signed his 1964 contract with the National Football League Eastern Division champions Friday.

PAPPAS SETS NEW MARK

Neville Places Third; Bears First In Annual Bolton Relays

ALEXANDRIA (Special)—The Bolton Bears piled up 84 points to outdistance a classy field and capture the annual Bolton Relays.

The Bears recorded five first place finishes enroute to their victory. Bolton Rouge High school followed Bolton with 60-1-3 points. Neville of Monroe was third with 55 points. Istrouma of Baton Rouge fourth with 54-5-6 points, and Broadmoor of Baton Rouge last with 37-5-6 points.

Six new meet records were set, with Istrouma's Jimmy

Dousay and Bolton's 440 and 880 yard relay teams each establishing two marks.

Bill Simmons of Baton Rouge High established a new standard in the 880-yard run with a 2:00.9 time, and Gary Pappas of Neville set a new broad jump record with a leap of 21-8 3/4.

Dousay established his two records in the 100 and 220-yard dashes. The Istrouma flash recorded a 10 flat in the century and a 22.1 in the 220.

Gray Easterling of Bolton and Adrian D'Armond of Baton Rouge High joined Dousay as the meets only dual individual

winners.

Easterling captured both hurdles events, and D'Armond won the discus and shot put.

Other meet winners were Gerald Braud of Neville in the 440-yard dash with a 51.3 time, Ken Williamson of Bolton with a 4:51.1 mile, Tommy Arbour of Istrouma with a leap of 43-6 in the triple jump; Barry Phillips of Broadmoor in the javelin with a toss of 194-11-4; John Edwards of Istrouma in the high jump with a leap of 6-1, and Dale Oliver of Baton Rouge in the pole vault with a jump of 12-0.

Edwards and Oliver were tied by Bolton's Roger Shaw and Ne-

ville's Doug Cookston in the high jump and pole vault, but each won with less misses.

Istrouma captured the mile relay with a time of 3:29.4.

SCORING
Bolton 84, Baton Rouge 60 1-3, Neville 55, Istrouma 54 5-6, Broadmoor 37 5-6.

Rebel B-Team Wins Southside Cinder Meet

West Monroe's B-team scored 105 points to win a three-team track and field meet at Southside High here Friday. Vidalia had 80 points and Southside 48.

The summary:
Shot put: Prestwood, West Monroe; Dean, Vidalia; Greer, Vidalia (43-8 1/4).
Discus: Sims, West Monroe; Viebel, Southside; Greer, Vidalia (120-6).
Javelin: Boudreaux, Southside; Sims, West Monroe; Dean, Vidalia (138-5).
High Jump: Forester, Vidalia; Greer, Vidalia; Brewster, West Monroe (5-5).
Broad Jump: Stevenson, Vidalia; Reynolds, West Monroe; Andrews, Southside (19-5).
Pole Vault: Watkins, West Monroe; Reynolds, West Monroe; Forester, Vidalia (11-6).
Hop - Step - Jump: Fraga, West Monroe; Forester, Vidalia; Vaughn, Southside (38-11 1/2).
880 - yard dash: Vidalia (Arrows, Bledsoe, Wiggins and Forester), West Monroe (1:38.9).
120 - yard hurdles: Clark, Southside; Laverder, West Monroe; Fontenot, Southside (18-2).
100 - yard dash: Stevenson, Vidalia; Kelly, West Monroe; Bonin, Southside (11.0).
880-yard run: Hux, West Monroe; Thomas, West Monroe; Spinks, Vidalia (2:16.7).
440 - yard relay: Vidalia (Arrows, Nations, Wiggins and Stevenson), West Monroe (47.2).
440 - yard dash: Bledsoe, Vidalia; Kenner, West Monroe; Bonin, Southside (56.4).
180 - yard hurdles: Nations, Vidalia; Bledsoe, Southside; he between Laverder and Martin, both of West Monroe (22.5).
1 mile run: Hayden, West Monroe; McDuffey, West Monroe; Doyle, Southside (5:08.2).
220 - yard dash: Kelly, West Monroe; Galsbury, West Monroe; Nations, Vidalia (24.1).
1 mile relay: West Monroe (Avery, G. Bledsoe, S. Brewster and Adams), Southside (3:39.8).

American Cars Near Rally Lead

NAIROBI, Kenya (AP)—The Teeming rain and deep, sticky mud took their toll Friday as rally cars from seven nations slogged along on the 3,190-mile course of the East African Safari, once of the world's toughest tests for cars and drivers.

Three cars overturned on the Kampa and seven others were eliminated with burned-out clutches.

Two British Ford Cortinas led the field at Kampa Friday morning and Ford-built cars from Britain and the United States occupied the first five places.

Mike Armstrong, a veteran Safari driver, led the field by a big margin in a Cortina. He had lost only three penalty points. Drivers lose a point for every minute they are late at a checkpoint. They are eliminated if they lose 240 points.

An American Ford Comet, piloted by two Kenya drivers, Joginder and Jaswant Singh, held third place at Kampa. The brothers are Sikhs who were born in Kenya.

The all-American Comet crew of LeRoy Neumayer of Compton, Calif., and Don Bailey of Los Angeles was in a good position, having lost 27 points. But the other American Comet driver, Ray Brock of Monterey

Park, Calif., has lost 127. The Comet team captain, Viscount Kim Mandeville, was in ninth place.

The rally favorite, Eric Carlsson of Sweden, was in sixth place in his Saab 96 sports car. Also in a good position was a Japanese driver, Takashi Wakabayashi, in a Datsun Bluebird. He had lost only 17 points.

A Japanese Contessa, driven by Mike Bird and Doris Sherwin, was the Safari's first casualty. It overturned on a hairpin bend on the Molo escarpment, 100 miles from Nairobi. The car plunged 75 feet down a ravine into the Great Rift Valley but the drivers were unhurt.

Later Friday the cars were scheduled to crawl over the 8,000 foot Tambach escarpment with a sheer drop on one side of a narrow, winding road. This was expected to be a key test for the Comets and other big cars.

Sanders Leads Lima Tourney

LIMA, Peru (AP)—Doug Sanders of Denver fired a four-under-par 68 Friday and took the halfway lead in the Lima International golf tourney.

Sanders' 36-hole total of 138 headed Spain's Sebastian Miguel, the first round leader, by a stroke. Miguel shot a 70 Friday.

Roberto De Vicenzo of Argentina was in third place, five more strokes back, after a second round 73.

SHOOTS A FIVE-UNDER 67

67 Strokes, Six Cigars Get Campbell Azalea Golf Lead

WILMINGTON, N. C. (AP)—Chunky Joe Campbell, using 67 strokes and six cigars, shot a five-under-par 67 Friday to take a one-stroke lead in the first round of the \$20,000 Azalea Open Golf Tournament.

Resplendent in bright red shirt and socks and shoes with the black and gold of Purdue University, his alma mater, the 27-year-old Campbell shot the 6,744-yard Cape Fear Country Club course in 33-34 to wrest the lead from veteran Bob Gajda of Bloomfield Hills, Mich., part-time tourney pro, who fashioned his 68 on a pair of 34s.

With the temperature in the 60s and a bright sunshine bathing the course, conditions were perfect for scoring following Thursday's rain that delayed the start of the tournament. As a result, 34 men in the field of 150 broke par and 23 matched regulation figures.

Campbell's round was his best in competition since last July. The Hoosier, who sat out three tournaments during the winter tour to rest an injured left hand, had five birdies and 13 pars. His longest putt was a 12-footer on the fifth hole. He missed only one green, the 16th, but chipped three inches from the hole for his par three.

The round won Campbell \$600 in bonus money that goes to the daily low score.

He counted 31 putts and called it one of his top greens performances of the year.

The lanky Gajda, balding, bespectacled and 47 years old, had 10 one-putt greens and rolled in

five putts of 15 to 30 feet in taking a lead that held up for about three hours.

He is best remembered perhaps as the first round leader

with 69 in last year's U. S. Open. After that start, he failed to break 80 in the next three rounds.

Five men shared third place

at 69. Among them were two surprises, 24-year-old Rocky Mount, N. C., amateur Ed Justa, and Dutch Harrison, who will be 54 years old Sunday. He won here in 1950.

Tommy Jacobs, Jack McGowan and Don Fairfield were others in the group. Thirteen men shot 70, among them Bruce Devlin, Gene Littler, Tony Lama, George Bayer and Lionel Hebert.

Billy Casper, winner at Miami, Fla., earlier this week, could do no better than par 72 and Jerry Barber, three-time winner and defending champion took 74.

After Saturday's second round the field will be cut to the low 60 and ties and 10 amateurs for the final rounds Sunday and Monday.

Exhibition Baseball

Indians Busy

TUCSON, Ariz. (AP)—The Cleveland Indians got a half day Good Friday but for the remainder of their exhibition season they have just one open date left.

Word was out that no more roster cuts are expected until camp is broken next weekend for a week-long West Coast tour winding up the exhibition schedule. The Indians now are five over the 28-player limit they must meet April 14.

Pitchers Jack Kralick and Don McMahon are resting sore backs. Kralick, Pedro Ramos and Jim Grant all will work a full nine inning game during the next two weeks, Manager Birdie Tebbetts said, and except for Ramos, who is to go against the San Francisco Giants Saturday, will have only one more outing each.

Braves Take Off

WEST PALM BEACH, Fla. (AP)—The Milwaukee Braves who had Good Friday off, have seven candidates for the four available berths in their pitching rotation this season.

Warren Spahn, Denny Lemaster and Bob Sadowski are certain starters and the fourth spot is up for grabs among Tony Cloninger, Hank Fischer, Dan Schneider and rookie Dick Kelley.

Cloninger was Manager Bob Bragan's original choice as the fourth starter but he has been less impressive than the others in exhibition games this spring.

Colts Top A's

DAYTONA BEACH, Fla. (AP)—The Houston Colts took advantage of Bob Anderson's wildness in the first inning to score five runs and went on to defeat the Kansas City Athletics 6-4 in an exhibition baseball game called after eight innings because of darkness Friday.

Eddie Kasko opened the first inning with a home run. The Colts scored two more runs on bases-loaded walks and pitcher Hal Woodeshick drove in a pair.

The Colts had a total of 12 hits against Anderson and Tom Sturdivant.

Woodeshick held the A's hitless over the first five innings but weakened in the sixth when he gave up three runs on four hits. Nelson Mathews singled home the final Kansas City run against Claude Raymond in the seventh.

Starters Named

MESA, Ariz. (AP)—Rookie pitchers Fred Norman and Paul Jaceckel will start the next two Chicago Cubs Cactus League games, head Coach Bob Kennedy said Friday.

Norman, obtained in a trade with the Kansas City A's for outfielder Nelson Mathews, will

Solunar Tables

Yankees Angry

SARASOTA, Fla. (AP)—The New York Yankees were angry with General Manager Ed Short of the Chicago White Sox Friday, accusing him of sending them on a 100-mile wild goose chase.

The Yankees were scheduled to play the White Sox in a 3 p.m. EST exhibition which Short officially canceled because of rain at 1:25.

Bruce Henry Yankee traveling secretary, said he had spoken to Short on the phone at 1:15 and that Short then told him to bring the club here because there was a chance the game would be played.

"If he had held us up for 10 more minutes we wouldn't have had to make a fruitless 100-mile bus trip," Henry said.

Short said that, as soon as he canceled the game, he called the Florida Highway Patrol in an effort to stop the Yankee bus.

Boston Worried

SCOTTSDALE, Ariz. (AP)—Boston Manager Johnny Pesky, burdened with a sad 3-13 exhibition record, is most worried about starting right-hander Dave Morehead who he said isn't the same pitcher he was last year.

The Red Sox were idle Friday before resuming the spring schedule against the Los Angeles Angels in Palm Springs, Calif., Saturday.

Morehead was driven out by a five-run first inning barrage by the Cubs Thursday. In 10 innings he has allowed 13 runs and 17 hits.

The \$75,000 bonus boy who had a 10-13 record last year is taking ultrasonic treatments for a hitch in his right shoulder.

"I'd like to know what the matter is with Morehead," Pesky said. "He is not throwing anywhere near as hard as he did last year. And everything he throws is straight as a string."

Bucs Hitting .323

FORT MYERS, Fla. (AP)—The Pittsburgh Pirates turned in a team batting average of .323 in their first 11 exhibition games, the club said Friday.

Infielder Julio Gotay led with 10 hits in 18 trips for a .556 average. Roberto Clemente and Jerry Lynch hit .500.

Willie Stargell, who is slated for left field, led in total hits with 15 for a .455 average.

Snow Foils Howard

VERO BEACH, Fla. (AP)—A snowstorm in Chicago stalled Frank Howard's long-awaited return to the Los Angeles Dodgers Friday and Johnny Podres pitched seven powerful innings to help Spokane-Albuquerque beat the Dodgers in an intrasquad game, 2-1.

Howard left his Green Bay, Wis., home but got only as far as Chicago before his flight to Florida was canceled. He hopes to arrive here Saturday.

The 6-foot-7 outfielder announced earlier in the week that he had changed his mind about retiring from baseball and would report today.

Podres, the first Dodger pitcher to go seven innings this

spring, allowed three hits and one run. He had a no-hitter until rookie Russ Parker doubled with two out in the sixth.

Roy Gleason doubled home on run for the winners and Bill Parlier hit a homer. Both blows were at the expense of Dodger left-hander Pete Richter.

Baltimore, 7-2

MIAMI, Fla. (AP)—Baltimore scored five runs in the eighth inning Friday night and defeated the New York Mets 7-2 in an exhibition baseball game.

The Oriole rally was built on three walks, a passed ball, an error and two singles, only one of them out of the infield.

Solo home runs accounted for all the other scoring before 1,828 Miami Stadium spectators.

Veteran Duke Snider and rookie Larry Elliot touched Robin Roberts, for homers in the first and third innings for the Mets.

John Powell slugged a four-bagger in the Oriole fourth and Dick Brown accounted for another in the fifth. Both came off of them out of the infield.

Harvey Haddix, acquired conditionally from the Pittsburgh Pirates, and veteran reliever Dick Hall pitched hitless ball over the last four innings for Baltimore.

Brown, making a bid for first-string Baltimore catcher, led the Oriole attack with three hits—his homer, a double and an eight-inning single which accounted for two runs.

Houston 100 000-6 12
Kansas City 000 003 10-4 6
Eight innings, darkness.

Mantle's Knee Gets Rest Due To Heavy Rains

SARASOTA, Fla. (AP)—Mickey Mantle, the New York Yankees' \$100,000-a-year outfielder, rested his bruised left knee again Friday, but it was because of a deluge that washed out the exhibition game with the Chicago White Sox and not because of any pain.

Concern has been expressed the past few days because Mantle sat out the last two exhibitions to rest the knee. He had played in the club's first 11 games, however.

"The only thing wrong with me is that I have a bone bruise on my left knee, right near the scar from the operation last winter. I rested the leg two days and now it feels much better. I would have played against the White Sox here," he said.

He added that he suffered the bruise when a bouncing line drive off the bat of Norm Siebern of Baltimore hit him on the leg in the season's first exhibition.

"If the weather is okay, I'll definitely play against St. Louis at St. Petersburg on Saturday," Mantle continued.

Yogi Berra, the Yankee manager, said that after the club has completed the current tour of the Florida West Coast on April 4, he intends to play all his regulars nine innings in each exhibition "except Mantle, who will play as many as he wants to."

Hawks, Royals Can Wrap Up Playoff Series

By THE ASSOCIATED PRESS

The Cincinnati Royals and St. Louis Hawks can wrap up the National Basketball Association's semifinal playoffs Saturday night, but don't count on it. They're not the home teams.

In six games played so far in the semifinals, the home team has won every time. The result is that the Royals lead the Philadelphia 76ers 2-1 in the Eastern division semifinals and the Hawks lead the Los Angeles Lakers by the same margin in the Western Division. The fourth games of each best-of-five series are scheduled Saturday in Philadelphia and Los Angeles.

If those games don't get the job done, it will be Philadelphia at Cincinnati Sunday and Los Angeles at St. Louis Monday in showdown games. The series winners will qualify to meet the divisional champions, Boston and San Francisco—a prospect that might be considered unenviable except that it brings in more money.

The Royals' chances of ending it Saturday don't look too bright in spite of their lopsided 101-89 victory at Cincinnati Wednesday night. Jerry Lucas, who hurt his back Tuesday, could play only eight minutes Wednesday and scored only one field goal. Bud Olsen also went out with a badly sprained ankle. If they're not fit the burden on the other Royals will be heavy.

Philadelphia's John Kerr got a three-stitch cut over his right eye in the Tuesday game but continued to play.

St. Louis came close to ending the Western semifinal Wednesday despite a 39-point home court scoring spurge by Jerry West. The Hawks had the ball with the score tied and only 37 seconds to go. But the Lakers blocked a shot by Charlie Vaughn, took possession and set up a winning shot by Elgin Baylor in the last second.

Giants Seek Duke Snider

PHOENIX, Ariz. (AP)—The San Francisco Giants are trying to negotiate a trade for Duke Snider of the New York Mets. The Associated Press learned Friday.

It was not known what the Giants are offering for Snider, acquired by the Mets last April from the Los Angeles Dodgers for whom he played 16 years.

The Giants are in need of left-handed pinch-hitting strength to replace the bat carried by catcher Ed Bailey to Milwaukee in a recent trade.

Snider hit .243 for the Mets in 1953, far below his .298 lifetime average. The 37-year-old outfielder hit 14 homers, three triples and eight doubles in driving in 45 runs last season.

Before the end of June last year, Bailey had hit 12 homers for the Giants and had 37 runs batted-in on 36 hits.

BULLDOG SIGNEE, Tommy Gregory (left) of St. Joseph, a 6-6 basketball star at Davidson High School, inks a letter-of-intent to attend Louisiana Tech. He is shown with Scotty Robertson, new Bulldog basketball mentor. Gregory averaged 18 points per game for Davidson this past campaign.

150 M.P.H. LOOKS SLOW

Testing Crew Becomes Blur

INDIANAPOLIS (AP)—A crew of tire testing drivers made 150 miles an hour look slow Friday at the Indianapolis Motor Speedway, where the one minute lap (150 for the 2½ miles was reached only two years ago.

A. J. Foyt of Houston, who set world records at the new Phoenix track Sunday in a conventional front-engine car, toured the Speedway Friday at 154.37 in a new rear-engine Offenhauser.

Butter Marshman, another veteran driver from Pottstown, Pa., did 153.8 in the Lotus-Ford rear engine car in which Dan Gurney finished seventh last year after a qualifying speed of 149.019. The original pushrod engine has been replaced with the new Ford V-8 racing engine with overhead camshafts.

The official record, 151.487, was set by Farnelli Jones, Torrance, Calif., in trials for the '63 race. Friday's speeds were unofficial as was a 154.5 turned in by Foyt last November while testing the new tires on a conventional front-engine Offy.

"I had been thinking qualif-

ing speeds might go up to 155," Marshman said Friday. "Now I don't know where they'll go."

Part of the high speed is attributed to improved engines and chassis, part to new tires with better bite on the turns, and part to the fact that about half of the old Speedway track has a new asphalt surface.

Drivers who have been testing the tires include Jim Hurtubise, North Tonawanda, N.Y., in an ultra lightweight Offy roadster he built himself; Bobby Unser, Albuquerque, N. M., in the Novis, and Len Sutton, Seattle, in a rear-engine Offy. Unser ran several laps at 150 Friday in a front-engine Novi.

A British-built, four-wheel-drive car with Novi engine was being groomed for later runs.

HARP'S ASSISTANT

Owens Named Kansas Coach

LAWRENCE, Kan. (AP)—Ted Owens was named new basketball coach at the University of Kansas Friday.

Owens, 34, was assistant to Dick Harp, whose resignation was announced Thursday. Harp had been head coach eight seasons.

Wade Stinson, the university's athletic director, said he had recommended Owens, and the selection had been unanimously approved by the Athletic Board and the Board of Regents.

Harp, 44, who had been coach eight years, will leave the post July 1. He had a 116-82 record with the Jayhawks. "It is time to retire from coaching," he said at his resignation.

"It seems like I've always known that I wanted to be a coach," Owens said. "To find myself as coach at a school with the greatest basketball tradition in the country gives me a feeling I'm really not able to describe."

"I have no assistant in mind yet," he said. "I'll sit down with Wade later." He said there had been some inquiries already for the post.

Owens arrived at the press conference after Stinson had made the announcement.

"I would have been here earlier," he said, "but I didn't want to seem eager."

"Ted is a very fine young man," Stinson said. "I'm convinced he can lead Kansas in the basketball world to where we want to be."

"The job was not offered to anyone else."

After Harp's resignation Thursday, there were reports Ralph Miller, coach at Wichita University and a former Kansas player, might succeed him.

Owens, assistant to Harp the past four years, was graduated from the University of Oklahoma in 1951. He was one of the last of the two-hand set shot

experts in Big Eight basketball ranks. He coached four years at Cameron, Okla., A&M a junior college, where he had a 93-24 record.

Stinson told newsmen he reached his decision Thursday afternoon after talking with Owens, and following Harp's resignation.

Bengals Take Own Tourney By 9 Strokes

BATON ROUGE (AP)—Louisiana State won its own invitational golf tournament Friday with a four-man team score of 584 over the 36-hole route.

John Lamey of Alabama was tops in individual play with par 142 over the par-71 LSU campus golf course. Mississippi State's Jim Folks had 143.

The No. 2 team was defending champion Memphis State, which logged 593. Mississippi State was third at 602.

Other team scores:

Murray (Ky.) State and Alabama, 604; Mississippi 609, Tulane and Southern Mississippi 612, Notre Dame and Northeast Louisiana 613, Southwestern Louisiana 618, McNeese State 688.

LSU also won the freshman two-man team event with 298.

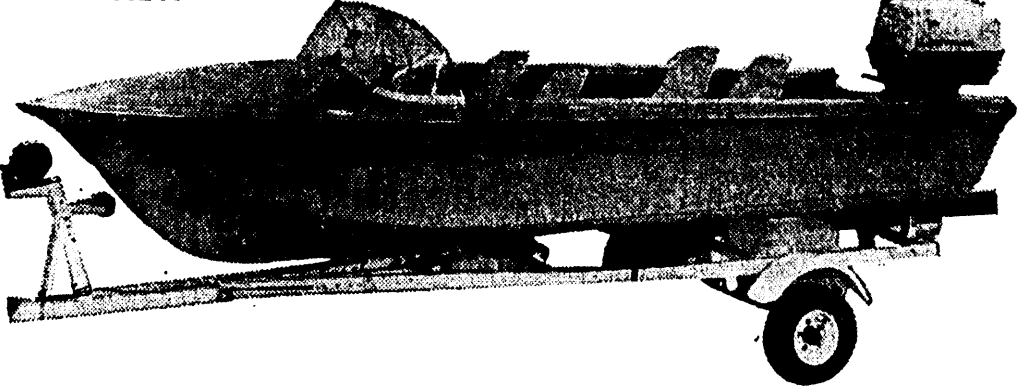

B. R. McLendon Jr., LSU freshman, had the tournament's best

Freshman standings were (1) LSU, 289; (2) Alabama, 300; (3) Memphis State, 302; (4) USL, 314; (5) Louisiana Tech, Murray State and University of Southern Mississippi, 316; (8) Ole Miss, 336, and (9) Tulane, 353.

SHOOTS A FIVE-UNDER 67

67 Strokes, Six Cigars Get Campbell Azalea Golf Lead

WILMINGTON, N. C. (AP)—Chunky Joe Campbell, using 67 strokes and six cigars, shot a five-under-par 67 Friday to take a one-stroke lead in the first round of the \$20,000 Azalea Open Golf Tournament.

Resplendent in bright red shirt and socks and shoes with the black and gold of Purdue University, his alma mater, the 27-year-old Campbell shot the 6,744-yard Cape Fear Country Club course in 33-34 to wrest the lead from veteran Bob Gajda of Bloomfield Hills, Mich., part-time tourney pro, who fashioned his 68 on a pair of 34s.

With the temperature in the 60s and a bright sunshine bathing the course, conditions were perfect for scoring following Thursday's rain that delayed the start of the tournament. As a result, 34 men in the field of 150 broke par and 23 matched regulation figures.

Campbell's round was his best in competition since last July. The Hoosier, who sat out three tournaments during the winter tour to rest an injured left hand, had five birdies and 13 pars. His longest putt was a 12-footer on the fifth hole. He missed only one green, the 16th, but chipped three inches from the hole for his par three.

The round won Campbell \$600 in bonus money that goes to the daily low score.

He counted 31 putts and called it one of his top greens performances of the year.

The lanky Gajda, balding, bespectacled and 47 years old, had 10 one-putt greens and rolled in

five putts of 15 to 30 feet in taking a lead that held up for about three hours.

He is best remembered perhaps as the first round leader

with 69 in last year's U. S. Open. After that start, he failed to break 80 in the next three rounds.

Five men shared third place

at 69. Among them were two surprises, 24-year-old Rocky Mount, N. C., amateur Ed Justa, and Dutch Harrison, who will be 54 years old Sunday. He won here in 1950.

Tommy Jacobs, Jack McGowan and Don Fairfield were others in the group. Thirteen men shot 70, among them Bruce Devlin, Gene Littler, Tony Lama, George Bayer and Lionel Hebert.

Billy Casper, winner at Miami, Fla., earlier this week, could do no better than par 72 and Jerry Barber, three-time winner and defending champion took 74.

After Saturday's second round the field will be cut to the low 60 and ties and 10 amateurs for the final rounds Sunday and Monday.

JIMMY CLARK of Corona, Calif., looks like he's performing a magic act with his club during the opening round of the Azalea Open. Actually, Clark had just hit a none too magical shot and tossed his club to the ground. (AP Wirephoto)

Exhibition Baseball

Indians Busy

TUCSON, Ariz. (AP) — The Cleveland Indians got a half day Good Friday but for the remainder of their exhibition season they have just one open date left.

Word was out that no more roster cuts are expectable until camp is broken next weekend for a week-long West Coast tour winding up the exhibition schedule. The Indians now are five over the 28-player limit they must meet April 14.

Pitchers Jack Kralick and Don McMahon are resting sore backs. Kralick, Pedro Ramos and Jim Grant all will work a full nine inning game during the next two weeks, Manager Birdie Tebbetts said, and except for Ramos, who is to go against the San Francisco Giants Saturday, will have only one more outing each.

Braves Take Off

WEST PALM BEACH, Fla. (AP)—The Milwaukee Braves who had Good Friday off, have seven candidates for the four available berths in their pitching rotation this season.

Warren Spahn, Denny Lemaster and Bob Sadowski are certain starters and the fourth spot is up for grabs among Tony Cloninger, Hank Fischer, Dan Schneider and rookie Dick Kelly.

Cloninger was Manager Bob Bragan's original choice as the fourth starter but he has been less impressive than the others in exhibition games this spring.

Colts Top A's

DAYTONA BEACH, Fla. (AP) — The Houston Colts took advantage of Bob Anderson's wildness in the first inning to score five runs and went on to defeat the Kansas City Athletics 6-4 in an exhibition baseball game called after eight innings because of darkness Friday.

Eddie Kasko opened the first inning with a home run. The Colts scored two more runs on bases-loaded walks and pitcher Hal Woodeshick drove in a pair.

The Colts had a total of 12 hits against Anderson and Tom Sturdivant.

Woodeshick held the A's hitless over the first five innings but weakened in the sixth when he gave up three runs on four hits. Nelson Mathews singled home the final Kansas City run against Claude Raymond in the seventh.

Starters Named

MESA, Ariz. (AP) — Rookie pitchers Fred Norman and Paul Jaeckel will start the next two Chicago Cub Cactus League games, Head Coach Bob Kennedy said Friday.

Norman, obtained in a trade with the Kansas City A's for outfielder Nelson Mathews, will

oppose the Los Angeles Angels here Saturday.

Jaeckel, 21 next Wednesday, is Kennedy's choice to face the San Francisco Giants in Phoenix Sunday.

The Cubs, with a 12-5 spring record, played an intrasquad game Friday. This provided action for six pitchers with veteran Larry Jackson setting the pace by working six innings.

Yankees Angry

SARASOTA, Fla. (AP) — The New York Yankees were angry with General Manager Ed Short of the Chicago White Sox Friday, accusing him of sending them on a 100-mile wild goose chase.

The Yankees were scheduled to play the White Sox in a 3 p.m. EST exhibition which Short officially canceled because of rain at 1:25.

Bruce Henry Yankee traveling secretary, said he had spoken to Short on the phone at 1:15 and that Short then told him to bring the club here because there was a chance the game would be played.

"If he had held us up for 10 more minutes we wouldn't have had to make a fruitless 100-mile bus trip," Henry said.

Short said that, as soon as he canceled the game, he called the Florida Highway Patrol in an effort to stop the Yankee bus.

Boston Worried

SCOTTSDALE, Ariz. (AP) — Boston Manager Johnny Pesky, burdened with a sad 3-13 exhibition record, is most worried about starting right-hander Dave Morehead who he said isn't the same pitcher he was last year.

The Red Sox were idle Friday before resuming the spring schedule against the Los Angeles Angels in Palm Springs, Calif., Saturday.

Morehead was driven out by a five-run first inning barrage by the Cubs Thursday. In 10 innings he has allowed 13 runs and 17 hits.

The \$75,000 bonus boy who had a 10-13 record last year is taking ultrasonic treatments for a hitch in his right shoulder.

"I'd like to know what the matter is with Morehead," Pesky said. "He is not throwing anywhere near as hard as he did last year. And everything he throws is straight as a string."

Bucs Hitting .323

FORT MYERS, Fla. (AP)—The Pittsburgh Pirates turned in a team batting average of .323 in their first 11 exhibition games, the club said Friday.

Infielder Julio Gotay led with 10 hits in 18 trips for a .556 average. Roberto Clemente and Jerry Lynch hit .500.

Willie Stargell, who is slated for left field, led in total hits with 15 for a .455 average.

Snow Foils Howard

VERO BEACH, Fla. (AP) — A snowstorm in Chicago stalled Frank Howard's long-awaited return to the Los Angeles Dodgers Friday and Johnny Podres pitched seven powerful innings to help Spokane-Albuquerque beat the Dodgers in an intrasquad game, 2-1.

Howard left his Green Bay, Wis., home but got only as far as Chicago before his flight to Florida was canceled. He hopes to arrive here Saturday.

The 6-foot-7 outfielder announced earlier in the week that he had changed his mind about retiring from baseball and would report today.

Podres, the first Dodger pitcher to go seven innings this

spring, allowed three hits and one run. He had a no-hitter until rookie Russ Parker doubled with two out in the sixth.

Roy Gleason doubled home on run for the winners and Bill Parlier hit a homer. Both blows were at the expense of Dodger left-hander Pete Richert.

Baltimore, 7-2

MIAMI, Fla. (AP)—Baltimore scored five runs in the eighth inning Friday night and defeated the New York Mets 7-2 in an exhibition baseball game.

The Oriole rally was built on three walks, a passed ball, an error and two singles, only one of them out of the infield.

Solo home runs accounted for all the other scoring before 1,828 Miami Stadium spectators.

Veteran Duke Snider and rookie Larry Elliot touched Robin Roberts, for homers in the first and third innings for the Mets.

John Powell slugged a four-bagger in the Oriole fourth and Dick Brown accounted for another in the fifth. Both came off Tracy Stallard.

Harvey Haddix, acquired conditionally from the Pittsburgh Pirates, and veteran reliever Dick Hall pitched hitless ball over the last four innings for Baltimore.

Brown, making a bid for first-string Baltimore catcher, led the Oriole attack with three hits —his homer, a double and an eight-inning single which accounted for two runs.

Houston .500 100 00-6 12 1
Kansas City .000 003 10-4 6 0
Eight innings, darkness (7), and Baltimore; Anderson, Sturdivant (6) and Edwards, Bryan (7). W—Woodeshick, L—Anderson.

Home run—Houston, Kasko.
New York (N) .101 000 000-2 4 1
Baltimore 110 05X-2 7 1
Stallard, Clisco (7) and Gonder, Roberts, Haddix (6), Hall (8) and Brown, W. Hall, L—Clisco.

Home runs — New York, Snider, Elliot. Baltimore, Powell, Brown.

Mantle's Knee Gets Rest Due To Heavy Rains

SARASOTA, Fla. (AP) — Mickey Mantle, the New York Yankees' \$100,000-a-year outfielder, rested his bruised left knee again Friday, but it was because of a deluge that washed out the exhibition game with the Chicago White Sox and not because of any pain.

Concern has been expressed the past few days because Mantle sat out the last two exhibitions to rest the knee. He had played in the club's first 11 games, however.

"The only thing wrong with me is that I have a bone bruise on my left knee, right near the scar from the operation last winter. I rested the leg two days and now it feels much better. I would have played against the White Sox here," he said.

He added that he suffered the bruise when a bouncing line drive off the bat of Norm Siebern of Baltimore hit him on the leg in the season's first exhibition.

"If the weather is okay, I'll definitely play against St. Louis at St. Petersburg on Saturday," Mantle continued.

Yogi Berra, the Yankee manager, said that after the club has completed the current tour of the Florida West Coast on April 4, he intends to play all his regulars nine innings in each exhibition "except Mantle, who will play as many as he wants to."

spring, allowed three hits and one run. He had a no-hitter until rookie Russ Parker doubled with two out in the sixth.

Roy Gleason doubled home on run for the winners and Bill Parlier hit a homer. Both blows were at the expense of Dodger left-hander Pete Richert.

Hawks, Royals Can Wrap Up Playoff Series

By THE ASSOCIATED PRESS

The Cincinnati Royals and St. Louis Hawks can wrap up the National Basketball Association's semifinal playoffs Saturday night, but don't count on it. They're not the home teams.

In six games played so far in the semifinals, the home team has won every time. The result is that the Royals lead the Philadelphia 76ers 2-1 in the Eastern division semifinals and the Hawks lead the Los Angeles Lakers by the same margin in the Western Division. The fourth games of each best-of-five series are scheduled Saturday in Philadelphia and Los Angeles.

If those games don't get the job done, it will be Philadelphia at Cincinnati Sunday and Los Angeles at St. Louis Monday in showdown games. The series winners will qualify to meet the divisional champions, Boston and San Francisco—a prospect that might be considered unenviable except that it brings in more money.

The Royals' chances of ending it Saturday don't look too bright in spite of their lopsided 101-89 victory at Cincinnati Wednesday night. Jerry Lucas, who hurt his back Tuesday, could play only eight minutes Wednesday and scored only one field goal. Bud Olsen also went out with a badly sprained ankle. If they're not fit the burden on the other Royals will be heavy.

Philadelphia's John Kerr got a three-stitch cut over his right eye in the Tuesday game but continued to play.

St. Louis came close to ending the Western semifinal Wednesday despite a 39-point home court scoring spurge by Jerry West. The Hawks had the ball with the score tied and only 37 seconds to go. But the Lakers blocked a shot by Charlie Vaughn, took possession and set up a winning shot by Elgin Baylor in the last second.

Giants Seek Duke Snider

PHOENIX, Ariz. (AP)—The San Francisco Giants are trying to negotiate a trade for Duke Snider of the New York Mets. The Associated Press learned Friday.

It was not known what the Giants are offering for Snider, acquired by the Mets last April from the Los Angeles Dodgers for whom he played 16 years.

The Giants are in need of left-handed pinch-hitting strength to replace the bat carried by catcher Ed Bailey to Milwaukee in a recent trade.

Snider hit .243 for the Mets in 1953, far below his .298 lifetime average. The 37-year-old outfielder hit 14 homers, three triples and eight doubles in driving in 45 runs last season.

Before the end of June last year, Bailey had hit 12 homers for the Giants and had 37 homers batted in on 36 hits.

BULLDOG SIGNEE. Tommy Gregory (left) of St. Joseph, a 6-6 basketball star at Davidson High School, inks a letter-of-intent to attend Louisiana Tech. He is shown with Scotty Robertson, new Bulldog basketball mentor. Gregory averaged 18 points per game for Davidson this past campaign.

150 M.P.H. LOOKS SLOW

Testing Crew Becomes Blur

INDIANAPOLIS (AP) — A crew of tire testing drivers made 150 miles an hour look slow Friday at the Indianapolis Motor Speedway, where the one minute lap (150 for the 2 1/2 miles) was reached only two years ago.

A. J. Foyt of Houston, who set world records at the new Phoenix track Sunday in a conventional front-engine car, toured the Speedway Friday at 154.37 in a new rear-engine Offenhauser.

Bobby Marshman, another veteran driver from Pottstown, Pa., did 153.8 in the Lotus-Ford rear engine car in which Dan Gurney finished seventh last year after a qualifying speed of 149.019. The original pushrod engine has been replaced with the new Ford V-8 racing engine with overhead camshafts.

The official record, 151.487, was set by Parnelli Jones, Torrance, Calif., in trials for the '63 race. Friday's speeds were unofficial as was a 154.5 turned in by Foyt last November while testing the new tires on a conventional front-engine Offy.

"I had been thinking quality-

ing speeds might go up to 155," Marshman said Friday. "Now I don't know where they'll go."

Part of the high speed is attributed to improved engines and chassis, part to new tires with better bite on the turns, and part to the fact that about half of the old Speedway track has a new asphalt surface.

Drivers who have been testing the tires include Jim Hurtubise, North Tonawanda, N.Y., in an ultra lightweight Offy roadster he built himself; Bobby Unser, Albuquerque, N. M., in the Novis, and Len Sutton, Seattle, in a rear-engine Offy.

Unser ran several laps at 150 Friday in a front-engine Novi. A British-built, four-wheel-drive car with Novi engine was being groomed for later runs.

HARP'S ASSISTANT

Owens Named Kansas Coach

LAWRENCE, Kan. (AP) — Ted Owens was named new basketball coach at the University of Kansas Friday.

Owens, 34, was assistant to Dick Harp, whose resignation was announced Thursday. Harp had been head coach eight seasons.

Wade Stinson, the university's athletic director, said he had recommended Owens, and the selection had been unanimously approved by the Athletic Board and the Board of Regents.

Harp, 44, who had been coach eight years, will leave the post July 1. He had a 116-82 record with the Jayhawks. "It is time to retire from coaching," he said at his resignation.

"It seems like I've always known that I wanted to be a coach," Owens said. "To find myself as coach at a school with the greatest basketball tradition in the country gives me a feeling I'm really not able to describe."

"I have no assistant in mind yet," he said. "I'll sit down with Wade later." He said there had been some inquiries already for the post.

Owens arrived at the press conference after Stinson had made the announcement.

"I would have been here earlier," he said, "but I didn't want to seem eager."

"Ted is a very fine young man," Stinson said. "I'm convinced he can lead Kansas in the basketball world to where we want to be."

"The job was not offered to anyone else."

After Harp's resignation Thursday, there were reports Ralph Miller, coach at Wichita University and a former Kansas player, might succeed him.

Owens, assistant to Harp the past four years, was graduated from the University of Oklahoma in 1951. He was one of the last of the two-hand set shot

experts in Big Eight basketball ranks. He coached four years at Cameron, Okla., A&M a junior college, where he had a 93-24 record.

Stinson told newsmen he reached his decision Thursday afternoon after talking with Owens, and following Harp's resignation.

Bengals Take Own Tourney By 9 Strokes

BATON ROUGE (AP)—Louisiana State won its own invitational golf tournament Friday with a four-man team score of 584 over the 36-hole route.

John Lamey of Alabama was tops in individual play with par 142 over the par-71 LSU campus golf course. Mississippi State was third at 602.

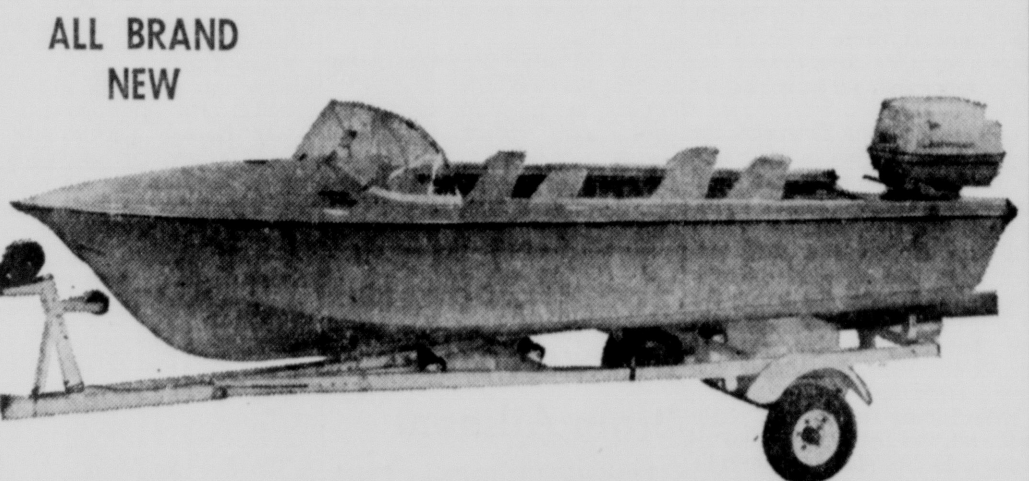

Other team scores: Murray (Ky.) State and Alabama, 604; Mississippi 609; Tulane and Southern Mississippi 612; Notre Dame and Northeast Louisiana 613; Southwestern Louisiana 618; McNeese State 688.

LSU also won the freshman two-man team event with 298. Alabama was second with 300. B. R. McLendon Jr., LSU freshman, had the tournament's best

Freshman standings were (1) LSU, 289; (2) Alabama, 300; (3) Memphis State, 302; (4) USL, 314; (5) Louisiana Tech, Murray State and University of Southern Mississippi, 316; (8) Ole Miss, 336, and (9) Tulane, 353.

Twin City - Area Deaths

Miss Clara Sells

Funeral services for Miss Clara Mae Sells, 70, of Gulfport, Miss., will be today at 10 a.m. in Trinity Methodist Church there.

She was the sister of Mrs. Earl B. Emmerich of West Monroe.

Burial will be in a Gulfport cemetery under direction of Riemann Funeral Home.

Miss Sells was killed late Thursday in an automobile accident near Gulfport.

Other survivors include three brothers, Dr. James W. Sells, Atlanta, Ga.; George B. Sells, Gulfport, Miss.; and Irl H. Sells, Nashville, Tenn.; four sisters, Mrs. W. D. Poole, Sulphur, Miss.; Minnie Rhae Sells, Chicago, Miss.; Juanita Sells, Gulfport, and Mrs. W. T. McVay, Hattiesburg, Miss.

Jesse Dampier

VIDALIA (Special) — Jesse F. Dampier, 53, died Friday morning in an Pineville hospital after a short illness.

Funeral services will be today at 3 p.m. in Pinehill Baptist

Church, in Sicily Island, with the Rev. Eugene Austin officiating.

Burial will be in the church cemetery under direction of Laird Funeral Home of Natchez.

Survivors include two sons, Albert Dampier, Baton Rouge and David E. Dampier, Clayton; four daughters, Mrs. Jesse Mae LaDart, Monroe, Mrs. Irma Lee Grayson, Plaquemine, Miss. Mary Ann Dampier and Mrs. Catherine Walsworth, both of Ferriday, three brothers, Dallas, Vidalia, Earl Dampier Jr., Waterproof, and Marvin Dampier, Vicksburg, Miss.; a sister, Mrs. Lucille Campbell, Wisner; 12 grandchildren.

Pallbearers will be J. M. Herring, L. W. Massey, Ernest Roberts, A. J. Gardner, Bill Calvert and Ike Milligan Sr.

Mrs. Daniels

Mrs. Cora Daniels of 506 N. 6th St., West Monroe, died late Friday at her home after a short illness.

Funeral services are incomplete but will be under direction of Kilpatrick's Funeral Home of West Monroe.

W. H. Gillingham

Funeral services are incomplete for W. H. (Bill) Gillingham, West Monroe Airman, who died early Friday in Little Rock, Ark., following a heart attack.

Survivors include his widow, the former Mattie Wall of West Monroe; five children; a brother, Dale Gillingham, Pennsylvania.

C. L. Givens

BASTROP (Special) — Funeral services are incomplete for C. L. Givens, 62-year-old lumberman who died of an apparent heart attack Thursday in woods near the beagle grounds here.

Arrangements will be under direction of Blackwell-Golden Funeral Home.

Survivors include his widow, Mrs. Peggy Givens, Bastrop; a son, C. L. Givens Jr., Bastrop; two daughters, Mrs. Gerald Summerville and Mrs. Don Evans, both of Bastrop; three brothers, Doll Givens, Long Beach, Calif.; W. Mac Givens, Bogalusa and Bill Givens of Bastrop; four sisters, Mrs. Aron Meredith, Mrs. Sammy Waltrip, Mrs. Mary Hammond and Mrs. Don Burlew, all of Bastrop; and seven grandchildren.

Russian Jews

Note Passover, Receive Gifts

MOSCOW (UPI)—Thousands of Russian Jews began celebrating the Passover Friday night amid a stepped-up press campaign to discourage foreign gift parcels of matzoh.

Moscow's Central Synagogue and two smaller ones in the capital were filled to overflowing. In other cities throughout the nation where there are synagogues, including Leningrad, Kiev, Odessa, Kishinev and Minsk, Jews marked the safe passage of Moses across the Red Sea.

Because Matzoh—the traditional unleavened bread eaten by Jews at Passover time—is scarce, persons in the West have been sending small quantities to Russian Jews.

But the newspaper Soviet-skaya Moldavia Friday quoted two Jews as saying such gifts were unwanted; that they constituted "ideological subversion," and "revived the fairy tale of anti-Semitism" in this country.

Similar criticism was leveled by the government newspaper Izvestia last week. Soviet authorities apparently were reacting to charges in the West that anti-Semitism is practiced in this country.

Wintry Weather

Hits Israel For Spring Festival

TEL AVIV, Israel (UPI) — Wintry weather broke Friday as Israelis prepared Seder tables to usher in the ancient Hebrew spring festival commemorating the Jewish redemption from bondage 33 centuries ago.

As a reminder of several million Jews in the Soviet Union cut off from their brethren, special matzohs were set aside and left uneaten.

A place at each table was left unoccupied and a cup of wine was poured but left untouched in memory of those who perished in World War II.

The holiday bustle mounted as housewives readied their homes for the festive Seder.

Hotels throughout Israel were booked full and there were more than 24,000 visitors from abroad. Thirty planes landed at Lydda Airport Thursday and the same number Friday.

Four ships brought 2,500 pilgrims, including 1,100 immigrants.

sage through Tommy Culp, who works on a doctorate in nutrition from Texas A&M when he isn't talking to rabbits.

While older rabbits can also get by on bread and milk, Culp suggested the traditional carrots and lettuce as supplements to the complete rabbit ration.

MARKING THE CHANGE OVER in religious dress for the Franciscan Sisters of Calais are three members of the St. Francis Hospital staff. On the left is Sister Mary Dymna, wearing the old habit, while Mother M. Finbarr, hospital administrator, center, and Sister Mary Ita, right, wear the new habit. This is the first change in the religious habit in 110 years.

NEW FRANCISCAN DRESS

Garb Of Hospital Sisters Modified

The first change in 110 years in the religious dress of the Franciscan Sisters of Calais, the order which operates the St. Francis Hospital in Monroe, is being put into effect.

The headpiece of the dress is being modified to bring it off the face for ease of vision. This change follows the request of the late Pope John and the present Pope Paul that religious congregations modernize their dress.

Stipulations of the change, however, specify that sisters who have been in the order over 50 years have the choice of wearing the old or new habit. Locally, Sister St. Patrick, who has been at St. Francis Hospital since 1921, is a Golden Jubilarian and has this choice.

The congregation of the Franciscan Sisters of Calais began in 1854 with the union in the north of France of seven autonomous communities, all of the Third Order Regular of St. Francis. During World War II, the Monastery of Calais was destroyed and on Sept. 15, 1945, the Mother House was moved to Desvres, France, where it is located today.

The first congregation founded in the United States was in Monroe, when St. Francis Hospital was built on land donated by Rev. Ludovic Enaut and opened in 1913.

The second foundation of the congregation was made in Baton Rouge in 1921 and operates Our Lady of the Lake Hospital. In 1949 Our Lady of Lourdes Hospital was opened in Lafayette as the third congregation.

The principal American foundation is at Baton Rouge, where the novitiate for the United States is located. The sisters require a postulancy of six months, during which time the candidate prepares for admission to the novitiate. In the two years of novitiate, they receive training for their profession.

From the Monroe area, three persons have entered the Order

of the Franciscan Sisters of Calais. They are: Sister Margaret Ann, the former Lorona Ann Miller of Monroe, now stationed at Our Lady of the Lake Hospital, Baton Rouge; Sister Camilla, formerly Louise Johnson, West Monroe, now at St. Francis Hospital; and Sister Mary Bridgid, formerly Penny Proffit, Monroe, now studying nursing at Marrillac College, St. Louis, Mo.

Police To Guard Billy Graham In Birmingham Talk

BIRMINGHAM, Ala. (AP)—All city policemen will be on duty when evangelist Billy Graham speaks to an integrated group Sunday on the topic, "The Easter Reconciliation."

Police Chief Jamie Moore said Friday the extensive preparations have been made to handle what "may be the largest crowd we've ever seen."

Graham is expected to speak to 50,000 or more at the outdoor service in Legion Field, an athletic stadium here.

A 3,000-voice choir and the 1,000-member ushering staff will be segregated, as well as the audience.

Church delegations from all over the state have given notice they will attend.

Jordan, Israelis Exchange Bullets

AMMAN, Jordan (UPI)—Israeli and Jordanian patrols exchanged fire for an hour Thursday night at the border village of Rummanah, near Jenin, it was reported Friday.

A spokesman said there were no casualties in the clash.

"CONVENIENT PARKING"

Mississippi To Enlarge State Police

JACKSON, Miss. (AP)—Gov. Paul Johnson predicted Friday Mississippi could preserve law and order with its own augmented forces even if threatened massive civil rights demonstrations materialize this summer.

The governor made his prediction at his weekly news conference as he praised a bill to enlarge the State Highway Patrol and give it police powers to use in racial or other emergencies.

The measure, which faces action in both houses of the legislature, authorizes increasing patrol strength from 275 to 475 men. Johnson estimated it would cost about \$4 million for salaries and equipment in the next biennium.

Johnson was reminded of reports from civil rights groups that they would stage mass demonstrations and voter drives this summer, then asked if he felt Mississippi could handle any trouble with the larger patrol.

"I sure do," he replied. He also said he felt giving him a law arm which could not be removed by the president would reduce chances of federalizing the National Guard.

"But I would rather use our own forces than let the military do it," he said. "I don't anticipate any interference and I expect to see that law and order prevails."

Under terms of the bill, the governor would issue a proclamation authorizing the Guard to

act in emergencies.

"The bill introduced is sufficient to meet the challenge that may come," Johnson said. "It's a good bill. I certainly know it's needed."

He had asked the legislature for broadened patrol powers and said if the state did or could not keep violence down, the federal government could.

"I've always been opposed to a state police," Johnson said. "I'm glad Speaker Walter Sillers introduced it. He has been opposed to a police, too."

He said some lawmakers wanted to give him full authority to use the patrol and have the authority expire with his term.

"I object to this kind of legislation," Johnson said.

Johnson said regardless of what organized demonstrations occur this summer, the state would "put it down if we can and I think we can."

"If the people use their intelligence and let the law handle it, we'd be a lot better off."

Commenting on reports vigilante groups had organized, Johnson said:

"Regardless of what they organize, if they get in and interfere they'll be handled just like anybody else will be handled. If my own brother tries to take the law into his own hands or interfere with authorized peace officers, he'll be sent to jail just as quickly as a man who were my mortal enemy."

Johnson also praised election revision bills passed by the Senate and awaiting action by the House.

He said the state "for 100 years has been voting for the man and not the party. The only group screaming are the Republicans and they vote for the party and not the man."

Referring to arguments they might have time meeting the requirements the bills set up for organizing a party Johnson said, "They did an excellent job of organizing against me."

He said that the bills possibly could have the effect of solidifying Republican strength and helping the party.

Asked why he felt that Republicans candidates did not use the GOP label in some advertising last year, Johnson said that they did as he probably would have done and tried to appeal

Twin City - Area Deaths

Miss Clara Sells

Funeral services for Miss Clara Mae Sells, 70, of Gulfport, Miss., will be today at 10 a.m. in Trinity Methodist Church there.

She was the sister of Mrs. Earl B. Emmerich of West Monroe.

Burial will be in a Gulfport cemetery under direction of Riegan Funeral Home.

Miss Sells was killed late Thursday in an automobile accident near Gulfport.

Other survivors include three brothers, Dr. James W. Sells, Atlanta, Ga., George B. Sells, Gulfport, Miss., and Irl H. Sells, Nashville, Tenn.; four sisters, Mrs. W. D. Poole, Sulphur, Miss. Minnie Rhae Sells, Chicago, Miss. Juanita Sells, Gulfport, and Mrs. W. T. McVay, Hattiesburg, Miss.

Jesse Dampier

VIDALIA (Special) — Jesse E. Dampier, 53, died Friday morning in a Pineville hospital after a short illness.

Funeral services will be today at 3 p.m. in Pinehill Baptist

Church, in Sicily Island, with the Rev. Eugene Austin officiating.

Burial will be in the church cemetery under direction of Laird Funeral Home of Natchez.

Survivors include two sons, Albert Dampier, Baton Rouge and David E. Dampier, Clayton; four daughters, Mrs. Jesse Mae LaDart, Monroe, Mrs. Irma Lee Grayson, Plaquemine, Miss. Mary Ann Dampier and Mrs. Catherine Walsworth, both of Ferriday; three brothers, Dallas, Vidalia, Earl Dampier Jr., Waterproof, and Marvin Dampier, Vicksburg, Miss.; a sister, Mrs. Lucille Campbell, Wisner; 12 grandchildren.

Pallbearers will be J. M. Her-ring, L. W. Massey, Ernest Roberts, A. J. Gardner, Bill Calvert and Ike Milligan Sr.

Mrs. Daniels

Mrs. Cora Daniels of 506 N. 6th St., West Monroe, died late Friday at her home after a short illness.

Funeral services are incomplete but will be under direction of Kilpatrick's Funeral Home of West Monroe.

W. H. Gillingham

Funeral services are incomplete for W. H. (Bill) Gillingham, West Monroe Airman, who died early Friday in Little Rock, Ark., following a heart attack. Survivors include his widow, the former Mattie Wall of West Monroe; five children; a brother, Dale Gillingham, Pennsylvania.

C. L. Givens

BASTROP (Special) — Funeral services are incomplete for C. L. Givens, 62-year-old lumberman who died of an apparent heart attack Thursday in woods near the beagle grounds here.

Arrangements will be under direction of Blackwell-Golden Funeral Home.

Survivors include his widow, Mrs. Peggy Givens, Bastrop; a son, C. L. Givens Jr., Bastrop; two daughters, Mrs. Gerald Summerville and Mrs. Don Evans, both of Bastrop; three brothers, Doll Givens, Long Beach, Calif., W. Mac Givens, Bogalusa and Bill Givens of Bastrop; four sisters, Mrs. Aron Meredith, Mrs. Sammy Waldrup, Mrs. Mary Hammond and Mrs. Don Burlew, all of Bastrop; and seven grandchildren.

Russian Jews Note Passover, Receive Gifts

MOSCOW (UPI)—Thousands of Russian Jews began celebrating the Passover Friday night amid a stepped-up press campaign to discourage foreign gift parcels of matzoh.

Moscow's Central Synagogue and two smaller ones in the capital were filled to overflowing. In other cities throughout the nation where there are synagogues, including Leningrad, Kiev, Odessa, Kishinev and Minsk, Jews marked the safe passage of Moses across the Red Sea.

Because Matzoh—the traditional unleavened bread eaten by Jews at Passover time—is scarce, persons in the West have been sending small quantities to Russian Jews.

But the newspaper Soviet-skaya Moldavia Friday quoted two Jews as saying such gifts were unwanted; that they constituted "ideological subversion," and "revived the fairy tale of anti-Semitism" in this country.

Similar criticism was leveled by the government newspaper Izvestia last week. Soviet authorities apparently were reacting to charges in the West that anti-Semitism is practiced in this country.

"CONVENIENT PARKING"

Mississippi To Enlarge State Police

JACKSON, Miss. (AP)—Gov. Paul Johnson predicted Friday Mississippi could preserve law and order with its own augmented forces even if threatened massive civil rights demonstrations materialize this summer.

The governor made his prediction at his weekly news conference as he praised a bill to enlarge the State Highway Patrol and give it police powers to use in racial or other emergencies.

The measure, which faces action in both houses of the legislature, authorizes increasing patrol strength from 275 to 475 men. Johnson estimated it would cost about \$4 million for salaries and equipment in the next biennium.

Johnson was reminded of reports from civil rights groups that they would stage mass demonstrations and voter drives this summer, then asked if he felt Mississippi could handle any trouble with the larger patrol.

"I sure do," he replied. He also said he felt giving him a law arm which could not be removed by the president would reduce chances of federalizing the National Guard.

"But I would rather use our own forces than let the military do it," he said. "I don't anticipate any interference and I expect to see that law and order prevails."

Under terms of the bill, the governor would issue a proclamation authorizing the Guard to

act in emergencies.

"The bill introduced is sufficient to meet the challenge that may come," Johnson said. "It's a good bill. I certainly know it's needed."

He had asked the legislature for broadened patrol powers and said if the state did or could not keep violence down, the federal government could.

"I've always been opposed to a state police," Johnson said. "I'm glad Speaker Walter Sillers introduced it. He has been opposed to a police, too."

He said some lawmakers wanted to give him full authority to use the patrol and have the authority expire with his term.

"I object to this kind of legislation," Johnson said.

Johnson said regardless of what organized demonstrations occur this summer, the state would "put it down if we can and I think we can."

"If the people use their intelligence and let the law handle it we'd be a lot better off."

Commenting on reports vigilante groups had organized, Johnson said:

"Regardless of what they organize, if they get in and interfere they'll be handled just like anybody else will be handled. If my own brother tries to take the law into his own hands or interfere with authorized peace officers, he'll be sent to jail just as quickly as a man who were my mortal enemy."

Johnson also praised election revision bills passed by the Senate and awaiting action by the House.

He said the state "for 100 years has been voting for the man and not the party. The only group screaming are the Republicans and they vote for the party and not the man."

Referring to arguments they might have time meeting the requirements the bills set up for organizing a party Johnson said, "They did an excellent job of organizing against me."

He said that the bills possibly could have the effect of solidifying Republican strength and helping the party.

Asked why he felt that Republicans candidates did not use the GOP label in some advertising last year, Johnson said that they did as he probably would have done and tried to appeal

to as many people as possible.

He said that some disappointed of losing Democratic candidates "did the same things perhaps mine would have done" and supported the GOP.

He said his personal reference for election law revisions was for each party to hold one primary and the high man without a runoff from each primary would go into a general election.

"When a fellow gets to a second primary," he said, "they gang up, trade and swap. When he gets into office his life is not his own."

Tallahassee Negroes Hold Rights Walk

TALLAHASSEE, Fla. (AP)—About 1,500 persons, most of them Negroes, paraded through Florida capital Friday in a civil rights demonstration shrunk by last-minute dissension between Negro factions.

The Congress of Racial Equality pulled out 1,500 marchers when the National Association for the Advancement of Colored People refused to go along with local CORE leaders' demands that the procession march on the statehouse.

The parade permit excluded the statehouse from the route of march, which skirted the southern edge of the capital center and led to a baseball field where a rally was held.

The marchers, including a few white persons, were mostly young men and women who chanted, "Freedom now" and carried placards lettered with integration slogans.

Their numbers were estimated by police. Negro leaders had predicted up to 10,000 persons would march in the demonstration against the U.S. Senate filibuster on the civil rights bill.

No disorders were reported among the marchers, most of whom appeared to be in high spirits. Lines of police and state highway patrolmen stood by to preserve the peace if need be along the six-block route.

A momentary threat of fire-works occurred in arrival of a telegram from George Lincoln Rockwell, commander of the American Nazi party, promising to appear and put on a counter demonstration "on behalf of Florida's white Christian majority."

Rockwell failed to show up. In race relations developments in other Florida communities:

A biracial committee, appointed by Jacksonville Mayor Haydon Burns, sought to work out a program that would prevent a repetition of three days' savage race conflict that produced a shooting death, fire, bombings, beatings and hundreds of arrests in Jacksonville earlier this week.

At Ocala, another focal point of race tensions, the mayor told the NAACP that a biracial committee was trying to persuade merchants to hire Negro help in sales and clerical jobs.

Authorities at St. Augustine largely ignored efforts of a New England group of integrationists to put on a civil rights demonstration.

Sheriff L. O. Davis said two white Bostonians were questioned about reports they were making inflammatory statements near a Negro school, but no reason was found to arrest them. The sheriff said he did not know their names.

About 150 students from Florida State University at Tallahassee and the University of Florida at Gainesville refused to march at Tallahassee because of the dispute.

Art Instructor Reappointed As Danford Teacher

Mrs. Gregor T. Goethals, assistant professor of art at Northeast Louisiana State College here has been reappointed as a Danforth teacher for the 1964-65 academic year. Dr. Clint O. Hanna dean of instruction, announced.

She will continue her studies in the field of art history at Harvard University, where she has been during the past two years.

Selection for reappointment included significant progress which she made during the initial grant and high quality of work as evaluated by graduate professors and the Danforth Teacher Advisory Council.

Through the reappointment, the associate director of the foundation wrote Mrs. Goethals: "The Foundation recognizes the high quality of your graduate work thus far and is confident that you will finish your doctorate at the earliest possible date."

Mrs. Goethals will devote most of the additional school year to research and preparation of her dissertation.

The faculty member graduated from Northeast State when the institution was a junior college. She completed requirements for the bachelor's degree at Louisiana State University, then entered Yale University from which she received both the M. A. and B. D. degrees.

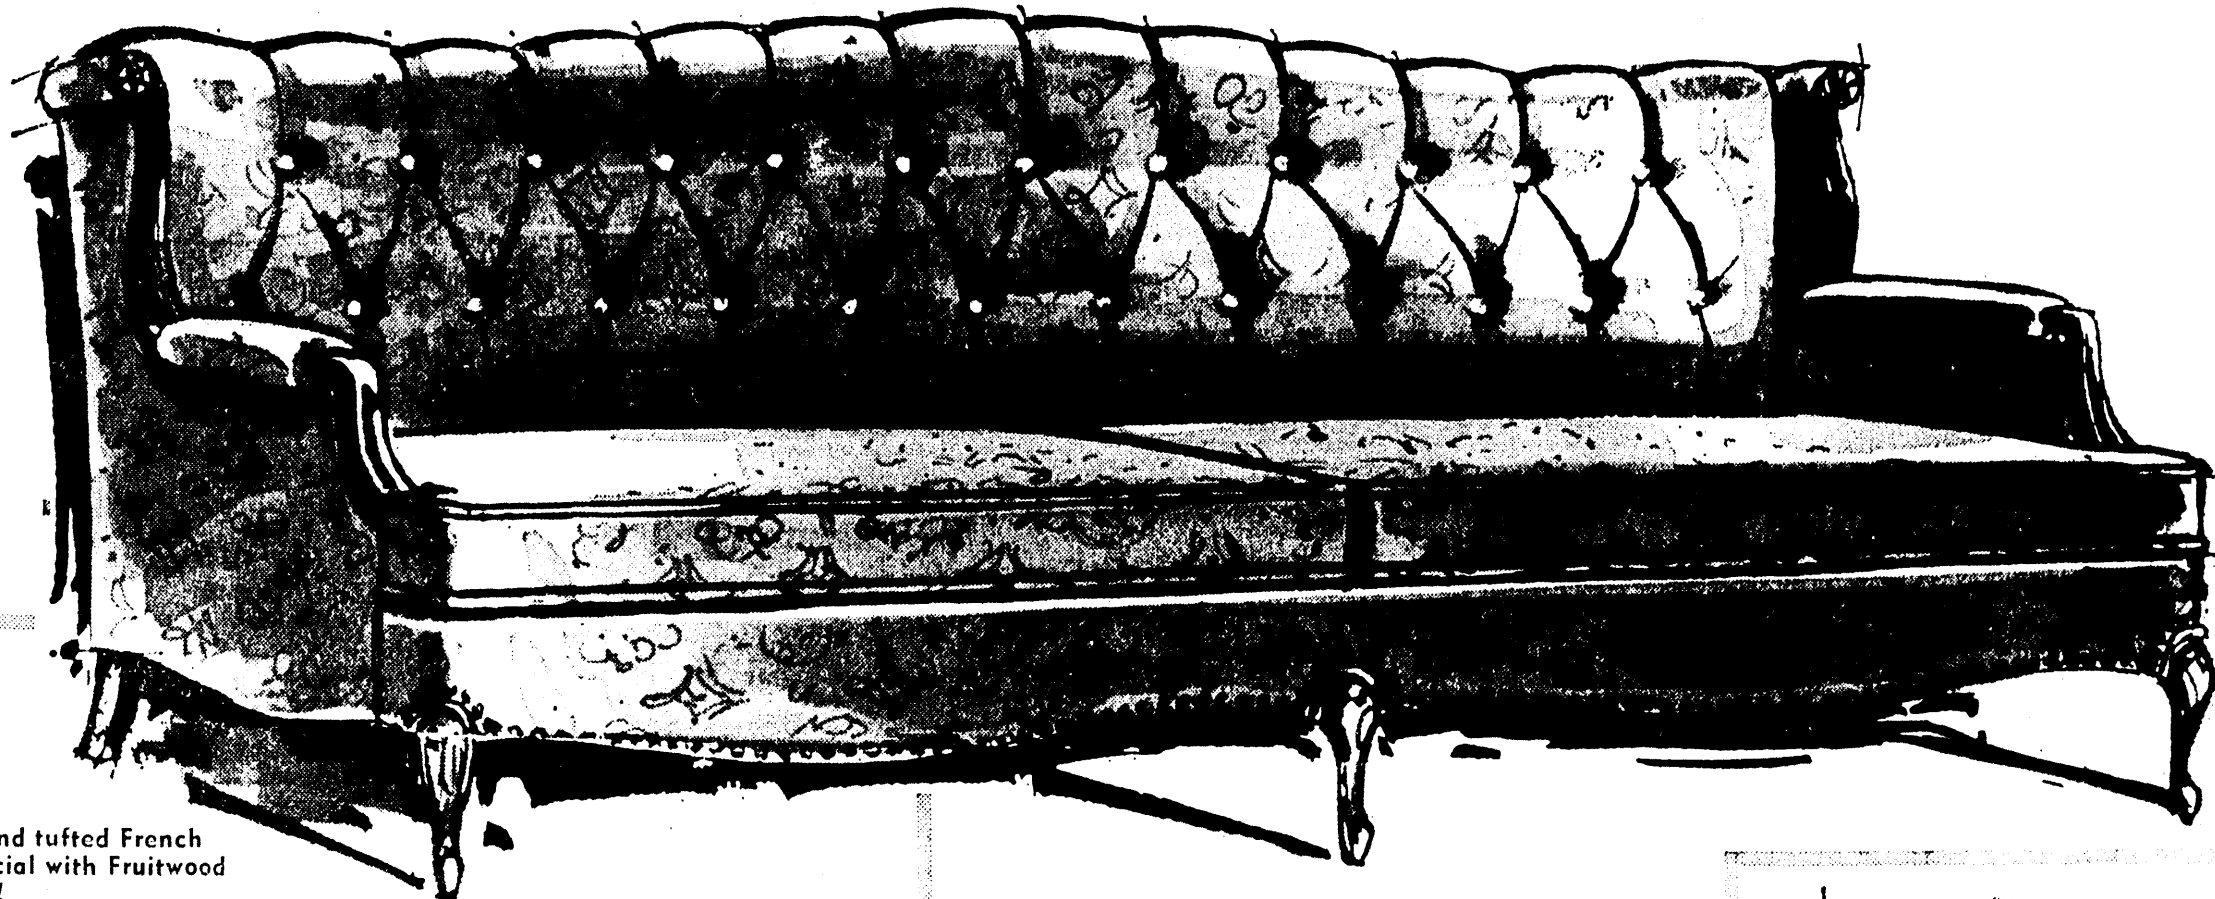

Later she worked as a free lance designer before joining the Northeast State faculty.

Mrs. Goethals has served as art consultant for New York City's Riverside Church in which two of her more recent mosaics have been placed. One work, inspired by the Old Testament, depicts the coming of Christ; the other, a portrayal of the creation, is in the children's department. A mosaic which she did for Temple B'nai Israel of Monroe illustrates the twelve tribes of Israel.

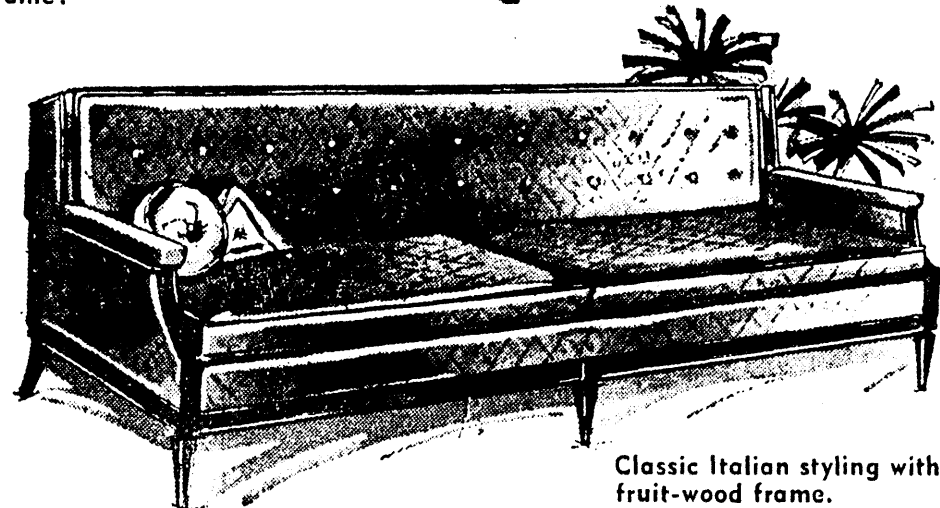

A native of Monroe, Mrs. Goethals is the daughter of Mrs. R. Frank Thompson and the late Mr. Thompson.

A biracial committee, appointed by Jacksonville Mayor Haydon Burns, sought to work out a program that would prevent a repetition of three days savage race conflict that produced a shooting death, fire, bombings, beatings and hundreds of arrests in Jacksonville earlier this week.

At Ocala, another focal point of race tensions, the mayor told the NAACP that a biracial committee was trying to persuade merchants to hire Negro help in sales and clerical jobs.

Authorities at St. Augustine largely ignored efforts of a New England group of integrationists to put on a civil rights demonstration.

Sheriff L. O. Davis said two white Bostonians were questioned about reports they were making inflammatory statements near a Negro school, but no reason was found to arrest them. The sheriff said he did not know their names.

About 150 students from Florida State University at Tallahassee and the University of Florida at Gainesville refused to march at Tallahassee because of the dispute.

Art Instructor Reappointed As Danford Teacher

Mrs. Gregor T. Goethals, assistant professor of art at Northeast Louisiana State College here has been reappointed as a Danforth teacher for the 1964-65 academic year. Dr. Clint O. Hanna dean of instruction, announced.

She will continue her studies in the field of art history at Harvard University, where she has been during the past two years.

Selection for reappointment included significant progress which she made during the initial grant and high quality of work as evaluated by graduate professors and the Danforth Teacher Advisory Council.

Through the reappointment, the associate director of the foundation wrote Mrs. Goethals: "The Foundation recognizes the high quality of your graduate work thus far and is confident that you will finish your doctorate at the earliest possible date."

Mrs. Goethals will devote most of the additional school year to research and preparation of her dissertation.

The faculty member graduated from Northeast State when the institution was a junior college. She completed requirements for the bachelor's degree at Louisiana State University, then entered Yale University from which she received both the M. A. and B. D. degrees.

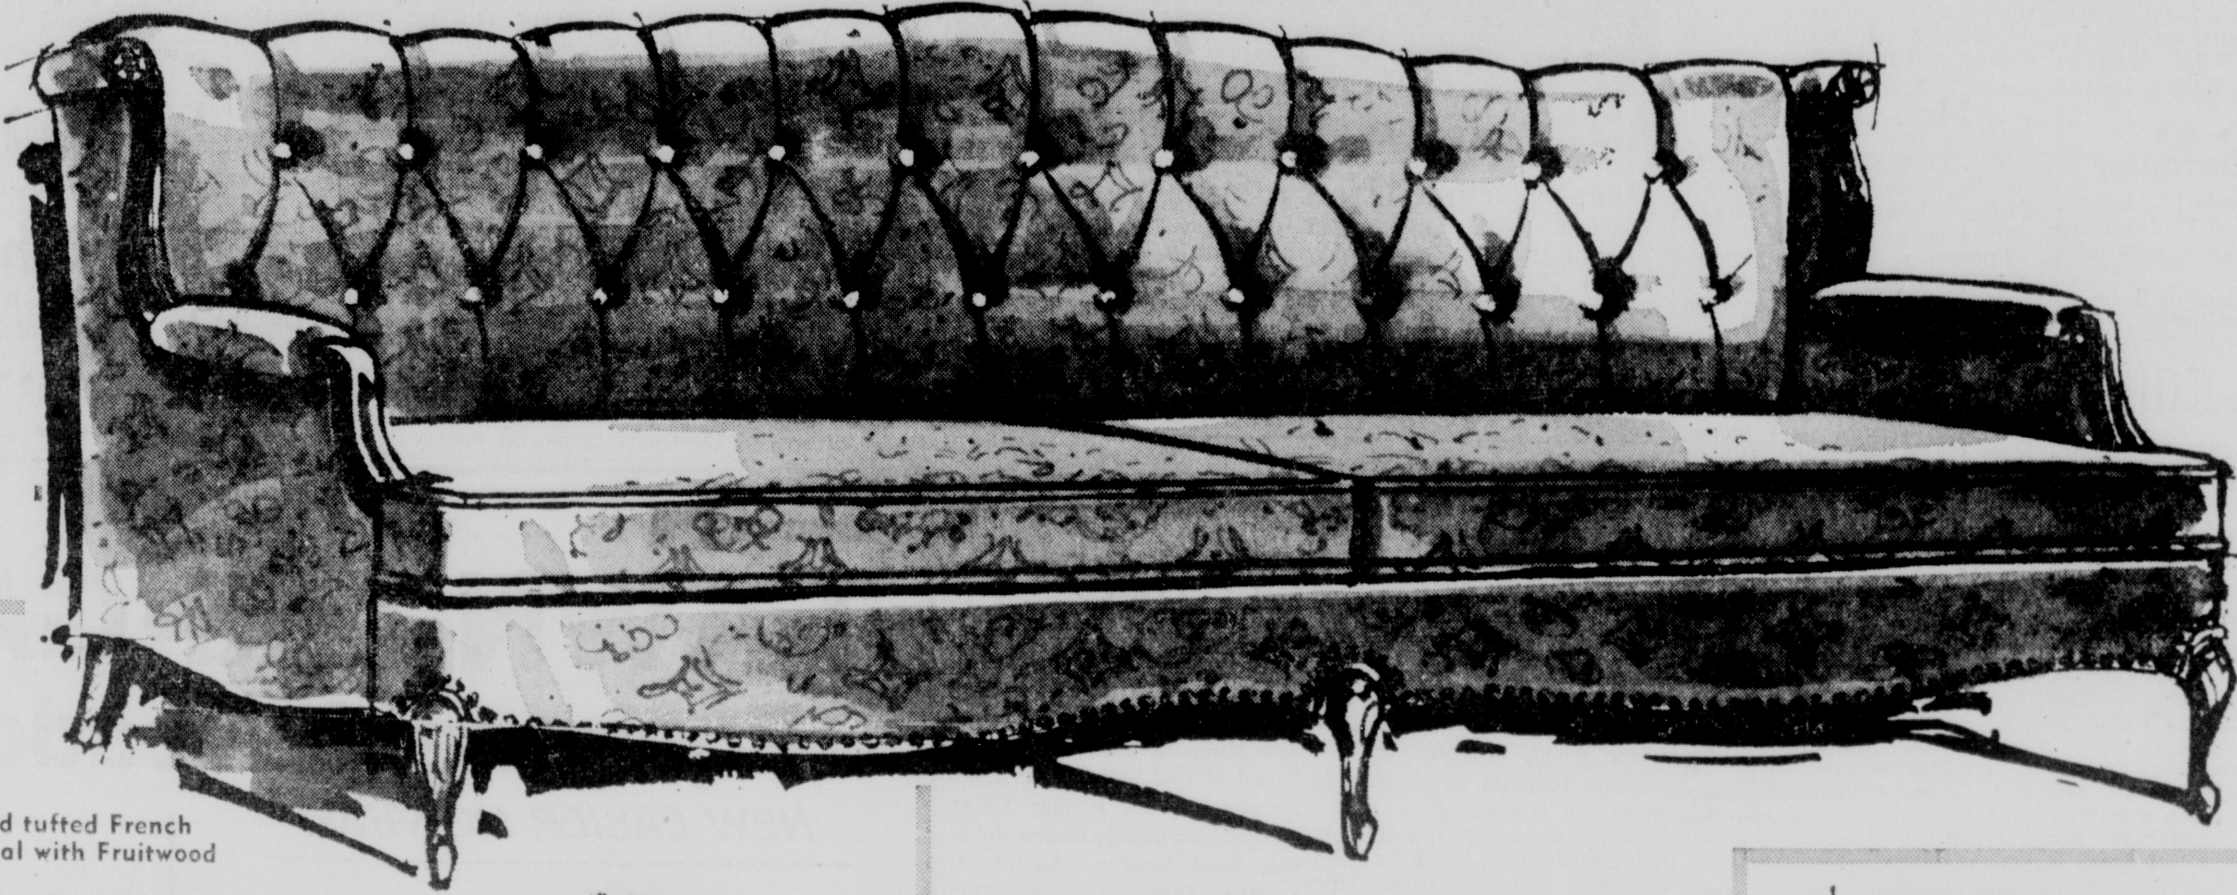

Later she worked as a free lance designer before joining the Northeast State faculty.

Mrs. Goethals has served as art consultant for New York City's Riverside Church in which two of her more recent mosaics have been placed. One work, inspired by the Old Testament, depicts the coming of Christ; the other, a portrayal of the creation, is in the children's department. A mosaic which she did for Temple B'Nai Israel of Monroe illustrates the twelve tribes of Israel.

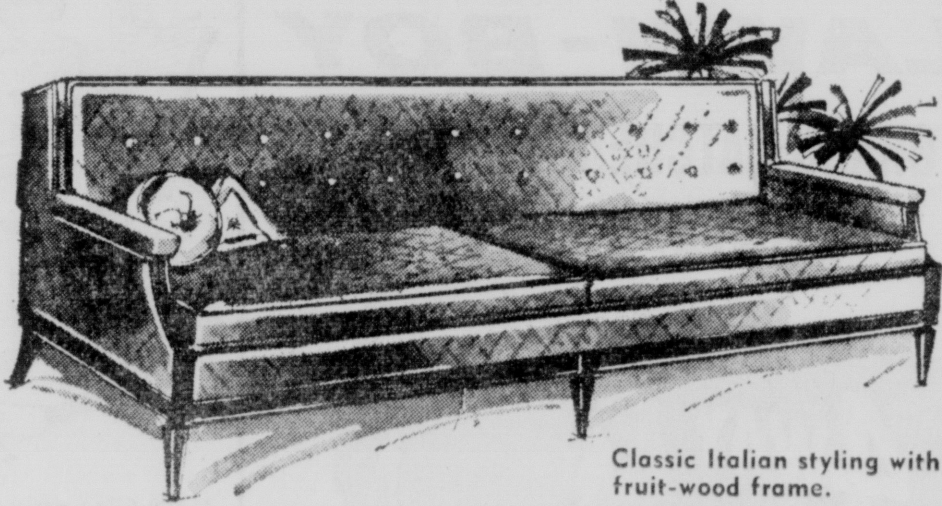

A native of Monroe, Mrs. Goethals is the daughter of Mrs. R. Frank Thompson and the late Mr. Thompson.

Festive Round Of Parties Final Courtesies Prior To Burton-Lewis Wedding

The marriage of Miss Lee Ann Lewis and John Paul Burton Jr., which will be solemnized this evening at Memorial Methodist Church, has been preceded by a final whirl of pre-nuptial parties honoring the engaged couple. Concluding the festivities will be brunch today at Bayou DeSiard Country club, while a rehearsal dinner was held last night and a dinner party Thursday evening.

Mrs. Edmund Key Jr. of Marshall, Texas, grandmother of the groom-to-be will be hostess for the brunch at noon today in the ballroom of the country club.

Approximately 85 guests, including the wedding party and out-of-town visitors, will attend the brunch, which will be served buffet style from a table centered with a massive arrangement of pink pompon chrysanthemums, California wax and French heather.

For the occasion, Miss Lewis has selected a three piece pink linen suit, pink hat and white lizard accessories.

REHEARSAL DINNER

Hosts for the rehearsal dinner last evening in the private dining room of Bayou DeSiard Country Club were Mr. and Mrs. R. O. Dulancy Jr. of Port Worth, aunt and uncle of the prospective groom.

The two long dinner tables were centered with silver candelabra holding pink tapers and pink pompon chrysanthemums, California wax and French heather, with greenery extending in either direction the length of the tables.

Greeting guests with her fiancé, Miss Lewis wore a two-piece turquoise ensemble with matching silk shoes and bag.

Invited to share the pre-nuptial events with the honored couple and their hosts were Miss Carolyn Faye Bryan, Miss Lynda Gave Wood, Miss Grace Cascio, Miss Faye Allen, Miss Lucy Burton, Miss Dewanna Gilbert, Edmund Key IV, Jim Huggins, Jim Guthrie, Rod Chastant, Rodger Fussell, Hobart Burton, Allan McCarter, Walter Meredith, Miss Kathy Harbert, Mike Riley, Mignon Scogin, Mr. and Mrs. Oliver Gilbert, Miss Terri Lynn Gilbert, Mr. and Mrs. John McCarter Jr., Mrs. Estelle Sanders, Mrs. Irene Nelson, the Rev. and Mrs. Lloyd Williams, Mrs. Foster Lewis, Mrs. Lena Waters, Dr. John P. Burton, Mrs. Paul H. Burton, Dr. and Mrs. Kent Darrow, Mr. and Mrs. William Burton, Mr. and Mrs. R. O. Dulancy, Mrs. Edmund Key Jr., Mr. and Mrs. Lloyd Ray Smith, Miss Tracey Smith, Mr. and Mrs. W. R. Davis, and Miss Margaret Martin.

Davis and Miss Margaret Martin.

DINNER PARTY

Grecian Bend plantation was the setting for an informal country style dinner party, hosted Thursday night by Jim Guthrie in honor of Miss Lewis and Mr. Burton. Mr. Guthrie will be groomsmen in this evening's wedding.

Red azaleas were seen in arrangements about the reception area, while an Easter theme was carried out in the table centerpiece, which featured bunnies and candy eggs on a bed of green grass.

Wearing a navy blue shift and white crepe blouse, Miss Lewis joined Mr. Burton and the guests in an evening of dancing, and folk singing and games in the game room.

Attending were Miss Carole Bryan, Francis Donald, Miss Faye Allen, Ronnie Bayles, Miss Kathy Harbert, Vernon Jones, Miss Diane LaGrange, Jim Gwyn, Miss Carol Turnipseed, David Sprague, Miss Pat Twiner, Harvey Hale, Miss Betty Ann Inabett, Doug Jenkins, Miss Bunny Cannon, Neal Gunn, Miss Harriet Murray, Markley Huey, Miss Mignon Scogin, Mike Riley, Miss Nancy Wilson, Dick Elbridge, the honorees and their host.

OUT-OF-TOWN

Out-of-state guests here for the nuptials this evening are Mrs. Paul H. Burton and Dr. and Mrs. Kent Darrow of Fargo, North Dakota; Mr. and Mrs. William Burton of Detroit, Michigan; Mrs. Clarence Cutler and Gail of Osyka, Mississippi; Mr. and Mrs. William Henley Jr., Constance, Marion and Cindy of Dallas, Texas; Mr. and Mrs. R. O. Dulancy Jr., Nancy Key, Marie Key and Richard Key of Fort Worth, Texas; Mrs. Edmund Key Jr., Edmund Key III, Edmund IV, Nancy and Knox, Mr. and Mrs. Paul Whaley Wood, Paul, Edmund, Constance and Scott, and Miss Margaret Martin, all of Marshall, Texas; Rodger Fussell of Texas; Rod Chastant, Mobile, Alabama; Mrs. Lucy Waters and Mrs. R. O. Dulancy, Mrs. Edmund Key Jr., Mr. and Mrs. Lloyd Ray Smith, Miss Tracey Smith, Jacksonville, Florida; Miss Edwina Mullins of Mobile, Alabama; Mrs. C. L. Keene of Magnolia, Arkansas; and Mrs. Josephine Smith of Jacksonville, Florida.

Coming from points in Louisiana are Mr. and Mrs. Jack Allen and Faye, Mrs. Kathryn Brown, Lou Anne and Delores, Mrs. Elizabeth Westmoreland, Mr. and Mrs. Cordes Williamson, all of Tallulah; Mrs. J. B. Anderson and Mr. and Mrs. Sam Mixon of Baton Rouge; Mr. and Mrs. Sidney Anderson of Alexandria; Mrs. B. C. Jurls of Bastrop; Mrs. David Deland and Mr. and Mrs. Joe Mondello of Shreveport; Mr. and Mrs. Lloyd Ray Smith and Tracey of Berneice; Mr. and Mrs. Jack St. John of Ridgecrest; Mrs. Allen B. Nicholas Jr. and Mrs. Eugene McClelland of New Orleans; Mrs. Ross McClelland and Marcia of Port Sulphur; and Mrs. W. R. Davis of Sterlington.

EDWINA HOPKINS

Piano Award Received By Local Girl

Miss Edwina Hopkins, daughter of Mr. and Mrs. W. D. Hopkins, 500 Rose-lawn, and a second year piano student at the Cincinnati Conservatory of Music, was honored recently at a tea given by the Cincinnati Literary and Musical Society.

A pupil of Madam Karen Dayas at the Conservatory, Miss Hopkins received the Society's annual award, made to an outstanding piano student, from Mrs. Margaret McClure Stitt, pianist, composer and hono-

CAROL JEAN CAHN is home from her classes at Newcomb College for the Easter holiday with her mother, Mrs. Victor Cahn at Number 11 Stubbs. But the good news preceded her, when Mrs. Cahn received word last week that her daughter was named to the Dean's list at the college for last semester.

MRS. SEYMOUR SOLOMON returned home last Wednesday evening from a two week vacation trip to Baton Rouge, where she visited Mrs. Fannie Joseph and family. During her absence from Monroe, she also traveled to Austin, Texas, where her daughter, Doris, was recently initiated into Alpha Epsilon Phi social sorority at the University of Texas. Last weekend parents of the new initiates were honored on campus.

MR. AND MRS. JERRY W. THOMAS of Monroe announce the birth of their second child, first daughter, on March 18. The new arrival, named Sharron Joan will be the delight of her fifteen month old brother, Keith. Grandparents are Mr. and Mrs. W. M. Thomas and Mr. and Mrs. W. E. Monroe, all of Monroe.

ELECTED THIS PAST WEEK as cheerleaders at Neville High School are Pam Burgess, daughter of Mr. and Mrs. John Carr Burgess; Peggy Marx, daughter of Dr. and Mrs. Fred Marx; Mary Alice Pankey, daughter of Mr. and Mrs. Jack E. Pankey; Brenda Riddle, daughter of Mr. and Mrs. D. E. Riddle; Merrie Jo Simonton, daughter of Dr. and Mrs. R. M. Simonton; and Janet Vanderpool, daughter of Mr. and Mrs. R. L. Vanderpool Jr.

HINTS FROM HELOISE

Freezer Packs Color Keyed To Time Of Year

By HELOISE CRUSE

Dear Heloise: Here is a time saving tip for freezer owners: I use colored felt marking pens to identify meat parcels (cut, weight and date) that I put in the freezer, and I CHANGE colors at prescribed intervals!

Example: every January 1st I use one color. Come July, I start using another color. I now know at a glance which parcel should be used first!

This also eliminates "fumbling" when the freezer door is open.

Beverly Litman

Garden Club Holds Meeting In Ferriday

The Ferriday Garden Club met last Thursday at the REA Building for their regular March meeting.

Following committee reports, there was discussion concerning the flower show, held at the Concordia Parish Library on March 24 and 25. Also under discussion were the bird pictures, shown at the February meeting by Mrs. Thos. Daniel. It was decided that the films should be made available to more children in the area as an educational feature. Mrs. A. E. Torres was appointed to contact Mrs. Daniel and make arrangements for her to show the films to school children at club expense.

The National Anti-Litter Roadside Beautification Campaign which is sponsored by the national council of State Garden clubs, was discussed. The club decided to take an active part in the campaign and work toward beautifying the Ferriday area. The campaign will begin April 15 and run for one week.

Guest speaker for the meeting was Mrs. C. T. Payne of Natchez, Mississippi, who spoke on "Still Life Arrangements."

Mrs. U. B. Evans, owner of Haphazard Plantation near Frogmore, showed a display of spring bulbs and flowering trees. She gave the club hints on the best ways to plant, telling which plants gave the greatest blooms.

McClendon HD Club Holds March Meeting

The McClendon Home Demonstration club met last Tuesday, March 24 in the home of Mrs. W. C. Haynes on Cone Drive in West Monroe.

Mrs. Melvin Riser presided over the meeting as president. The program was given by Mrs. Audrey Dawson, home demonstration agent, whose topic was "Accessories For the Occasion." In her discussion Miss Dawson pointed out the proper hat, shoes, purse, gloves, and jewelry for street, travel or business, for church or afternoon wear, and for informal parties and after-five occasions. She also gave a copy of Fashion Tips To Elegance to those present.

Members attending the meeting were Mrs. Henry Blazier, Mrs. Donald Elliot, Mrs. Melvin Riser, Mrs. Glen Gates, Mrs. Elbert Moore, Mrs. Effie Horton, Mrs. J. G. Haynes Sr., Mrs. A. R. Robinson, Mrs. Louise Cloyd, Mrs. Lizzie Heckford, Mrs. Tuck Taylor and Mrs. Richard Soignier. Guests were Mrs. Maloy Slocum, Bill Soignier, Bill Haynes and Mrs. Dawson.

The April meeting will be held in the home of Mrs. Elbert Moore on April 16.

Area Alums To Observe USM Day

Alumni and friends of the University of Southern Mississippi here in Monroe will observe:

University of Southern Mississippi Day will be observed on Monday, March 30 by Monroe area alumni and friends of the University with a Dutch supper at the Paragon Supper Club at 7 p. m.

March 30 was selected from the important dates in the history of Southern, as it was on this date in 1910 that the school was established by act of the Mississippi Legislature. Meetings of former students are always held on or near this date. This year's meeting will mark the tenth annual observance.

According to Powell G. Ogletree, executive secretary of the Southern Alumni Association, a total of 112 meetings have been scheduled for this year in sixty-five Mississippi Counties and twenty other states.

All area alumni of the University of Southern are urged to make plans to attend the local March 30 meeting. Reservations are not necessary. For additional information, call M. L. Malone in Monroe, 323-0617.

Banquet Held In Shreveport For Initiation

The Shreveport Country Club was the setting last Saturday night for the initiation banquet hosted by Louisiana Tech's Eta Zeta chapter of Sigma Nu Fraternity.

Of the ten pledges initiated in ceremonies prior to the banquet were Lee Denson of Monroe and Marc Bordelon of Milton, Florida.

Attending the banquet honoring the new initiates were fraternity members, alumnae and their wives.

Guest speaker for the evening was William Jones, faculty advisor to Eta Num chapter of Sigma Nu at University of Southwestern Louisiana.

Crosley PTA Views Film At Meeting

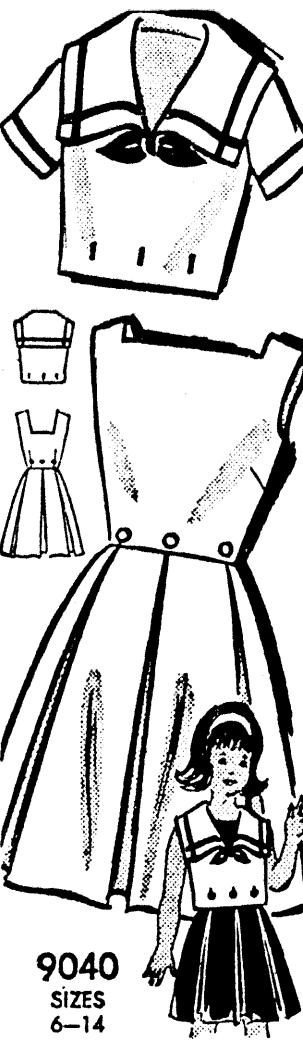

Members of the Crosley P.T.A. met last Wednesday afternoon to view a film of topical significance entitled "A Welfare State." The film, narrated by Ronald Reagan, concerned itself with corruption in the government as it effects schools, farms, private business and personal property. The film was shown by Tommy Bond.

During the business session, presided over by Mrs. Jimmy Moorhead Jr., second vice-president, officers were elected for the coming year. Chosen by the membership were Mrs. Jack Robertson, president; Mrs. Roland Carter, first vice-president; Mrs. Jimmy Moorhead Jr., second vice-president; Mrs. Bob McGee, secretary; Loy Hedgpeeth, treasurer. Elected as delegates to the state convention in April were Mrs. Robertson and Mrs. Moorhead Jr. with Mrs. T. C. Cockerham and Mrs. Billy Ponder as alternates.

Announcement was made of the pre-school roundup to be held at the school April 10 beginning at 8:15 a.m.

Mrs. H. H. Douglas won room count and refreshments were served under the direction of hospitality chairman, Mrs. Billy M. Smith.

Marian Martin

MR. AND MRS. GUY HOLLINGSWORTH

Sunday Afternoon Party To Honor West Monroe Couple On Anniversary

An Easter Sunday afternoon reception will honor Mr. and Mrs. Guy Hollingsworth of West Monroe on the occasion of their fiftieth wedding anniversary. Friends and relatives of the couple throughout the area will call at the Hollingsworth home on Arkansas Road from 3 to 5 p.m. tomorrow for the golden anniversary event.

Hosts for the occasion will be the two Hollingsworth sons and their wives, Mr. and Mrs. Jack Hollingsworth of West Monroe and Mr. and Mrs. Angus Hollingsworth of Cotton Valley, Louisiana.

To carry out the golden theme the tiered and columned cake will be surrounded by golden chrysanthemums to form the center decor for the reception table. Mrs. Hollingsworth's corsage will be of yellow tulips.

Assisting with the afternoon's courtesies will be Mrs. George Robertson, Mrs. Johnny Hale, Mrs. A. G. Martin, Mrs. James L. Adair, Mrs. Fred Fulton, and Mrs. T. L. Cain of Bastrop. Presiding at the guest book will be the honored couple's granddaughter, Miss Kay Hollingsworth of Cotton Valley.

Out-of-town guests planning to be on hand for the festivities are Mrs. Hollingsworth's two sisters and their husbands, Mr.

and Mrs. Elmer Thon of Cornell, Wisconsin and Mr. and Mrs. Jake Staples of Calhoun; her nephews, Mr. and Mrs. Fred Staples of Calhoun and Mr. and Mrs. Carey Staples of Jonesboro; and his nephews, Mr. and Mrs. O. D. Hollingsworth of Ruston and Mr. and Mrs. E. B. Busbick of Rayville.

MATTRESS TOPPER IRONS OUT BUMPS

If your mattress is developing hills and valleys, but you can't afford a new set of bedding right away, you can increase its lifespan by covering it with a latex foam rubber mattress topper. These are pads of foam rubber up to two inches thick that will give new life to an old mattress for a while. They are also useful if you bought a mattress that now seems too firm. A soft mattress topper will give two inches of softness on top, without losing the firm support underneath.

NEW SOUPS

First, soup manufacturers suggested using their products for sauces. Now a sauce mix manufacturer is introducing a dried creamy mushroom sauce mix that can be expanded to soup, by adding water as well as milk. Another new flavor in the same line makes creamy onion sauce, with the addition of milk only. (French's).

DEAR ABBY

You're The One Out Of Order, My Dear!

By Abigail Van Buren

DEAR ABBY: My complaint concerns the husband of my next door neighbor. He is an able-bodied intelligent, recently-retired man who seems content to spend his days snoozing on the sofa, reading, or watching TV. His wife is a good friend of mine. When I drop in to have a chat with her, we have a cozy threesome. Nice? Why can't a man understand that his wife needs a little privacy in her own home? Surely there must be something more challenging for a man to do than to sit and wait to be called to his meals three times a day! My husband is approaching retirement age, and if this is retirement — deliver me!

MRS. G.

DEAR MRS. G.: The retired gentleman would probably be glad to "deliver" you — to your own home. You are invading HIS home, and he's earned the right to snooze or read or do whatever he pleases in it. If his wife objected to her lack of privacy, she would go to your house for the visits.

DEAR ABBY: I borrowed six eggs from a neighbor. Two of them were rotten. I returned four eggs to her and told her that two of the ones she gave me were no good. She said I borrowed six eggs, not four, and I still owe her two eggs. What do you think?

WAITING FOR ADVICE DEAR WAITING: Be a good egg and give her two more.

DEAR ABBY: I am so upset I could howl! My daughter just received a book for her 12th birthday from my sister, who is a 33-year-old school teacher and should have known better. This book is titled, "What is Happening to Me?" It is a facts-of-life-type book for boys and girls between the ages of 12 to 15. I planned to tell my daughter what I felt she should know when I thought she was ready

for it. Now I don't know whether I should let her read this book or not. Don't you think my sister had a nerve sending my daughter a book like that without asking me first? What should I do about it?

UPSET DEAR UPSET: Simmer down and read the book. If you think your daughter should read it — let her. I have read the book and regard it highly. I am sure your sister meant well.

CONFIDENTIAL TO "LOST MY FATHER": Do not despair. You still have your Father in heaven.

What better time, What better gift...

HINTS FROM HELOISE

Freezer Packs Color Keyed To Time Of Year

By HELOISE CRUSE

Dear Heloise: Here is a time saving tip for freezer owners: I use colored felt marking pens to identify meat parcels (cut, weight and date) that I put in the freezer, and I CHANGE colors at prescribed intervals!

Example: Every January 1st I use one color. Come July, I start using another color. I now know at a glance which parcel should be used first!

This also eliminates "fumbling" when the freezer door is open.

Beverly Litman

Note: Felt marker ink does not wash off plastic containers so when marking plastic containers of food, write on freezer tape

Garden Club Holds Meeting In Ferriday

The Ferriday Garden Club met last Thursday at the REA Building for their regular March meeting.

Following committee reports, there was discussion concerning the flower show, held at the Concordia Parish Library on March 24 and 25. Also under discussion were the bird pictures, shown at the February meeting by Mrs. Those Daniel. It was decided that the films should be made available to more children in the area as an educational feature. Mrs. A. E. Torres was appointed to contact Mrs. Daniel and make arrangements for her to show the films to school children at club expense.

The National Anti-Litter Roadside Beautification Campaign which is sponsored by the national council of State Garden clubs, was discussed. The club decided to take an active part in the campaign and work toward beautifying the Ferriday area. The campaign will begin April 15 and run for one week.

Guest speaker for the meeting was Mrs. C. T. Payne of Natchez, Mississippi, who spoke on "Still Life Arrangements."

Mrs. U. B. Evans, owner of Haphazard Plantation near Frogmore, showed a display of spring bulbs and flowering trees. She gave the club hints on the best ways to plant, telling which plants gave the greatest blooms.

HANDICAPPED CHILDREN

Jaycee Camp-Out Is Termed Success

The Monroe Junior Chamber of Commerce camp-out for handicapped children, held recently at Camp deLaurie near Sterling, has received the endorsement of public health officials and the Jaycees plan to try to interest the state organization into making a statewide project out of the event.

Jaycee chairman for the camp-out, Malcolm Keith, termed the project an "overwhelming success."

Local persons cooperating with the Jaycees have endorsed the idea and have given testimonials as to its success.

Mrs. Odell Gossett, nurse with the health department crippled children's services, said "this was an extremely worthwhile program and we are delighted with the idea." Another nurse, present for the camp-out, Jody Bergeron, said, "I have never seen these children so free and easy before. They are doing things I and the rest of us have never even dreamed that they were capable of."

The youngsters were made aware of the camp-out by the nurses and doctors in the area and were taken to the camp by the Jaycees on a city bus. Special entertainment, was furnished and they engaged in many activities such as folk singing, games, hikes, air rifle instruction.

Scoutmaster Arthur Griffin, who cancelled some Scout activities, said he felt the project was "extremely worthwhile. It would be wonderful if this program could be enlarged and done at least twice a year."

Jaycee President Jack Murphy said the matter of making the camp-out a state project would be taken before the organization's annual convention in Alexandria in May.

Jaycees assisting Keith on the project were Murphy, Tom Muehler, Tom Hasson, Bob Tucker, Willoughby Thomas, Billy Jones, Mel Cohen and Hugh Hy-

man. The mother of one of the children attending the camp-out said "this is a wonderful program. I am delighted my son had a chance to go. He thoroughly enjoyed it and came home very excited. He keeps telling me he was not ready to come home."

Keith said all the youths wanted to know if "we can come again next year."

Murphy said if the state organization accepts the project, 90 chapters in Louisiana would cooperate. "We are very pleased with this first pilot program."

Brazil Rebels End 40-Hour Hotel 'Strike'

RIO DE JANEIRO, Brazil (AP)—Rebellious Brazilian sailors and marines surrendered to army troops Friday in response to a plea from President Joao Goulart after holding out for 40 hours on a sitdown strike.

In giving up, they made a final gesture of defiance, tossing away their caps, but the government said Friday night they were forgiven.

Brazil's new navy minister, put into office Thursday because his predecessor couldn't handle the crisis, urged the rebels to return to their posts Monday.

The rebels took over a downtown building Wednesday.

A Navy Ministry announcement said the new navy minister, Adm. Paulo Marios Bacunha Rodrigues, relieved the men of all responsibility for participating in the rebellion. He urged them to return to their duty post Monday morning and asked them to maintain discipline in the navy's ranks.

The announcement came 3 1/2 hours after the rebels—officially counted at 1,425—gave up to the army. They were trucked away to an army installation and two hours later released.

The passive uprising was in support of marine Capt. Jose Anselmo whose arrest was ordered by former Navy Minister Silvio Mota, who resigned Thursday when he failed to put down the rebellion.

The arrest order stemmed from Anselmo's alleged political statements. Brazilian military personnel, offer or enlisted, are strictly forbidden from making any political statements.

WOMEN CANDIDATES

MEXICO CITY (AP)—Ten women, a record number, have been named candidates for seats in Congress by the dominant government party of Revolutionary Institutions. The party and its presidential nominee, Gustavo Diaz Ordaz, are sure of success in the July elections.

SPRING TIME PROJECT below, on the banks of Bayou deSiard, was named the "Sands Hotel." The three "architects" who built it are, left to right, Becky Balfour, daughter of Mr. and Mrs. James T. Balfour, who celebrated her 11th birthday Friday, Bud

Massingill, son of Monroe Fire Chief and Mrs. Homer Massingill, and Man-lanie Barco, a cousin visiting the Massingill youth from Houston, Tex. The youngsters built from sand hauled in last year during the low water conditions. (Staff Photo by John Fogleman)

Officers Report Arrests Solve 3 Burglaries Here

Three burglaries have been reported cleared by the Monroe police department with the arrest of three Negroes, two of them juveniles.

A house burglary, reported by Bessie Chapman, also Negro, 3815 Halsell St., on Jan. 20, was cleared with the apprehension of Huey P. Long, of Monroe, by Houston, Tex. authorities. Long was returned to Monroe Friday by deputies of the Ouachita Parish sheriff's department. A clock radio taken in the incident was recovered.

Police said that the burglaries of Pendleton's Service Station on DeSiard Street on Jan. 1, in which cigarettes and money were taken; and of Nelson's Shoe Shine Stand, 907 DeSiard St., between Dec. 20 and 24, 1963, when a pair of shoes were stolen, were admitted to by two Negro juveniles. One juvenile is charged in connection with each offense. They were placed in the detention home.

Two other incidents are under investigation by Monroe authorities. Four cartons of cigarettes were taken from the truck of Woodrow Williams as he was making a delivery on Washington Street for Monroe Candy Co. The theft was reported at 11:25 a.m. Friday.

About \$6 was taken from three newspaper racks Thursday night, A. G. Walthall, 210 Mary St., told police that the racks were at Bob's Cafe and Beard's Cafe, both on South Second Street, and Safeway Grocery on Plum Street.

In other action, Jimmy Futch, 36, 305 Hart St., Monroe, was arrested by the Ouachita Parish sheriff's department on a charge of theft by fraud in St. Mary Parish. He was apprehended on information supplied by the St. Mary Parish sheriff's department and is now free on \$500 bond.

West Monroe police booked Elbert E. Head, 48, 211 N. 2nd St., Longview, Tex., on charges of driving while under the influence of intoxicating beverages, no driver's license and reckless driving. He was apprehended at 12:30 a.m. on Cypress Street.

Also booked by Monroe police was Myrtis Lee Spencer, 31, 509 Breard St., Monroe on charges of shoplifting. Mrs. Spencer, along with her 12-year-old daughter, is charged with taking several items from a local firm.

Local authorities booked Sadie Mary Shiel, 43, Rt. 1, Box 50-R, Monroe on charges of driving while under the influence of intoxicating beverages, no driver's license and reckless driving. She was apprehended at 7:15 p.m. at the intersection of South Fifth Street and Winnsboro Road.

Gen. MacArthur Reported Better

WASHINGTON (AP)—A marked improvement was reported Friday in Gen. of the Army Douglas MacArthur's inflamed lung.

"Otherwise, his condition is the same," said spokesmen for

CYPRUS FORCE

U.N. Begins Duty On Bloodied Isle

NICOSIA, Cyprus (AP)—The United Nations quietly took over Britain's burden as keeper of the peace on bloodied Cyprus. Secretary-General U Thant appealed for the islanders' cooperation.

About 6,000 British troops on duty here through three tumultuous months donned blue U.N. berets and joined 1,000 Canadian soldiers under the command of Indian Gen. Prem Singh Gyani. Irish, Swedish and Finnish

troops will enter the force within the next two weeks, replacing some of the British veterans.

"I very much hope the United Nations peace-keeping force will receive full cooperation on the part of all concerned, so it may effectively discharge the task assigned to it by the security Council," Thant said Friday.

"I wish on this occasion to make a special appeal to the government of Cyprus and leaders of all communities to exercise the greatest restraint and collaborate with the United Nations in the restoration of peace and normal conditions."

Only one minor incident was reported in Nicosia. Three Turkish Cypriot shepherds were detained briefly by Greek Cypriot police. The Turkish Cypriots were picked up near a point called Pork Chop Hill while Canadian troops were taking over from British paratroopers. The British quickly secured release of the three.

U. N. flags replaced Union Jacks in most camps and positions. The change was greeted warmly by most Turkish and Greek Cypriots, but many adopted a wait-and-see outlook.

Gyani issued orders of day instructing his men that their aims would be: In the interest of preserving international peace and security, to prevent the recurrence of fighting, and to contribute to the maintenance and restoration of law and order and a return to normal conditions.

The Canadians have said they would fire if fired upon, the same orders as the British had. Sir Arthur Clark, retiring British high commissioner, said in a statement that the British peacekeeping role on the island was not appreciated by the Cypriots. He denied charges published in the Greek Cypriot press that Britain had an ulterior motive.

Sir Arthur is retiring for health reasons. The burning freighter, steaming off Bermuda, was identified as the 7,642-ton Mormacine, manned by a crew of 47 and carrying a highly flammable cargo of sisal fiber.

The Coast Guard cutter Half Moon was battling heavy seas to put fire fighting parties aboard the burning freighter.

The Half Moon intercepted Mormacine about 140 miles south-southwest of Bermuda about 1:45 p.m. EST, and came alongside to give assistance.

Thursday an explosion split the tanker San Jacinto in two off the fog-shrouded Virginia Capes, but all but one of the 37 crewmen survived.

Two tugs had the stern of the San Jacinto in tow and were expected to make port today at Newport News. The San Jacinto crew chose to ride the stern ashore.

The Mormacine was steaming under its own power and managed to make about 30 miles Friday. Coast Guard planes kept watch over the vessel until the cutter arrived.

Walter Reed Army Medical Center.

A moderate inflammation at the base of MacArthur's right lung was detected Thursday and antibiotics were administered.

The 84-year-old general's recovery from two major operations was described as progressing satisfactorily, although his condition was still listed as serious.

LBJ To Remain Within U.S.

WASHINGTON (UPI)—President Johnson will not travel outside the United States while there is no vice president unless an unforeseen crisis develops, it was learned officially Friday.

Under the circumstances, a meeting between Johnson and French President Charles de Gaulle is highly unlikely this year, a State Department official said.

This was disclosed by Assistant Secretary of State Frederick G. Dutton in a letter to Rep. Robert Ellsworth, R-Kan., one of 14 GOP congressmen who earlier had urged a De Gaulle-Johnson summit meeting.

Dutton said Johnson's decision to stay at home was based "on a sound regard for our constitutional system." He added that "unfortunately, General de Gaulle has no present plans to accept the invitation of the President to visit the United States again to discuss matters of mutual interest."

Johnson last met De Gaulle in November, when the French president was here for the funeral of President John F. Kennedy. At that time, the two leaders were expected to confer again at formal talks.

Dutton noted that on March 7, Johnson told reporters he would be happy to meet De Gaulle any time it could be arranged.

"Under the circumstances," Dutton said, "A Johnson-De Gaulle visit appears to be ruled out for the remainder of the year."

He emphasized that both governments are in regular contact through diplomatic channels and that "there has been no breakdown of communications."

U.S. To Keep Viet Cong In Puzzlement

WASHINGTON (UPI)—The Johnson administration has begun a campaign to keep the North Vietnamese Communists wondering when—or whether—the anti-guerrilla war will be extended to their territory.

Informed sources said Friday that plans are being made for air strikes and other forms of possible attacks on the north in support of the newly increased effort against the Communist Viet Cong in South Vietnam.

Whether these plans will be carried out depends largely on the success of the new tactics in the south, it was said. Meanwhile, the Communists will be kept guessing about whether blows will fall in the north.

In a major policy speech on Viet Nam Thursday, Defense Secretary Robert S. McNamara opened the door to the possibility of carrying the war to the north but emphasized that the South Vietnamese must "win the battle in their own country... no matter what else is done."

Authorities disclosed that the best current estimate is that new American aid will cost about \$50 million a year, in addition to the present annual rate of about \$550 million. Under the plan described by McNamara, the Vietnamese air force will be strengthened and ground forces will be expanded by at least 50,000 men.

It was learned that additional Skyraider planes, U.S. Navy piston engine attack types, are to be supplied the Vietnamese.

Discussing the possibility of carrying the war to North Viet Nam, McNamara said "its implications and ways of carrying it out" had been studied carefully.

Among the possible "ways of carrying it out," described by informed sources Friday, were air strikes on transportation centers and other targets, the mining of coastal waters, blockading, and use of South Vietnamese guerrilla troops.

Area Residents Are Warned On Car Inspections

Capt. M. E. Kidd, of Louisiana State Police, warned Twin City and area residents that only four days remain to have cars and motor vehicles inspected before the March 31 deadline.

Capt. Kidd, of Troop F located here, said the motor vehicle department has given troopers orders that the inspection deadline will not be extended. He said the state police have instructions to issue summons to all vehicles stopped that do not have the inspection sticker.

The red sticker should be displayed in the lower left front glass. Cars are inspected for brakes, lighting, steering apparatus, windshields and horns, and windshield wipers. They may be inspected at any service station or garage that displays the authorized inspector sign for a \$1-fee. If the car needs some minor repair to pass the inspection, the owner must have the repair done before a safety inspection sticker will be issued. The fine for failure to comply with this law is \$25.

CITY, AREA CHURCHES

Special Easter Services Slated

Easter Eve Services today will set the stage for a large number of special observances planned for Easter Sunday by Twin Cities area churches.

Services scheduled today include: Grace Episcopal Church, 8:45 a.m., litany and ante-communion, and at 4 p.m., traditional service of the blessing of the New Fire, blessing and lighting of the Paschal Candle, renewal of baptismal vows and Easter baptisms.

St. Thomas Episcopal Church, 11:15 p.m., blessing of the New Fire, lighting of the Paschal Candle, holy eucharist and sermon.

Saint Matthew's Catholic Church, 11 p.m., ceremonies of Holy Saturday begin; 12 midnight Easter Vigil Mass during which holy communion may be received.

Saint Matthew's Catholic Church, 11 p.m., ceremonies of

Easter candle, baptismal water, followed by midnight mass.

Church of Jesus the Good Shepherd, 11 p.m. Easter vigil, 12 midnight mass for the parish.

Monroe First Baptist Church, 7 p.m. showing of full color 55-minute film, "I Beheld The Glory," on large screen adjacent to parking lot, for viewing from cars. It will be repeated Sunday evening.

Opening the area Easter Sunday observances will be two community sunrise services.

At 5:45 a.m., Easter sunrise services will be held at Monroe Memorial Park Cemetery on Highway 80 East, under sponsorship of the Pilot Club of Monroe-West Monroe. Speaker will be Rev. C. F. Vorkoper, pastor of Messiah Lutheran Church and president of the Monroe Ministerial Alliance.

Music will be provided by a symphonic band directed by Jack W. White and the combined choirs of West Monroe First Baptist Church directed by Bill Denton.

The theme will be "The Light of the World." Program chairman is Mrs. H. M. Chatman. In the setting for the service are three large figures before the open tomb and three crosses on the hill. The scene has been illuminated by spotlight at night during the past week so it could be viewed by visitors.

At New Light Baptist Church on Prairie Road near Monroe, community Easter sunrise services will be held at 6:30 a.m., with Rev. Paul McComb, pastor, delivering a sermon on "The Light of the World." There also will be congregational singing.

A number of revivals which have been in progress this week, will climax Sunday, and several new revival series will be launched on that day.

Special attention to the story of the resurrection of Christ will be given at regular services in churches throughout the area, and several churches plan cantata presentations.

Some of the churches announcing cantatas for Sunday include:

Central Baptist Church, 7 p.m. 40-voice Central Choral presenting "Seven Last Words of Christ."

Emanuel Baptist Church of Monroe, 7 p.m., church choir with "Hallelujah! What A Saviour."

McGuire Methodist Church, 7 p.m., choir presenting "Easter-tide."

Trinity Baptist Church, 7:30 p.m., "Hallelujah, What A Saviour."

West Monroe First Baptist Church, 7:30 p.m., choir presenting "Golgatha."

A program of gospel music will be presented at 5:30 p.m. Sunday at Auld's Chapel Congregational Church near Arkansas Road, about 10 miles west of West Monroe. Featured will be the Rhythmaires Quartet of West Monroe.

HANDICAPPED CHILDREN

Jaycee Camp-Out Is Termed Success

The Monroe Junior Chamber of Commerce camp - out for handicapped children, held recently at Camp deLoutrie near Sterling, has received the endorsement of public health officials and others in the Twin Cities and the Jaycees plan to try to interest the state organization into making a statewide project out of the event.

Jaycee chairman for the camp-out, Malcolm Keith, termed the project an "overwhelming success."

Local persons cooperating with the Jaycees have endorsed the idea and have given testimonials as to its success.

Mrs. Odalie Gossett, nurse with the health department crippled children's services, said "this was an extremely worthwhile program and we are delighted with the idea." Another nurse, present for the camp-out, Jody Bergeron, said, "I have never seen these children so free and easy before. They are doing things I and the rest of us have never even dreamed that they were capable of."

The youngsters were made aware of the camp-out by the nurses and doctors in the area and were taken to the camp by the Jaycees on a city bus. Special entertainment, was furnished and they engaged in many activities such as folk singing, games, hikes, air rifle instruction.

Scoutmaster Arthur Griffin, who cancelled some Scout activities, said he felt the project was "extremely worthwhile. It would be wonderful if this program could be enlarged and done at least twice a year."

Jaycee President Jack Murphy said the matter of making the camp-out a state project would be taken before the organization's annual convention in Alexandria in May.

Jaycees assisting Keith on the project were Murphy, Tom Mulhearn, Tom Hasson, Bob Tucker, Willoughby Thomas, Billy Jones, Mel Cohen and Hugh Hy-

Neville Joins In Safety Week

The importance of observing the correct rules for water safety was stressed this week at Neville High School by the school Red Cross chapter which joined in the March 23-30 observance of "Safety Week."

Members made posters to publicize theme and took a swimming survey to enlist students for a lifesaving course. Boating and lifesaving courses were also stressed.

Officers of the Neville Red Cross include Donna Lomas, president; Kay Turnage, vice-president; Carol Overton, secretary; Harriet Lowry, project chairman; Annie Sigler, reporter; and Donnie Wiley, parliamentarian.

Two Ships Catch Fire In Atlantic

PORTSMOUTH, Va. (UPI) — Two ships — a Navy vessel and a freighter — caught fire Friday in the Atlantic.

The Navy vessel USS Antares was reported ablaze about 10 miles east of Oregon Inlet off the North Carolina Outer Banks. It immediately struck for port.

A Navy spokesman at Norfolk said the crewmen aboard the 455-foot general stores Navy vessel were safe and that the fire was concentrated in the No. 3 hold.

The burning freighter, steaming off Bermuda, was identified as the 7-642-ton Mormacpine, manned by a crew of 47 and carrying a highly flammable cargo of sisal fiber.

The Coast Guard cutter Half Moon was battling heavy seas to put fire fighting parties aboard the burning freighter.

The Half Moon intercepted Mormacpine about 140 miles south-southwest of Bermuda about 1:45 p.m. EST, and came alongside to give assistance.

Thursday an explosion split the tanker San Jacinto in two off the fog-shrouded Virginia Capes, but all but one of the 37 crewmen survived.

Two tugs had the stern of the San Jacinto in tow and were expected to make port today at Newport News. The San Jacinto crew chose to ride the stern ashore.

The Mormacpine was steaming under its own power and managed to make about 30 miles Friday. Coast Guard planes kept watch over the vessel until the cutter arrived.

U.S. To Keep Viet Cong In Puzzlement

WASHINGTON (UPI) — The Johnson administration has begun a campaign to keep the North Vietnamese Communists wondering when — or whether — the anti-guerrilla war will be extended to their territory.

Informed sources said Friday that plans are being made for air strikes and other forms of possible attacks on the north in support of the newly increased effort against the Communist Viet Cong in South Vietnam.

Whether these plans will be carried out depends largely on the success of the new tactics in the south, it was said. Meanwhile, the Communists will be kept guessing about whether blows will fall in the north.

In a major policy speech on Viet Nam Thursday, Defense Secretary Robert S. McNamara opened the door to the possibility of carrying the war to the north but emphasized that the South Vietnamese must "win the battle in their own country... no matter what else is done."

Authorities disclosed that the best current estimate is that new American aid will cost about \$50 million a year, in addition to the present annual rate of about \$550 million. Under the plan described by McNamara, the Vietnamese air force will be strengthened and ground forces will be expanded by at least 50,000 men.

It was learned that additional Skyraider planes, U.S. Navy piston engine attack types, are to be supplied the Vietnamese.

Discussing the possibility of carrying the war to North Viet Nam, McNamara said "its implications and ways of carrying it out" had been studied carefully.

Among the possible "ways of carrying it out," described by informed sources Friday, were air strikes on transportation centers and other targets, the mining of coastal waters, blockading, and use of South Vietnamese guerrilla troops.

Area Residents Are Warned On Car Inspections

Capt. M. E. Kidd, of Louisiana State Police, warned Twin City and area residents that only four days remain to have cars and motor vehicles inspected before the March 31 deadline.

Capt. Kidd, of Troop F located here, said the motor vehicle department has given troopers orders that the inspection deadline will not be extended. He said the state police have instructions to issue summons to all vehicles stopped that do not have the inspection sticker.

The red sticker should be displayed in the lower left front glass. Cars are inspected for brakes, lighting, steering apparatus, windshields and horns, and windshield wipers. They may be inspected at any service station or garage that displays the authorized inspector sign for a \$1-fee. If the car needs some minor repair to pass the inspection, the owner must have the repair done before a safety inspection sticker will be issued. The fine for failure to comply with this law is \$25.

LBJ To Remain Within U.S.

WASHINGTON (UPI) — President Johnson will not travel outside the United States while there is no vice president unless an unforeseen crisis develops, it was learned officially Friday.

Under the circumstances, a meeting between Johnson and French President Charles de Gaulle is highly unlikely this year, a State Department official said.

This was disclosed by Assistant Secretary of State Frederick G. Dutton in a letter to Rep. Robert Ellsworth, R-Kan., one of 14 GOP congressmen, who earlier had urged a De Gaulle-Johnson summit meeting.

Dutton said Johnson's decision to stay at home was based "on a sound regard for our constitutional system." He added that "unfortunately, General de Gaulle has no present plans to accept the invitation of the President to visit the United States again to discuss matters of mutual interest."

Johnson last met De Gaulle in November, when the French president was here for the funeral of President John F. Kennedy. At that time, the two leaders were expected to confer again at formal talks.

Dutton noted that on March 7, Johnson told reporters he would be happy to meet De Gaulle any time it could be arranged.

"Under the circumstances," Dutton said, "A Johnson-De Gaulle visit appears to be ruled out for the remainder of the year."

St. Thomas Episcopal Church, 11:15 p.m., blessing of the New Fire, lighting of the Paschal Candle, holy eucharist and sermon.

Saint Matthew's Catholic Church, 11 p.m., ceremonies of Holy Saturday begin; 12 midnight Easter Vigil Mass during which holy communion may be received.

Saint Matthew's Catholic Church, 11 p.m., ceremonies of

Easter candle, baptismal water, followed by midnight mass.

Church of Jesus the Good Shepherd, 11 p.m. Easter vigil, 12 midnight mass for the parish.

Monroe First Baptist Church, 7 p.m. showing of full color 55-minute film, "I Beheld The Glory," on large screen adjacent to parking lot, for viewing from cars. It will be repeated Sunday evening.

Opening the area Easter Sunday observances will be two community sunrise services.

At 5:45 a.m., Easter sunrise services will be held at Monroe Memorial Park Cemetery on Highway 80 East, under sponsorship of the Pilot Club of Monroe-West Monroe. Speaker will be Rev. C. F. Vorkoper, pastor of Messiah Lutheran Church and president of the Monroe Ministerial Alliance.

Music will be provided by a symphonic band directed by Jack W. White and the combined choirs of West Monroe First Baptist Church directed by Bill Denton.

The theme will be "The Light of the World." Program chairman is Mrs. H. M. Chatham. In the setting for the service are three large figures before the open tomb and three crosses on the hill. The scene has been illuminated by spotlight at night during the past week so it could be viewed by visitors.

At New Light Baptist Church on Prairie Road near Monroe, community Easter sunrise services will be held at 6:30 a.m., with Rev. Paul McComb, pastor, delivering a sermon on "The Light of the World." There also will be congregational singing.

A number of revivals which have been in progress this week, will climax Sunday, and several new revival series will be launched on that day.

Special attention to the story of the resurrection of Christ will be given at regular services in churches throughout the area, and several churches plan cantata presentations.

Some of the churches announcing cantatas for Sunday include:

Central Baptist Church, 7 p.m. 40-voice Central Choral presenting "Seven Last Words of Christ."

Emanuel Baptist Church of Monroe, 7 p.m., church choir with "Hallelujah! What A Savior!"

McGuire Methodist Church, 7 p.m. choir presenting "Easter-tide."

Trinity Baptist Church, 7:30 p.m., "Hallelujah, What A Savior!"

West Monroe First Baptist Church, 7:30 p.m., choir presenting "Golgotha."

A program of gospel music will be presented at 5:30 p.m. Sunday at Auld's Chapel Congregational Church near Arkansas Road, about 10 miles west of West Monroe. Featured will be the Rhythmaires Quartet of West Monroe.

Markets Close

On Good Friday

Stock market exchanges and most commodities market centers were closed yesterday for the annual Good Friday pre-Easter observance.

The market centers will resume normal operations Monday morning.

LIVESTOCK

CHICAGO (AP)—After having held steady to strong in active trading Friday, the butcher hog market turned toward weakness and some offerings sold 25 cents a hundredweight lower in late slow dealings.

The top remained at \$15.50, paid for a few mixed No. 1 and 2 grades. Other sold down to \$15.25. Mixed 1-3 grades brought \$14.25-15.25 for 190-250 lb weights. Sows sold up to \$13.50.

Prime grade slaughter steers brought \$23 for 1,240-1,307 pounds with prices steady. Other offerings up to 1,350 lbs cleared at \$22.75 and the mixed high choice and prime at \$22.25-22.75.

Heifers were steady to strong, with good to mixed choice and prime selling at \$19.50-22.25.

No sales of spring or wooled slaughter lambs were reported.

POTATOES

CHICAGO (AP)—(USDA)—potatoes: Idaho russets 4.75; Minnesota North Dakota Red River Valley round reds 2.65; Wisconsin russets 3.25; Wisconsin utilities 1.65; New: Florida round reds 2.85-3.00.

Michigan Law On Elections Ruled Invalid

DETROIT (AP)—Michigan's law governing the election of the state's 19 congressmen was held unconstitutional Friday by a three-judge federal court panel.

The state legislature was ordered to draw up new districts. If this is not accomplished in time, the elections this year must be held on an at-large basis, the court directed.

U.S. Dist. Judges Talbot Smith and Stephen J. Roth joined with Judge Clifford O'Sullivan of the 6th Circuit Court of Appeals in a unanimous verdict that Michigan's 1963 law governing elections was unconstitutional. Judge O'Sullivan dissented on other points.

The court ruled in a challenge to the law's constitutionality brought by two taxpayer-teachers, Karl J. Jacobs and Donald A. Calkins, faculty members at Henry Ford Community College in suburban Dearborn.

Jacobs and Calkins complained that their equal protection rights under the Constitution's 14th Amendment were violated by allegedly discriminatory districting. They said the districts were divided unevenly on a population basis.

Third Victim Of Fire Dies

BATON ROUGE (AP)—A motel fire and explosion Friday claimed its third victim in the same family when Timothy Murphy, 8, died of burns.

The child's mother, Mrs. James E. Robinson, 38, Encino, Calif., and her 12-year-old son, Danny Murphy, died of burns and injuries received early Tuesday.

Officers said a smoldering mattress filled the room with gases, which burst into flame when Timothy opened the door.

The woman had told officers she awoke during the night and lit a cigarette, and the next thing she knew the room was in flames.

The woman's former husband and father of boys arrived here Friday from California.

Ancient Jewish Festival Begins

NEW YORK (AP)—Passover, the ancient Jewish festival celebrating the freedom of the Israelites from bondage, began Friday night at sundown.

Orthodox and Conservative Jews will observe the festival for eight days, reform Jews for seven.

Matzah, which is unleavened bread, will be eaten by Jews as a reminder of the haste with which the Israelites left Egypt as recorded in the Old Testament book of Exodus.

By coincidence, Passover starts this year on Good Friday, the day Christ was crucified and a day of penance and mourning for Christians.

Central Figure In Trial Dies

PARIS (AP)—French papers Friday reported the death in Morocco last September of Pauline Dubuisson, central figure in one of France's most sensational postwar murder trials.

Miss Dubuisson, then 26, was convicted in 1953 of shooting to death a medical student who had formerly been her lover. Movie director Georges Clouzot made a film about the case entitled "The Truth," starring Brigitte Bardot.

After serving six years of her life sentence, Miss Dubuisson was paroled and went to Morocco to work in a hospital at Mogador.

Austrian Slide Buries 6 Skiers

INNSBRUCK, Austria (UPI)—An avalanche roared down from 10,000 feet in the Tyrolean Otztal area Friday and buried six unidentified skiers.

One of the skiers was able to free himself and reported the incident to authorities.

Tyrolean mountain police helicopter rescue efforts were thwarted by snow and fog and were forced to turn back.

Officials said the only chance of reaching the trapped skiers until the weather cleared was by foot up the steep mountain.

"Skis are mentioned in Norse mythology, where Ull was the ski god and Skade was the ski goddess." Small shrines in their honor should be maintained by all fracture specialists and plaster cast manufacturers.

Civil Rights Stage Sit-In At Mayor's Office

NEW YORK (UPI)—Eight civil rights demonstrators sprinted past guards at city hall Friday and staged a sit-in at the offices of Mayor Robert F. Wagner. Police carried them out and arrested them.

The pickets, members of the Brooklyn and Bronx chapters of the Congress of Racial Equality (CORE), were led by Herbert Callender, a CORE official from a militant new branch of that organization who has been denounced as "irresponsible" by Police Commissioner Michael Murphy.

Callender said the eight would sit outside the mayor's office until he met with them on the issue of alleged police brutality. At the time of the demonstration—about 1:30 p.m.—EST—the mayor was boarding a plane at Kennedy International Airport for a vacation in Florida.

The demonstrators also said they wanted to see the mayor about his alleged silence on the problem of school segregation.

Detectives at city hall had been warned of the demonstration, and were locking the hall as the eight, five men and three women, approached. But the pickets eluded two detectives and rushed past a barrier toward the mayor's office.

One chained himself to a banister. As police reinforcements arrived, he was cut free and taken with the others to a police station. Officers said they would be charged with violating public safety and resisting arrests.

Civil rights picketing in city hall was banned by Wagner last August after four demonstrators who had staged a month-long sit-in were removed by police.

Chicago Bandit Found In Florida After Robbery

TAMPA, Fla. (UPI)—Kris Pantanas, wanted in Chicago for an armed robbery in which police killed his three alleged companions, was arrested Friday wearing a coat and shirt which authorities said appeared to be bullet-punctured.

The slight, 25-year-old Greek national was arrested on a fugitive warrant when he appeared in federal court shortly before noon for arraignment on a charge of passing counterfeit U. S. Treasury bonds.

He was held in lieu of \$100,000 bond on the Chicago warrant, and FBI agents kept his dark blue coat and sport shirt because they appeared to have bullet holes in them.

Pantanas is accused of taking part in the holdup of a National Tea Co. supermarket in Chicago Wednesday. Police had been tipped off and were waiting for the gunmen as they left the supermarket.

As the gunmen tried to escape they were caught in a hail of fire from police machine guns and shotguns. One of the four escaped, but the three others were left sprawled out on front lawns.

Saigon Workers Strike Center

SAIGON, South Viet Nam (AP)—Employees at the Saigon telecommunications center went on strike today for higher wages, disrupting international cable traffic.

A company official said no immediate settlement of the strike was in sight.

MISS DOROTHY GLOTT throws clothing including mink coat from third floor window of apartment while firemen and ladder wait to save her from advancing flames. In center Miss Glott who had put on heavy sweater is helped from ladder. At right is apartment minutes later. Miss Glott had been at left window. Fire swept upper floors of the same six story building last Monday. (AP Wirephoto)

apartment. When she saw a man loitering, she headed up the street. Soon the loiterer attacked her.

She screamed, and lights went on in a 10-story apartment house nearby. Residents looked from windows.

"Oh, my God, he stabbed me," Miss Genovese screamed. "Please help me. Please help me."

A man screamed, "Let that girl alone."

The killer left Miss Genovese on the sidewalk. She struggled to her feet. The lights in nearby apartments went out again.

Once again the killer stabbed Miss Genovese and she shrieked, "I'm dying, I'm dying."

Windows went up again. Lights went on. The killer, frightened once more, got into a car and left. A bus drove by. Miss Genovese now was trying to crawl to safety.

Once again the killer returned. He found Miss Genovese slumped on the floor at the foot of the stairs at 82-62 Austin Street. He stabbed her a third time.

Finally police got a call. Two minutes later they were at the scene — but too late to save Miss Genovese's life.

Winston Mosely, 29, a business-machine operator, has been arrested and charged with homicide in the death of Miss Genovese. He now is undergoing mental examination at a state hospital.

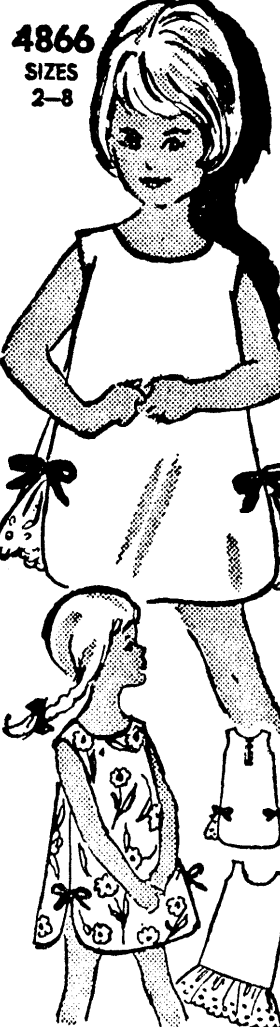

Police, in questioning residents of the area, said they got many answers of "we didn't want to get involved" when asked why they didn't telephone police.

Lussen said "a phone call would have saved the girl's life."

An easy way to cook pork chops is to dip them in milk and then in seasoned crumbs and bake in moderate oven for about three-quarters of an hour for half-inch thick chops.

POLICE DISTURBED

Neighbors Watch Killer Stab Woman

NEW YORK (UPI)—The revelation that 37 Bronx residents watched the brutal stabbing of a woman without calling for help spurred the police department Friday to announce it would inform the public on ways to prevent crime.

The department's announcement that it would distribute fliers came after an official disclosed how residents of a quiet neighborhood had watched — from the windows of their homes — as a killer stalked and fatally stabbed Catherine Genovese, 28, two weeks ago in the early morning.

Assistant Chief Inspector Frederick M. Lussen, who was in charge of Queens Borough detectives when she was killed, said the killer staged three separate attacks on the woman over a half hour period before she started walking toward her

U.S. AIR FORCE Captains Melvin J. Kessler of Philadelphia, right, and David I. Holland of Holland, Minn., are pictured in car on arrival at checkpoint in Helmstedt, Germany, as they returned to the West after 17 days in East

Germany. They were shot down in a U.S. reconnaissance bomber by a Russian fighter March 10. Another U.S. airman aboard the American plane was returned to the West last week. (AP Wirephoto via cable from Hamburg)

GOLDEN ANNIVERSARY

Sulphur Planning Huge Celebration

SULPHUR (Special)—Mayor J. Earl Koonce is issuing a state-wide invitation, aimed especially at former residents, to attend the reunions and other events planned to celebrate Sulphur's golden anniversary, April 12-18.

Activities will begin on Sunday with special services in the city's churches which are inviting former members to return for the day. Former pastors are also being invited to preach in some of the churches.

Sunday afternoon, an open house in City Hall will afford visitors another opportunity to renew acquaintances. A special feature of the open house will be a display in the courtroom of old pictures and historic articles. This exhibit will be open all week.

The "Chapeau Follies Breakfast," an event just for the ladies, is scheduled Tuesday morning, April 14. Some 500 women are expected to attend the free breakfast which will spotlight contests to choose the most beautiful handmade hat, the most authentic 1914 chapeau and the most hilarious hat. There will also be a prize for the most authentic 1914 costume.

Other events for the week include a street dance, a band and choral concert, a soap box derby, bike race from the Sulphur Mines entrance to City Hall, a pet show, games and a picnic at Herman Frasch Park.

Red Vietnamese Defines Struggle

TOKYO (UPI)—Communist North Vietnamese President Ho Chi Minh said Friday the civil war in South Viet Nam is "a struggle for national reunification."

Ho made the statement at a "special political conference" with 300 North Vietnamese leaders in Hanoi, according to a broadcast of the government radio monitored here.

The address appeared to rule out any possibility of a settlement for Viet Nam achieved through "neutralizing" South Viet Nam where U.S.-supported troops are fighting Communist guerrillas.

Ho accused the United States of "prolonging the partition of our country."

Solon Charges Disrespective Use Of Flags

NEW YORK (UPI)—Rep. John D. Murphy (D-N.Y.) charged Friday that American Flag material is being used to line cheap clothing in stores across the country — many of the flags being of the 50-star type.

Improper disposal of the flag is a violation of law, Murphy said he is introducing legislation to provide stiff fines, prison sentences, or both, for persons misusing the standard.

According to Murphy, a Brooklyn woman bought a reversible jacket for one of her children at local discount store, and found that all four pockets were lined with flag material. He said the Federal Trade Commission was investigating the subject.

Information on the purchase, and other garments found to similarly contain Flag material, is being forwarded to the House Judiciary Committee, which is conducting hearings on Murphy's bill to regulate sale and use of the flag.

Ethiopia Battles Somalia Forces

ADDIS ABABA, Ethiopia (UPI)—Heavy fighting between Ethiopian and Somali forces broke out again early Friday for the second consecutive day, the Defense Ministry announced.

It said Somalis, supported by tanks and heavy artillery, had been repulsed at Enguba, although fighting still was going on.

2 U.S. Airmen Missing From Viet Nam Flight

SAIGON (UPI)—Two American airmen were reported missing Friday on a reconnaissance flight over South Viet Nam. A third U.S. pilot died Wednesday of wounds suffered last week when his plane was shot down by a Cambodian fighter, it was announced Friday.

(In Hanoi, capital of Communist North Viet Nam, President Ho Chi Minh held an unprecedented "special political conference" with 300 North Vietnamese leaders, apparently to discuss reports that the United States planned to extend the anti-guerrilla war into the north.)

A U.S. military spokesman said the missing plane, a light single-engine L-19, disappeared Thursday over the northern highlands and may have gone down in the dense rain forest which covers the area. Authorities launched a massive air search.

The death of Air Force 1st Lt. Uwe-Thorstein Seobel, 27, of Honolulu, Hawaii, in a Philippine military hospital raised to 203 the number of Americans who have died in South Viet Nam against Communist rebels. Seobel was a naturalized U.S. citizen born in Germany.

Seobel's L-19 plane was shot down inside Viet Nam by a Cambodian fighter piloted by Prince Monirak, the son of Cambodian chief of state Norodom Sihanouk, on March 19 during a Vietnamese attack on the border village of Chantrea.

Monirak was at the controls of a T-28 fighter supplied to Cambodia by the United States. Seobel was directing Vietnamese village infested with Communist Viet Cong guerrillas.

In Phnom Penh, Sihanouk said Friday that Monirak, a lieutenant in the Cambodian air force, would be decorated for bravery for downing Seobel's plane. "The Vietnamese observed that the plane was shot down when the plane crashed but Seobel survived with critical injuries. He died Wednesday at Clark Field Hospital near Manila."

The missing L-19 and its two American officers left a U. S. Army special forces camp in Quang Tri Province, about 12 miles from the Laotian border, on Thursday. It carried a U.S. Air Force pilot and a U.S. Army observer.

Korean Youths March In Street For Fourth Day

SEOUL, South Korea (AP)—Thousands of students marched in street demonstrations Friday for the fourth straight day, accusing President Chung Ilse Park of conducting sell-out diplomacy with Japan.

But there were signs that Park's strategy of appeasing the students a little and waiting for the storm to blow over might be paying off. Park has said he will not yield to student demand to suspend normalization and economic talks with Japan.

The number of demonstrators in the capital, where the demonstrations began, dropped sharply to about 7,000 students. About 30,000 marched the day before.

A few students were injured in a brief clash with police when about 300 high school boys tried to tear up barbed-wire barricades blocking the road to Park's presidential mansion.

No incidents were reported from 15 provincial towns where a total of close to 30,000 students marched.

Park made a major gesture of appeasement by ordering the recall of Kim Chong Pil, top diplomatic troubleshooter who has been in Tokyo since March 20 to expedite the talks. Kim, chairman of the ruling Democratic Republican party is expected to return here Saturday.

For the Protection Of Our Readers And Advertisers!

Close censorship is exercised over ALL ADVERTISING (Classified or Display) accepted for publication in this newspaper.

We never knowingly publish advertisements that are untruthful or fraudulent — and detrimental to the best interest of our readers. All advertisements are accepted for publication on the premise that they are factual, that products advertised are properly described at the advertised price and will be willingly sold to the customer at the price and conditions in the advertisement.

If any reader ever encounters anything other than truthful content and with these conditions, we would appreciate your calling or writing them.

IN KEEPING with the Easter Season, the St. Francis Hospital prepared "Easter Egg outfits" for the babies leaving the hospital this week. However, this one, Rosemary Upshaw, daughter of Mr. and Mrs. Elton J. Upshaw Jr., was too large for the "lid" or upper part of the "egg" to close. Shown with Mrs. Upshaw and Rosemary is Mrs. John C. Scalia, secretary of the St. Francis Hospital Auxiliary. The auxiliary prepared the special "going home" outfit. (Staff photo by John I. Fogleman)

RELAXING AT RANCH

Johnson Takes Off For Easter Holiday

JOHNSON CITY, Tex. (AP)—President Johnson went on a relaxed Easter holiday schedule Friday, keeping in touch with official business from his Peder-nales River ranch home.

He signed 13 bills, named a three-member railroad dispute fact-finding board, and proclaimed May senior citizens month, aimed at providing "meaningful opportunities" for older persons.

White House press secretary George Reedy, meeting reporters in Austin, Tex., 65 miles from the LBJ Ranch, said the President was spending Good Friday with no plans "to get be-

Nixon Criticizes Indonesians For Malaysia Action

KUALA LUMPUR, Malaysia (UPI)—Former Vice President Richard Nixon sharply criticized Indonesia Friday for opposing Malaysia.

He also said anyone who advocated the neutralization of South Viet Nam, as French President Charles de Gaulle has done, had a "hole in the head."

Nixon, on a business tour of the Far East for his law firm, told a news conference: "President Sukarno (of Indonesia) is president of a great country . . . and President Sukarno would be well advised to handle the problems of his own country."

"The American people and I think the overwhelming majority of the United States Congress takes a very dim view of a country using American aid, either directly or indirectly, against a free and independent country."

Asked about a reported statement by Sukarno that American aid could "go to —" Nixon said: "I would think that the United States Congress would feel likewise (about Indonesia)."

Nixon said he would not criticize American foreign policy when he was outside the United States.

Malaysian Prime Minister Dengku Abdul Rahman was to host the visiting Americans at a stag dinner at his hilltop residence Friday night. Government leaders and a few diplomats were included on the guest list.

NAACP Urges Group To Probe Police Brutality

NEW ORLEANS (AP)—Creation of a citizens committee with subpoena power to investigate charges of police brutality was urged by Negro leaders Friday.

A. J. Chapital Sr., spokesman for the National Association for the Advancement of Colored People branch here, said a model ordinance was being prepared for submission to the city council.

The proposed citizens committee would replace the present Police Bureau of Investigation.

Chapital said the committee would be composed of "Negro and white citizens of high integrity and standing in the community with no legal axes to grind."

"We have not had as many reports of police brutality as there have been in the past," he added, "but there is a hard core of policemen that needs to be removed if we are to improve the image of the department."

COURT OKAYS BID

Salinger To Run In State Primary

SAN FRANCISCO (UPI)—Former White House Press Secretary Pierre Salinger won the first skirmish of his political career Friday when the California Supreme Court ordered his name put on the primary ballot as a candidate for U.S. senator.

California Secretary of State Frank Jordan, a Republican, had refused to put Salinger's name on the ballot for the Democratic nomination on the grounds his nominating papers were "incomplete."

Salinger, who last voted in Virginia, included a personal affidavit that he had been a Democrat for the three months prior to filing. Normally this is proved by voting registration.

The high court gave no reason for its action but said the order was unanimous and final.

The high court gave no reason for its action but said the order was unanimous and final.

Mark Morris, a Bakersfield rancher and also a candidate for the same nomination, said he was considering appealing the decision to the U.S. Supreme Court.

Salinger's attorneys petitioned the state high court to require Jordan to include Salinger's name on the ballot, saying his interpretation of the state election code was not in the spirit of the law.

The former newspaper reporter, a native of San Francisco, maintained that he has been a Democrat all his life. He served as press secretary to the late John F. Kennedy and continued in the position under President Johnson until last week when he suddenly resigned.

Salinger unexpectedly entered the race last Friday, the final day for filing. His action threw state Democratic leaders into turmoil since many of them already were committed to one

Rockefeller Sets Special Session For Reform Bill

ALBANY, N. Y. (UPI)—Gov. Nelson A. Rockefeller, stung by the most crushing defeat of his political career, Friday drew up plans for a special session of the legislature to try once again to ram through his liquor reform bills and mend the damage to his image as a presidential candidate before the West Coast primaries.

The legislature, controlled by Rockefeller's own party, adjourned early Friday after dealing the governor a double-barreled blow. It not only killed his liquor legislation but ignored his request for action on repeal of railroad full crew statutes.

Rockefeller, angry and grim-faced, immediately announced he would call a special session of the legislature for April 15 and give the lawmakers the same administration bills to reconsider.

One legislator said it only would mean another stinging defeat for Rockefeller.

The defeat came at the most inopportune time for Rockefeller, who faces stiff primary battles May 15 in Oregon and June 2 in California. A defeat in the California battle could send him into oblivion as a Republican presidential hopeful.

Political observers said an assessment of the 1964 legislature showed a definite split within the Republican party. Some said the governor's loss of control of his own party in his home state would be reflected on the national level.

At a special session, the legislators can act only on subjects proposed by the governor.

LBJ's Daughters Stay In Capital During Easter

WASHINGTON (UPI)—It will be bonnets, beaus, and school books for President Johnson's two daughters over the Easter weekend.

With the President and Mrs. Johnson spending the holiday at the family ranch in Texas, the two girls are "in charge" of the White House.

Despite the glamor of their surroundings, the Easter holiday will be much the same for Lynda and Luci Johnson as it is for the girl next door.

The high point will be church on Sunday. The two girls will wear their Easter outfits which were said to be much alike—both were white suits with a blue trim.

For 16-year-old Luci there will be something special on the social calendar. She has a date over the weekend with Jack Olsen, a freshman at the University of Wisconsin. During the Christmas school holidays, Luci was Olsen's guest in Wisconsin.

Monday will be a school-as-usual day for Lynda with a class at George Washington University. But in the afternoon both Luci and Lynda will take on the job as official hostesses for the White House.

The two sisters will preside over the traditional White House Easter egg roll.

Six Grambling Students Attend Judging Contest

GRAMBLING, La. (Special)—Six Grambling College students are participating in the Inter-Collegiate Livestock and Poultry Judging Contest at Fort Valley State College, Fort Valley, Ga., which ends today.

Dr. R. L. Bailey, acting head, department of agriculture, and Marcus Earls, associate professor of dairy science, serve as coaches for the Grambling team.

Dr. Bailey said the purpose of the competition is to increase the interest of college boys in animal science and to develop an appreciation for better quality animals.

Agriculture majors making the trip included Elbert Hamilton, Bains; Frederick Buggs, Grambling; Hisikies Carey, Caspiana; Jimmy Williams, III, Columbia; and Louis Sims, Shreveport.

Participating schools in addition to Grambling are Southern University, Alcorn A&M, Fort Valley State, Tenn. A&I State, North Carolina A&T, South Carolina State, Florida A&M, and Tuskegee.

Viet Nam May Seal Routes

SAIGON, South Viet Nam (AP)—There are growing indications that South Viet Nam has decided to fight Communist infiltration into this country at its source by attacking the Viet Cong and Pathet Lao guerrillas on infiltration routes in Laos.

The campaign presumably has the blessing of Gen. Phoumi Nosavan, leader of the right-wing faction in Laos' neutralist government.

"Such an operation would not involve stationing Vietnamese troops on Laotian soil, and there would be no question of violating Laotian territorial sovereignty," an informed observer said.

Since the visit this month of U.S. Defense Secretary Robert S. McNamara, the Pathet Lao radio repeatedly has charged that South Vietnamese forces are shelling Laotian towns.

The radio said one shelled town was Tchepone, near an airstrip that has been used for years by Soviet planes supplying material to the Pathet Lao and possibly to the Viet Cong. Tchepone is 20 miles from the Vietnamese frontier town of Lao Bao.

In the last few weeks there has been unusual military activity in and around Lao Bao.

Lao Bao is in mountains near the winding Tchepone River. The only large building is a ruined, cobra-infested structure used by the French colonial regime as a political prison.

A U.S. Army special forces detachment in the area used to go regularly a few miles into Laos to talk to officers of a Laotian rightist battalion under Phoumi Nosavan's command.

That battalion operated as a kind of anti-Communist island in terrain controlled by the Pathet Lao.

Gen. Phoumi arrived in South Viet Nam on March 15 for secret talks with the Vietnamese premier, Maj. Gen. Nguyen Khanh.

What every Bride should know...

ABOUT CHOOSING HER CRYSTAL!

- In getting the quality you pay for, you must depend upon the integrity of the store from whom you buy. This is where Trend House can be of great value to the bride in selecting her crystal.
- SHAPE . . . The shape of the glass should lend to easy drinking, fitting the mouth. Any ornamentation should follow the shape of the goblet or tumbler. The shape of the wine glass should go with the water glass and as well with the sherbet.
- BALANCE . . . Note the overall balance. The glass should balance well when filled with liquid. There should be no cracks or imperfections. The edges should be smooth, and not sharp.
- DESIGN . . . The design should complement your china and silver. Check into the durability. Be sure your crystal won't crack at the slightest touch, therefore letting you enjoy it for years.
- CLARITY . . . When fine crystal reflects the light it should be radiant, have lustre and sheen as opposed to being flat and dull.
- Let Trend House help you avoid pitfalls of choosing the wrong crystal.

RELAXING AT RANCH

Johnson Takes Off For Easter Holiday

JOHNSON CITY, Tex. (AP)—President Johnson went on a relaxed Easter holiday schedule Friday, keeping in touch with official business from his Pedernales River ranch home.

He signed 13 bills, named a three-member railroad dispute fact-finding board, and proclaimed May senior citizens month, aimed at providing "meaningful opportunities" for older persons.

White House press secretary George Reedy, meeting reporters in Austin, Tex., 65 miles from the LBJ Ranch, said the President was spending Good Friday with no plans "to get be-

yond the ranch gate" on his 400 acres.

The President made his usual inspection tour of his ranch shortly after his arrival Thursday night. He has not had a holiday vacation here since Christmas.

Reedy said the chief executive received briefings on international events from his assistant military aide, Lt. Col. James Connell, and announced his gratification at the release Friday of two U.S. airmen whose reconnaissance plane was shot down in East Germany.

The two, Capt. David I. Holland of Holland, Minn., and Capt. Melvin J. Kessler of Philadelphia, were turned over to American authorities at Helmsstedt, Germany.

While Johnson remained at the ranch, Mrs. Johnson made a morning visit to Austin to have her hair done at a beauty shop.

The Johnsons have as house guests Democratic Rep. and Mrs. Jack Brooks of Beaumont, Tex.

A colorful, traditional festival is scheduled for Saturday night in nearby Fredericksburg, marking an Indian siege against the town on Easter Sunday and the neighbors wondered whether the Johnsons might celebrate it with them.

According to local history, the men of the town had left to sign a treaty with the Indians and the women and children found themselves surrounded by Indians with signal fires dotting the hillsides.

Mothers quieted their children through the night by telling them the Easter bunnies were boiling eggs. The Indians left the next morning and signed a peace treaty.

Nixon Criticizes Indonesians For Malaysia Action

KUALA LUMPUR, Malaysia (UPI)—Former Vice President Richard Nixon sharply criticized Indonesia Friday for opposing Malaysia.

He also said anyone who advocated the neutralization of South Viet Nam, as French President Charles de Gaulle has done, had a "hole in the head."

The former newspaper reporter, a native of San Francisco, maintained that he has been a Democrat all his life. He served as press secretary to the late John F. Kennedy and continued in the position under President Johnson until last week when he suddenly resigned.

Salinger unexpectedly entered the race last Friday, the final day for filing. His action threw state Democratic leaders into turmoil since many of them already were committed to one

of the two major candidates, State Controller Alan Cranston, who has the endorsement of the California Democratic council, or incumbent Sen. Clair Engle.

Engle underwent brain surgery last summer and Salinger said he did not believe the senator was in good enough health to represent the state effectively.

State Atty. Gen. Stanley Mosk was mentioned prominently as a possible Democratic candidate, but last month he publicly withdrew. He has not yet announced whom he will support, but observers believe he is leaning toward Salinger.

Mosk's office Thursday filed a brief with the state supreme court upholding Jordan's position in refusing to put Salinger on the primary ballot. The brief was prepared and signed by Asst. Atty. Gen. Charles A. Barrett. Mosk's name was typed on the brief but the attorney general did not sign it.

Six Grambling Students Attend Judging Contest

GRAMBLING, La. (Special)—Six Grambling College students are participating in the Inter-Collegiate Livestock and Poultry Judging Contest at Fort Valley State College, Fort Valley, Ga., which ends today.

Dr. R. L. Bailey, acting head, department of agriculture, and Marcus Earls, associate professor of dairy science, serve as coaches for the Grambling team.

Dr. Bailey said the purpose of the competition is to increase the interest of college boys in animal science and to develop an appreciation for better quality animals.

Agriculture majors making the trip included Elbert Hamilton, Bains; Frederick Buggs, Grambling; Hisikies Carey, Caspiana; Jimmy Williams, III, Columbia; and Louis Sims, Shreveport.

Participating schools in addition to Grambling are Southern University, Alcorn A&M, Fort Valley State, Tenn. A&I State, North Carolina A&T, South Carolina State, Florida A&M, and Tuskegee.

Viet Nam May Seal Routes

SAIGON, South Viet Nam (AP)—There are growing indications that South Viet Nam has decided to fight Communist infiltration into this country at its source by attacking the Viet Cong and Pathet Lao guerrillas on infiltration routes in Laos.

The campaign presumably has the blessing of Gen. Phoumi Nosavan, leader of the right-wing faction in Laos' neutralist government.

"Such an operation would not involve stationing Vietnamese troops on Laotian soil, and there would be no question of violating Laotian territorial sovereignty," an informed observer said.

Since the visit this month of U.S. Defense Secretary Robert S. McNamara, the Pathet Lao radio repeatedly has charged that South Vietnamese forces are shelling Laotian towns.

The radio said one shelled town was Tchepone, near an airstrip that has been used for years by Soviet planes supplying material to the Pathet Lao and possibly to the Viet Cong. Tchepone is 20 miles from the

Vietnamese frontier town of Lao Bao.

In the last few weeks there has been unusual military activity in and around Lao Bao.

Lao Bao is in mountains near the winding Tchepone River. The only large building is a ruined, cobra-infested structure used by the French colonial regime as a political prison.

A U.S. Army special forces detachment in the area used to go regularly a few miles into Laos to talk to officers of a Laotian rightist battalion under Phoumi Nosavan's command.

That battalion operated as a kind of anti-Communist island in terrain controlled by the Pathet Lao.

Gen. Phoumi arrived in South Viet Nam on March 15 for secret talks with the Vietnamese premier, Maj. Gen. Nguyen Khanh.

What every Bride should know...

ABOUT CHOOSING HER CRYSTAL!

In getting the quality you pay for, you must depend upon the integrity of the store from whom you buy. This is where Trend House can be of great value to the bride in selecting her crystal.

SHAPE . . . The shape of the glass should lend to easy drinking, fitting the mouth. Any ornamentation should follow the shape of the goblet or tumbler. The shape of the wine glass should go with the water glass and as well with the sherbet.

BALANCE . . . Note the overall balance. The glass should balance well when filled with liquid. There should be no bubbles or imperfections. The edges should be smooth, and not too sharp.

DESIGN . . . The design should complement your china and silver. Check into the durability, making sure your crystal won't crack at the slightest touch, therefore letting you enjoy using it.

CLARITY . . . When fine crystal reflects the light it should be radiant, have lustre and sheen as opposed to being flat and dull.

Let Trend House help you avoid pitfalls of choosing the wrong crystal.
